

We work for your results.  
We work for your customers  
and for a better world.

We design  
and build.  
Every day.

From the first sorter, produced in 1924, to today, we have always had one goal: to help our Customers improve and expand their business by **optimizing their handling processes**. For this reason, the UNITEC Team works to **develop increasingly innovative custom-made solutions**, dedicated to each type of fruit and for each stage of the process, **tailored to the specific objectives of each Customer**.

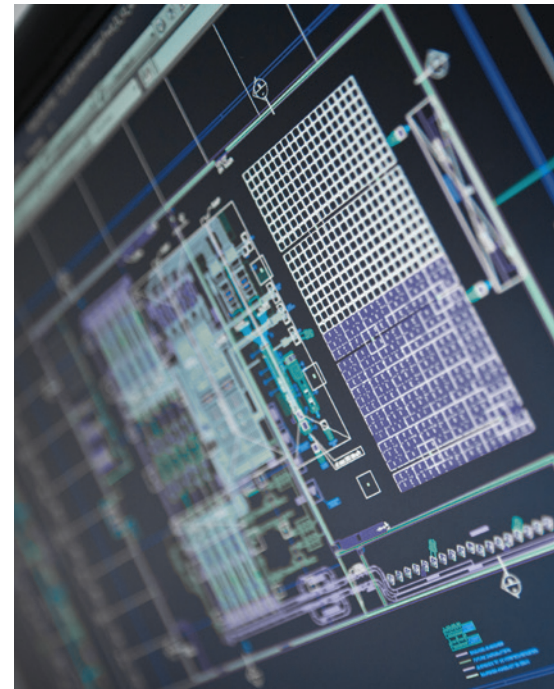

For over 100 years, we have been creating results for our Customers all over the world.  
**And we want to continue doing so for the next 100 years.**

For more than 100 years  
connected to the  
global produce market.

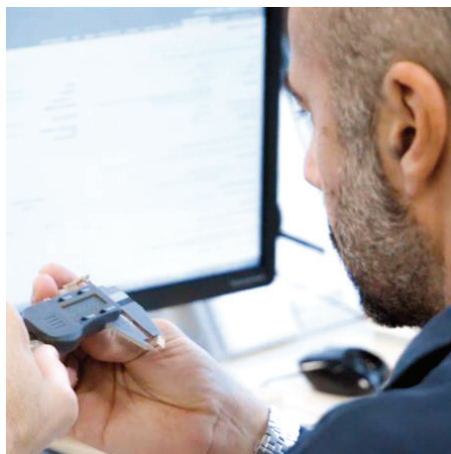

UNITEC applies the experience and know-how gained  
In over **100 years of history, to understand Customers' needs  
and respond effectively to each improvement necessity**  
of their handling processes.

We stand **by our Customers** to win every challenge.  
Now and in the future.

We design and develop  
each solution.

We develop the **most efficient systems**  
for each stage of our Customers' handling process.

Solutions designed to **preserve and enhance**  
the **specific characteristics of each sorted fruit.**

For all types of fruits and vegetables.

To UNITEC, **every fruit is special.**

100% by UNITEC.  
100% made in UNITEC.

UNITEC solutions are 100% Made in Italy and manufactured in-house, from project design to production of **mechanical**, **electrical** and **electronic components**, **software**, **automation** and **traceability systems**, including **quality selection** (internal and external).

Each component is manufactured with care by dedicated professionals. At all times.

Innovating.  
Without ever stopping.

**We are always open to new challenges.**

We want to innovate with our Customers and are eager to develop new systems for them, even to explore the possibility of sorting new types of fruit.

**To give practical solutions to the emerging needs of the global fruit and vegetable market.**

UNITEC designs innovative solutions that give the opportunity to achieve **real and long-lasting Results.**

# Research and Development Center. New Projects. New solutions.

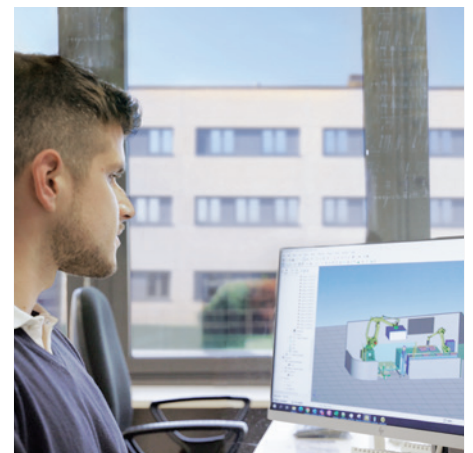

Innovation is part of our DNA.

For more than **100 years**, we have invested in research and development of **cutting-edge technologies and systems** to deliver solutions **consistent with the demands of the global produce market**.

With this purpose in mind our Research and Development Center was established: a facility where more than 100 researchers can focus **on new solutions** and **their prototyping** independently and efficiently. To shape new projects for our Customers, to be the best **technology partner** for them and to ensure the **widest range of future developments**.

Within our Research and Development Center we host the **Applied Science Course in Mechatronics of the University of Bologna**. This, to further contribute to building a future full of Results for our Customers.

