DSV – Chilean and Argentine mines for your pilot

Project Idea	**Competence offer: we bring mines in Chile and Argentina – both EU strategic raw materials partners – into your MAT-PROD-16 project as feedstock source, validation partner and replication market**
Organisation, town and country	Deutsch-Südamerikanischer Verein e.V. (DSV), Munich, Germany
Addressed topic(s)	**HORIZON-CL4-2027-01-MAT-PROD-16 (raw materials processing)**

Deutsch-Südamerikanischer Verein e.V. (DSV)

- Munich-based non-profit association connecting Europe and South America
- Strong political and business contacts across South America
- Good contacts to German SMEs, incl. via BVMW
- Very good contacts to mining operators in Chile, Argentina and Peru
- Ongoing tech-scouting of mining and energy solutions in the region
- Network across South America, incl. Brazil and Colombia, for replication

Chile and Argentina for your project

- **Topic fit:** Chile and Argentina are both EU strategic raw materials partners
- **Feedstock & validation:** mining operators in Chile and Argentina – ore/tailings data, samples and feedback for your EU pilot
- **Exploitation:** LatAm market and regulatory analysis, follow-up financing roadmap (Global Gateway, IDB, KfW)
- **Policy:** member of the EU-Mercosur Domestic Advisory Group, political network in the region
- **Consortium building:** German SMEs and technology providers via BVMW, connected with Latin American partners

Plus: replication in Peru, Brazil, Colombia; eligibility screening of LatAm partners

Competences / type of partners sought

We are looking for

- A coordinator or consortium preparing a MAT-PROD-16 proposal with an EU-based pilot
- An experienced Dissemination & Exploitation lead

Our role

- Task partner in Dissemination, Exploitation & Replication
- Complementary to your technical partners – we bring Chile and Argentina
