Our Heritage

Libra Group: A Proven Leader in Global, High-Value Asset Leasing

SLI is subsidiary of a privately owned business group with a 50-year track record of asset leasing across six sectors and 60 countries.

50

years in asset leasing across transportation, energy, and real estate

20

subsidiaries

60

countries with assets and operations

15B

USD in transportation transactions alone in the last 15 years

Our Role

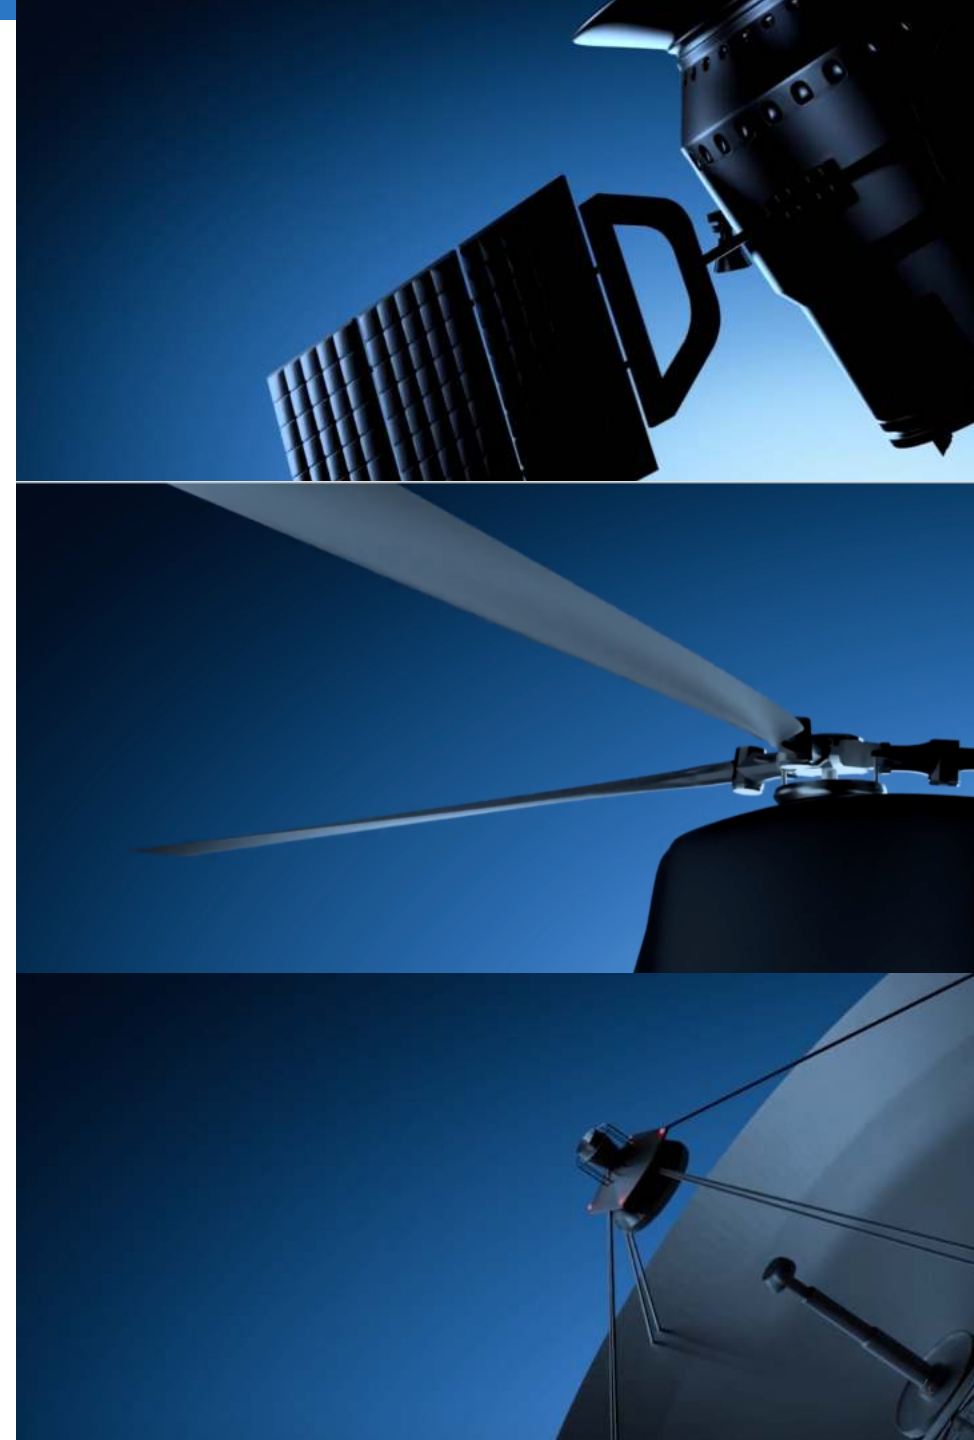

SLI: Libra Group's Latest Aerospace Subsidiary

Providing asset-backed capital solutions across the full spectrum of aerospace.

Bridging today and tomorrow. We provide asset-backed financing for mature aircraft fleets and space infrastructure while supporting next-generation air mobility, space networks, and enabling ground systems.

Purpose-built platform. Combining decades of global leasing expertise with a first-mover focus on aerospace innovation.

Accelerating industry growth. Delivering flexible, risk-adjusted capital solutions that help operators and manufacturers scale established fleets and bring emerging technologies to market.

Our Role

Financing Today's Aerospace and Powering Tomorrow's Frontier

Decades of global leasing expertise applied to current fleets and infrastructure while unlocking capital for the next generation of aircraft, ground systems, and in-orbit assets.

Deep roots in asset leasing. Through Libra Group, we have spent decades financing capital-intensive sectors - aviation, maritime, energy, and real estate - where long-term operating leases unlock growth and operational flexibility.

Proven track record financing emerging aerospace. Before launching SLI, we tested our model in next-generation aviation by purchasing and leasing eVTOL aircraft and autonomous cargo drones - proving that our approach accelerates hardware adoption in new markets.

