

# DDoS Testing

Services

SwordSec, a top DDoS attack expert, has effectively managed hundreds of attacks on major global organizations since 2018, including ones that exceeded 100Gbps

Our comprehensive approach to DDoS preparedness involves continuous reinforcement, training, and simulation, ensuring high-risk businesses are genuinely ready for severe attacks.

SwordSec is proud to be an authorized Google Cloud partner for DDoS simulation testing services. Our collaboration with Google Cloud enables us to provide cutting-edge testing solutions
