Logistics is very Inefficient

Collapsed load zones

35% **underutilized**

Manually routes

Constant increasing cost

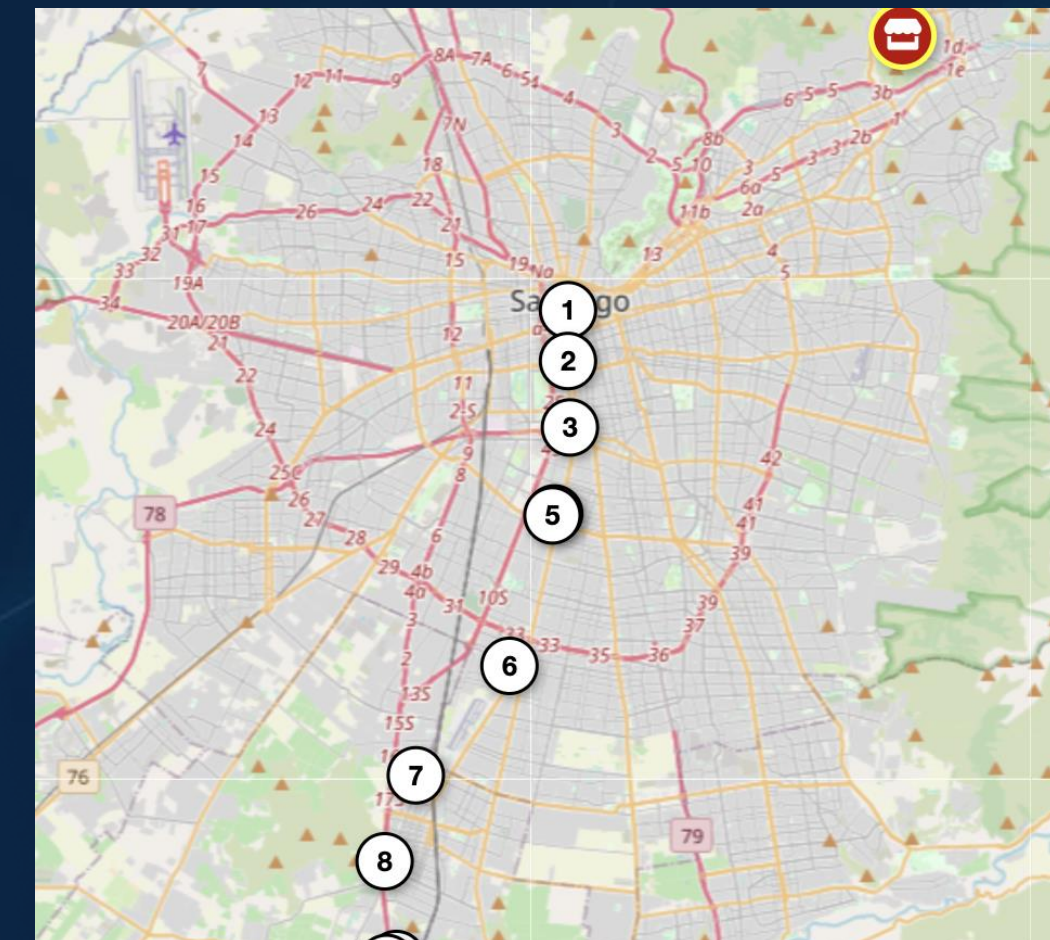

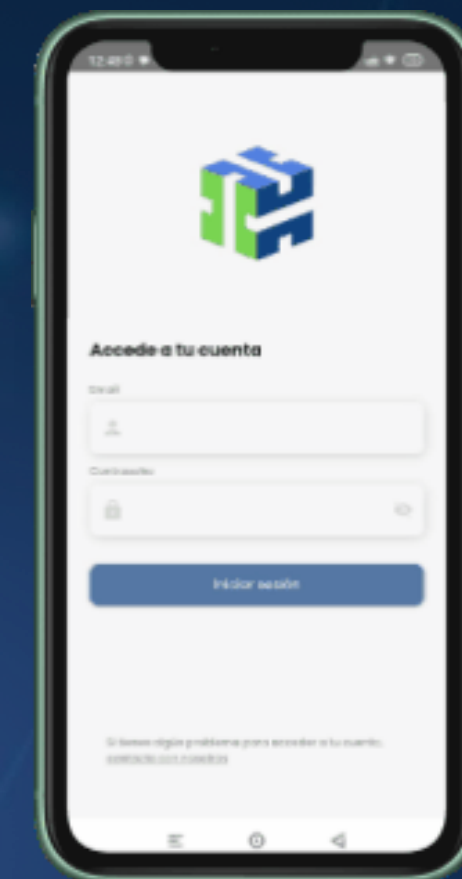

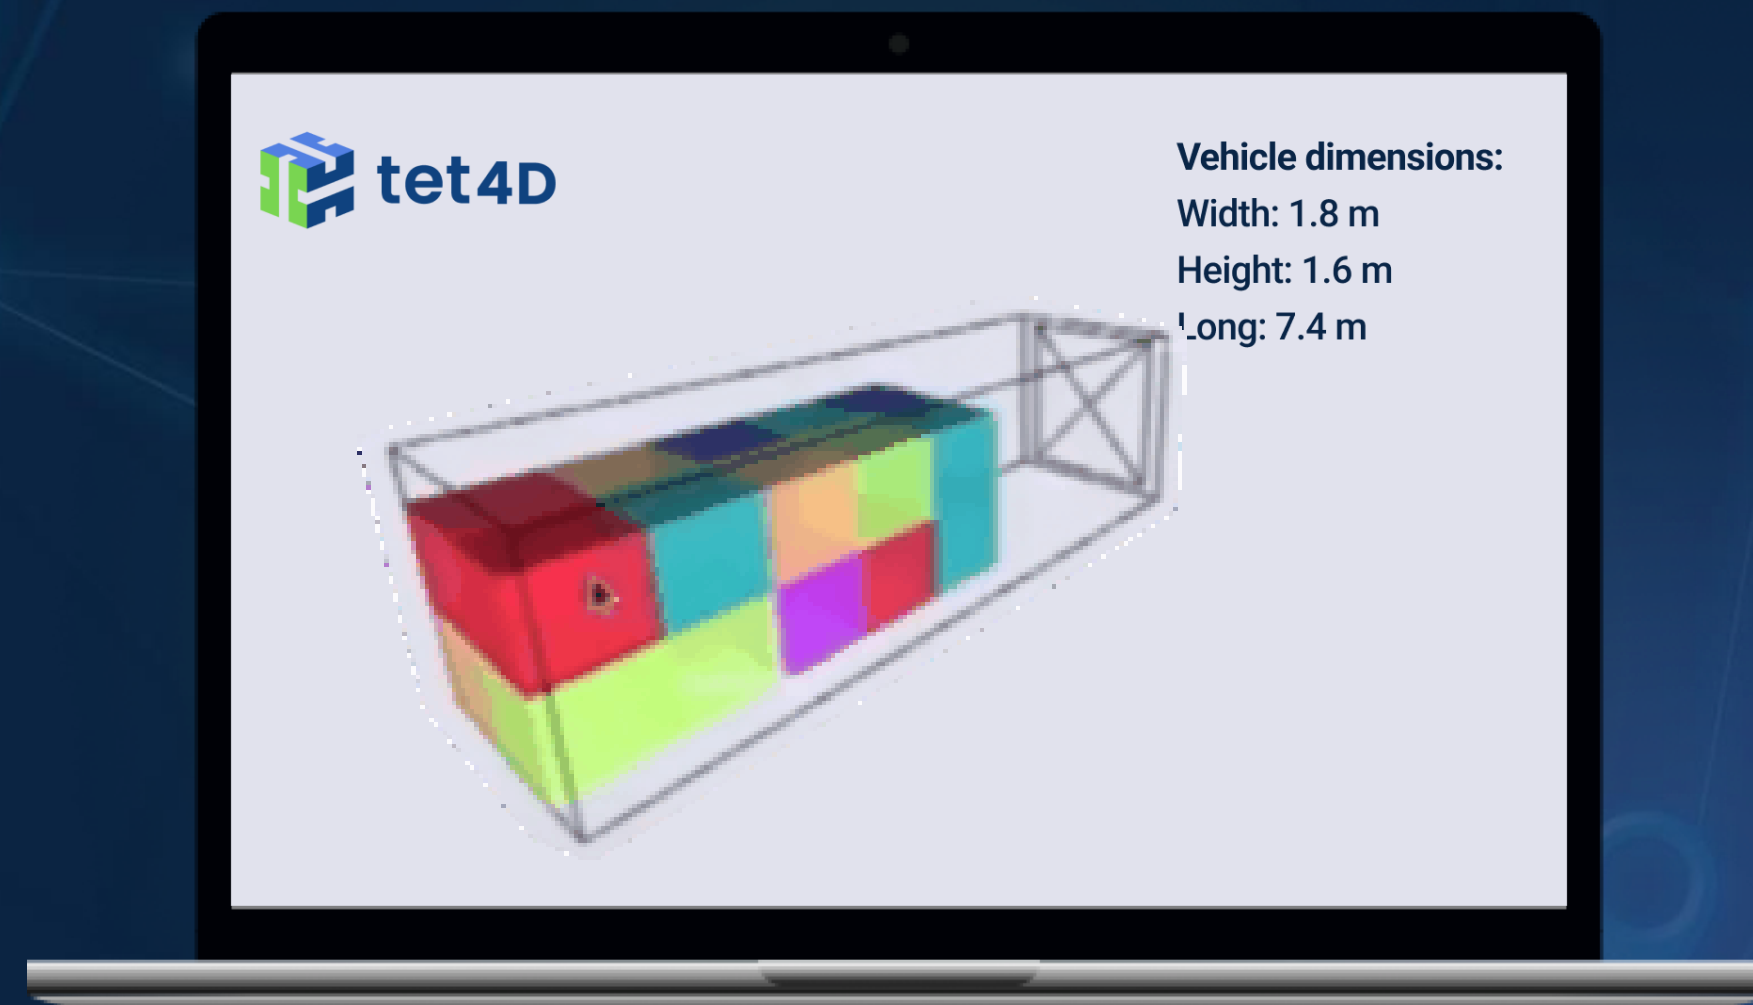

60%

global Co2 generated by
logistics

3 million

truck driver positions are
currently unfilled

Reduce the N° of trucks in the world
by *improving* the shipping planning like **TETRIS**

- Reduce 5% - 10% of trucks
- Planning reduce by 85%
- Optimize route by >25%
- Traceability 100%