Now scaling across the full aerospace economy. SLI applies its leasing expertise to both today's proven aviation fleets and the breakthrough assets redefining aerospace - including advanced aircraft, ground networks, and in-orbit systems that traditional finance has left behind.

Our Role

Flexible Capital for Proven and Breakthrough Aerospace Assets

Risk-adjusted leases and tailored financing structures that unlock growth, accelerate adoption, and reduce capital barriers.

Operating leases that reduce upfront capex. We specialize in flexible, risk-adjusted operating leases that lower barriers to entry, accelerate time-to-market, and enable efficient scaling.

Creative financial engineering. Beyond traditional leases, we design sale-and-leasebacks, warehouse facilities, and joint-venture models tailored to emerging aerospace technologies.

Proven playbooks, adapted to new frontiers. Our approach builds on decades of structuring aircraft and shipping finance, now applied to satellites, ground stations, next-gen aircraft, and other critical space infrastructure.

An Experienced and Specialized Team

A growing team of finance, legal, and technical experts passionate about unlocking capital for the future of flight and space.

Praveen Vetrivel

Chief Executive Officer

Fmr Chief Financial Officer, Libra Group

Phaedra Chrousos

Chief Operating Officer

Fmr Chief Strategy Officer, Libra Group

Ilias Tsakalis

Chief Commercial Officer

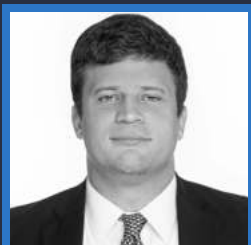

Fmr Chief Financial Officer, Hellasat

Robert Benton

General Counsel

Fmr Aerospace Lawyer, Wiley Rein; Co-owner, GapSat

Max Yergan

VP, Investments

Fmr GreenTech founder; Private credit experience

Gareth Zundel

SVP, Communication

Fmr Chief Communications Officer, Libra Group

Nidhi Agrawal

VP, Accounting

CMA, MBA, MPAc; 14 years of experience

Brendan

Special Assistant

Fmr US congressional affairs and programming

Thank you.
