

HOW TEJAS WORKS

We work side-by-side with partners from early opportunity definition to practical project structuring, consortium building and implementation support.

SCOUT

Identify relevant technologies, needs and opportunities.

STRUCTURE

Translate opportunities into coherent projects and partnership models.

INTEGRATE

Bring together partners, resources and implementation capabilities.

DELIVER

Execute project management, monitoring and practical execution.

CAPABILITIES YOU DISCOVER INSIDE THE TEJAS ECOSYSTEM

TECHNOLOGY AREAS CONNECTED INTO PROJECTS

PERIMETER & ISR SECURITY

Advanced surveillance, sensing and detection infrastructure protection.

OT CYBER RESILIENCE

Secure industrial networks, resilient operations and continuity.

INDUSTRIAL & DUAL-USE

Industrial re-use, R&D platforms and dual-use project development.

DIGITAL IDENTITY & ACCESS

Trusted digital identity, biometric verification and secure access solutions.

SIMULATION & TRAINING

VR/AR simulation, mission training and operational readiness.

UNDERWATER OPERATIONS

Underwater communication, diving systems and maritime solutions.

SECURE • RESILIENT • INNOVATIVE • FUTURE-READY

A TRUSTED PARTNER FOR STRATEGIC TECHNOLOGY INTEGRATION

Tejas connects international technology providers with Romanian industrial, public-sector and institutional stakeholders.

Our focus is practical: structure, integrate and deliver technology-driven projects with measurable impact.
