

PHILOSOPHY & IMPACT

The objective of the fund is to steer the investments towards players whose mission consists in resolving social, economic and environmental challenges that we are facing. Microfinance contributes to the professional integration and the empowerment of less-privileged populations who do not have access to the conventional financial system. By doing so, it reduces inequalities by allowing those populations to contribute and benefit from part of the wealth created. Social enterprises have a mission and activities that have a positive impact on society and/or the environment. They address key issues and help to create sustainable jobs for populations that are often the most vulnerable.

INVESTMENT POLICY

The objective of the fund is to support the development of in microfinance and social entrepreneurship within Europe. These structures face unmet financing needs, mainly in the form of loans.