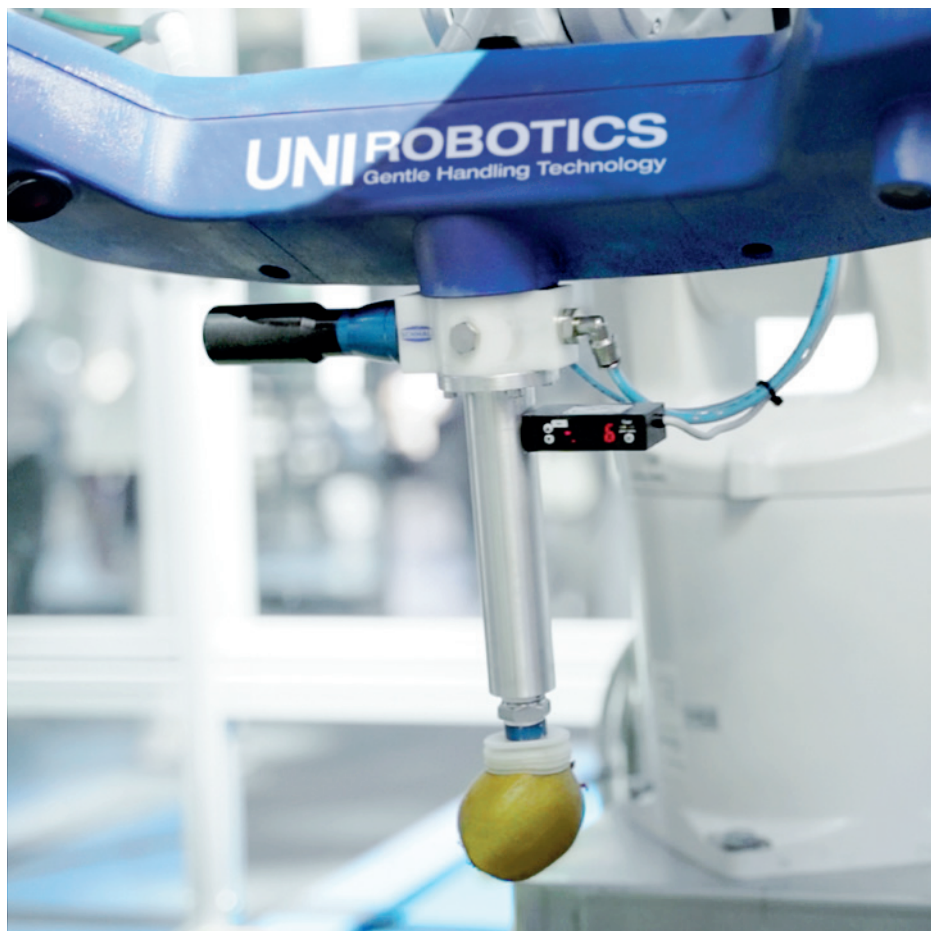

**We work for your results.**

UNI Robotics.  
Intelligent automation.  
New answers for the market.

**UNI Robotics** is the UNITEC division specialized in **intelligent robotic solutions** born from the desire to provide an **exclusive and performing technological response**. The use of anthropomorphic and non-anthropomorphic robots can guarantee a strong **increase in efficiency**, a significant rise in efficacy and precision in fruit handling, in addition to reducing wearisome and stressful work in the warehouse.

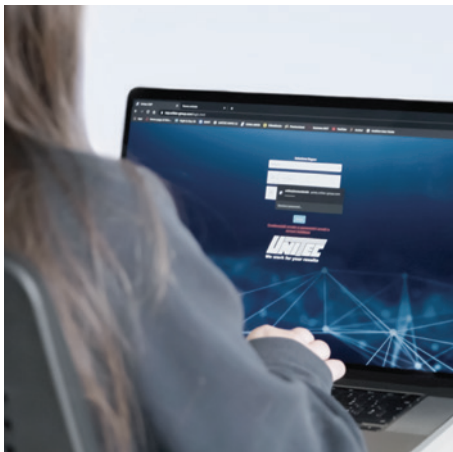

We work to bring a **positive change to our industry**.  
To fulfill every market demand. To meet the needs of the final consumer.

**We work for your customers.**

We are. Always here.

We have set up a network of **operational branches** located in the most important areas of the fruit and vegetable industry and a sales structure that allows us to connect to the needs of our Customers in **over 65 countries around the world**.

The widespread presence of our branches and of our spare parts warehouses, together with the professionalism of our Team of specialized technicians, can give a **fast and professional support**, 24/7, to answer every request and to guarantee the necessary assistance **for our Customers' lines to be fully operational**. Wherever they may be.

A Team of  
Professionals  
you can count on.

UNITEC Group is more than  
the sum of it's individuals.  
**It is a Team that collaborates  
with passion and professionalism  
for a common goal:**  
the results of its Customers.

For our Customers we commit  
every day, to be reliable,  
to be a Group you can count on.  
Today and in the future.

# The Future. Together.

With the expertise of our Team, the constant innovation, our Research and Development Center, our Robotic Division and our R&D Department, we work every day to allow our Customers to place on the market **fruits that not only look beautiful, but also taste good.**

**We want to actively participate in improving the fruit and vegetable industry and the entire production chain.**

With our many patented solutions, able to improve the work of producers and distributors, we contribute to reduce waste, ensuring a sustainable future to each fruit.

**We work for a better world.**

We work for your results.  
We work for your customers  
and for a better world.
