OUR COLLABORATION PROCESS

Partnering with us

Before the offer

- 01 Collecting project details and scope from key stakeholders
- 02 Discussing budgets and setting general timelines
- 03 Introduction to leadership team and our processes

Offer & legal documents

- 01 Providing an offer with a detailed breakdown of services and pricing
- 02 Sharing additional references and resources upon request
- 03 Drafting and signing contracts and other legal documents

Discovery and set up

- 01 Creating short and long term project timelines
- 02 Organizing kickoff meetings and workshops for project discovery.
- 03 Performing team introduction and setting up communication channels

Production and collaboration

- 01 Agile process with incremental deliverables
- 02 Regular reviews with stakeholders and Workspace team
- 03 Open potential for scaling the project as needed

workspace

OUR WORK

Capax Service Report App

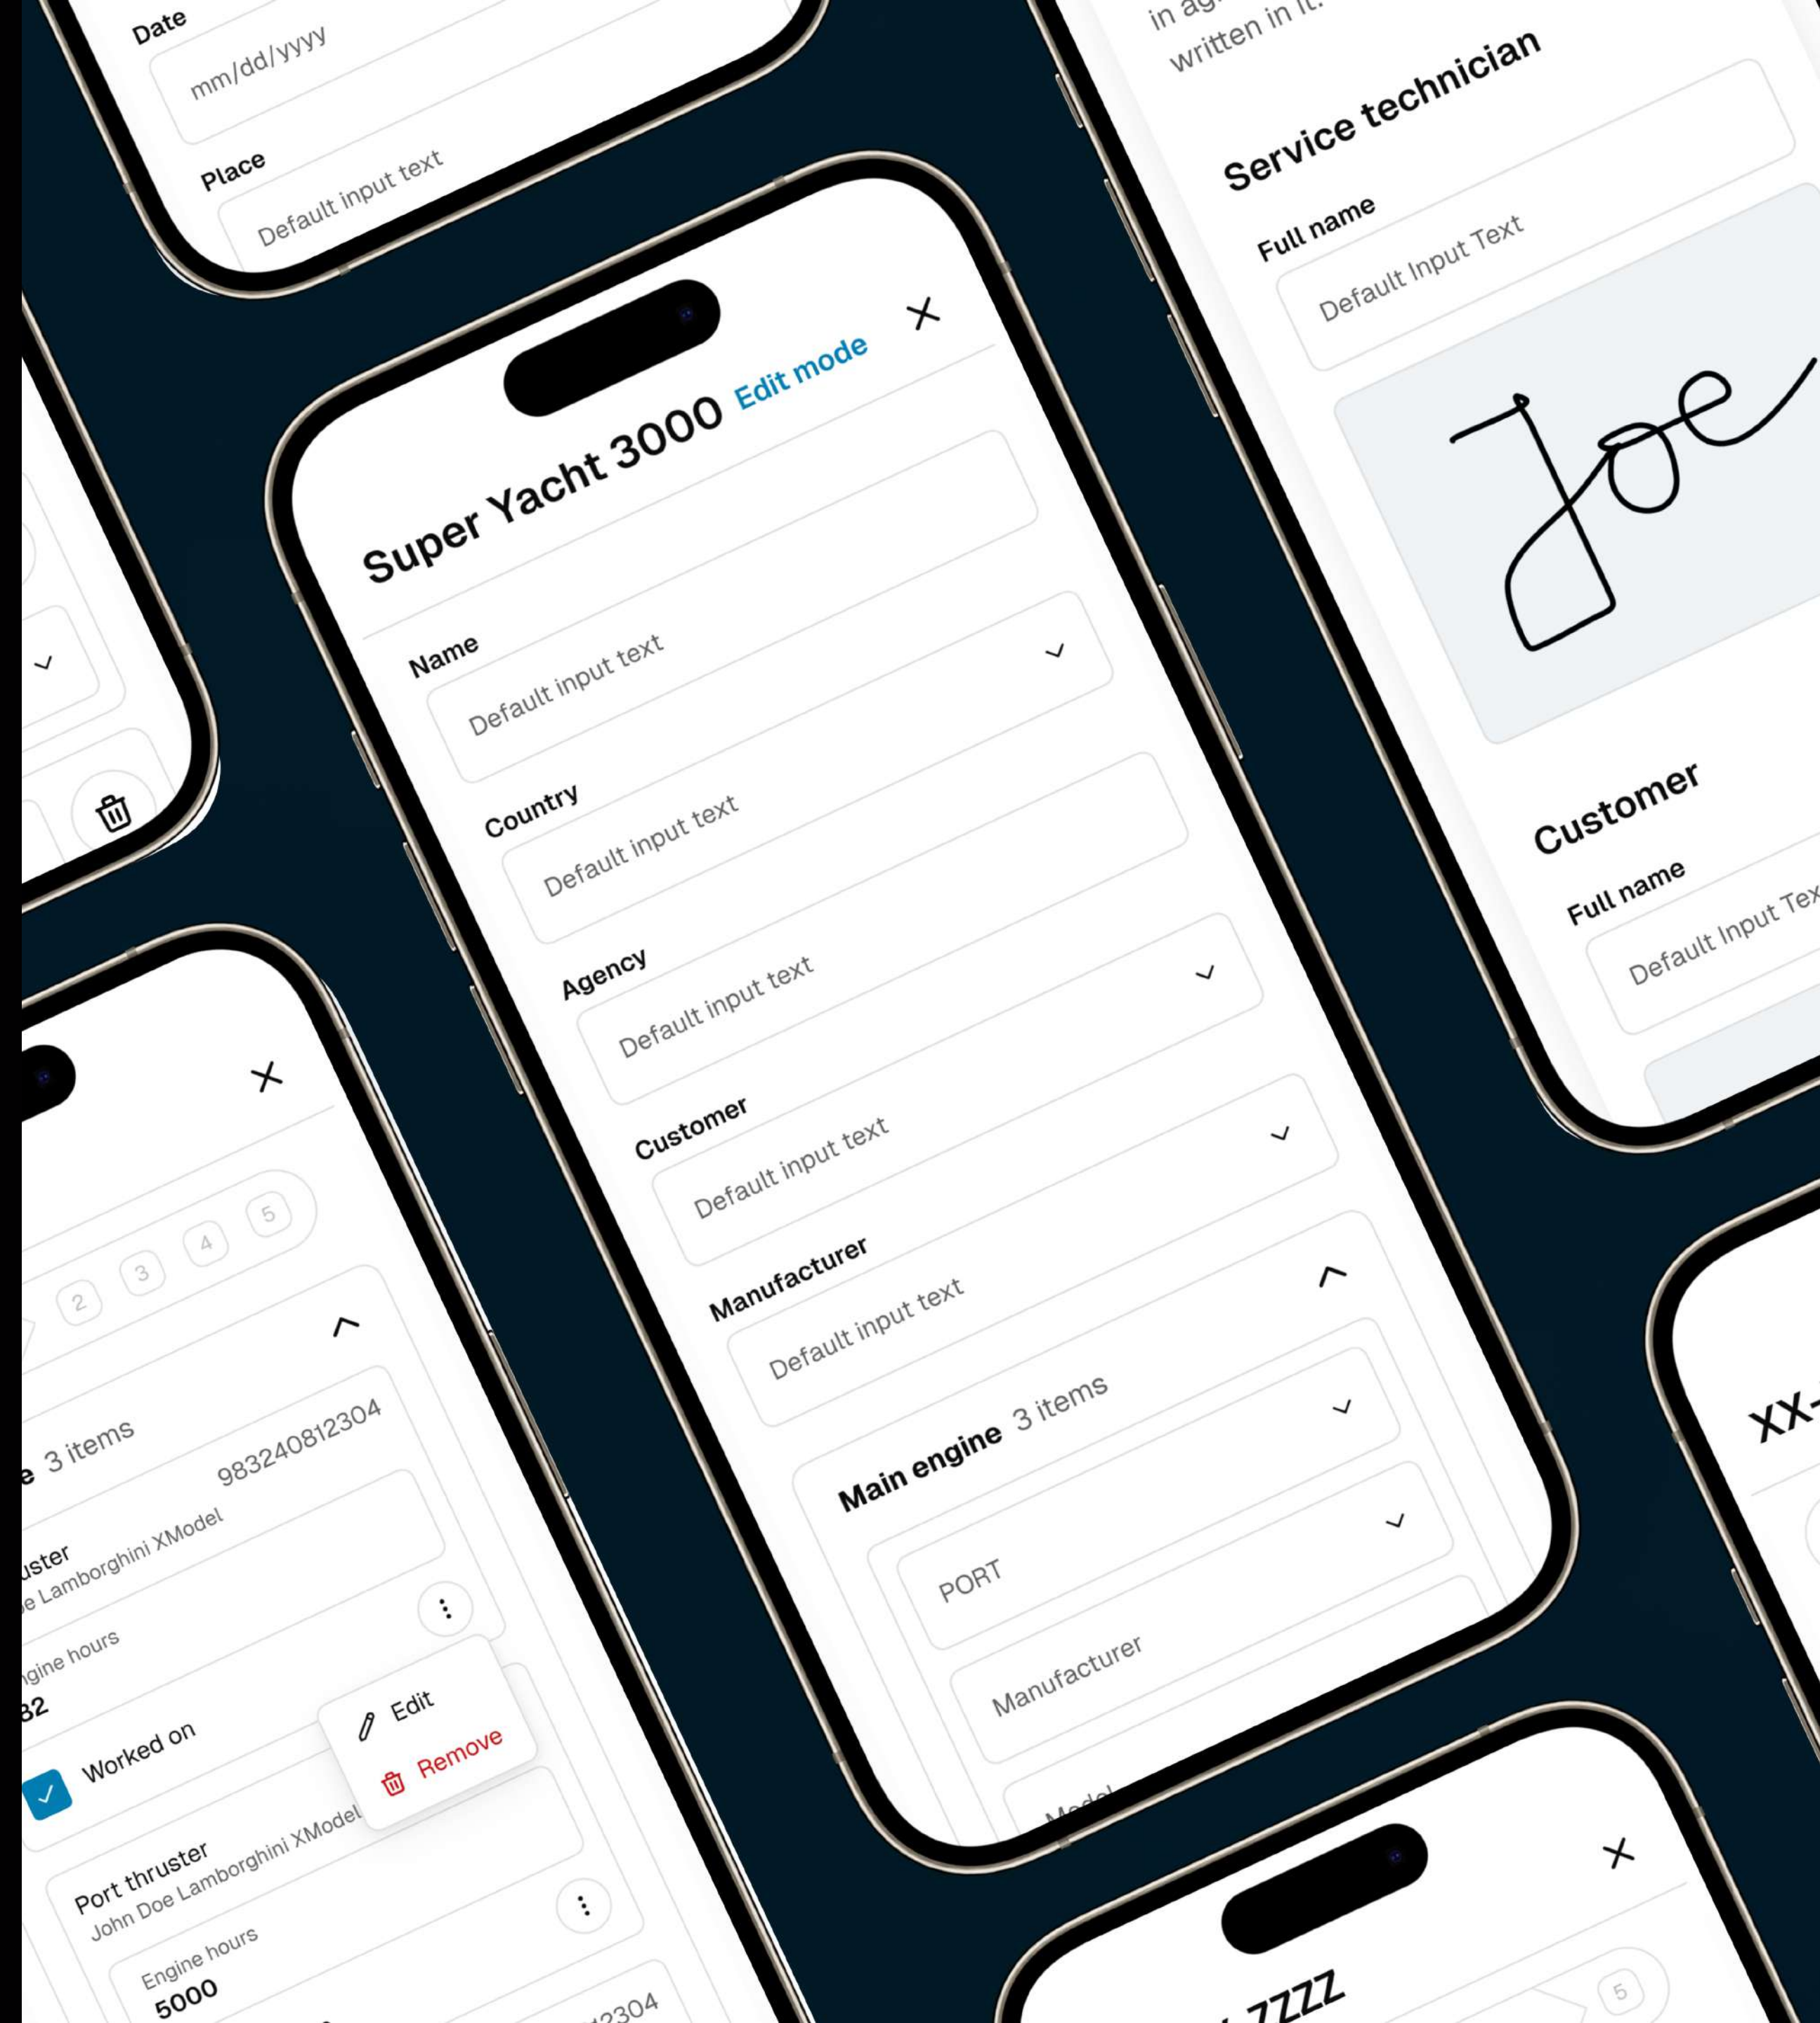

A marine engineering company hired us to develop a web app with data systemization, analytics, reporting, and time tracking.

WHAT WE DID

Discovery, Design, Development, Delivery

TECH STACK

Java Spring Boot, React, AWS

OUR WORK

Cata Sailing

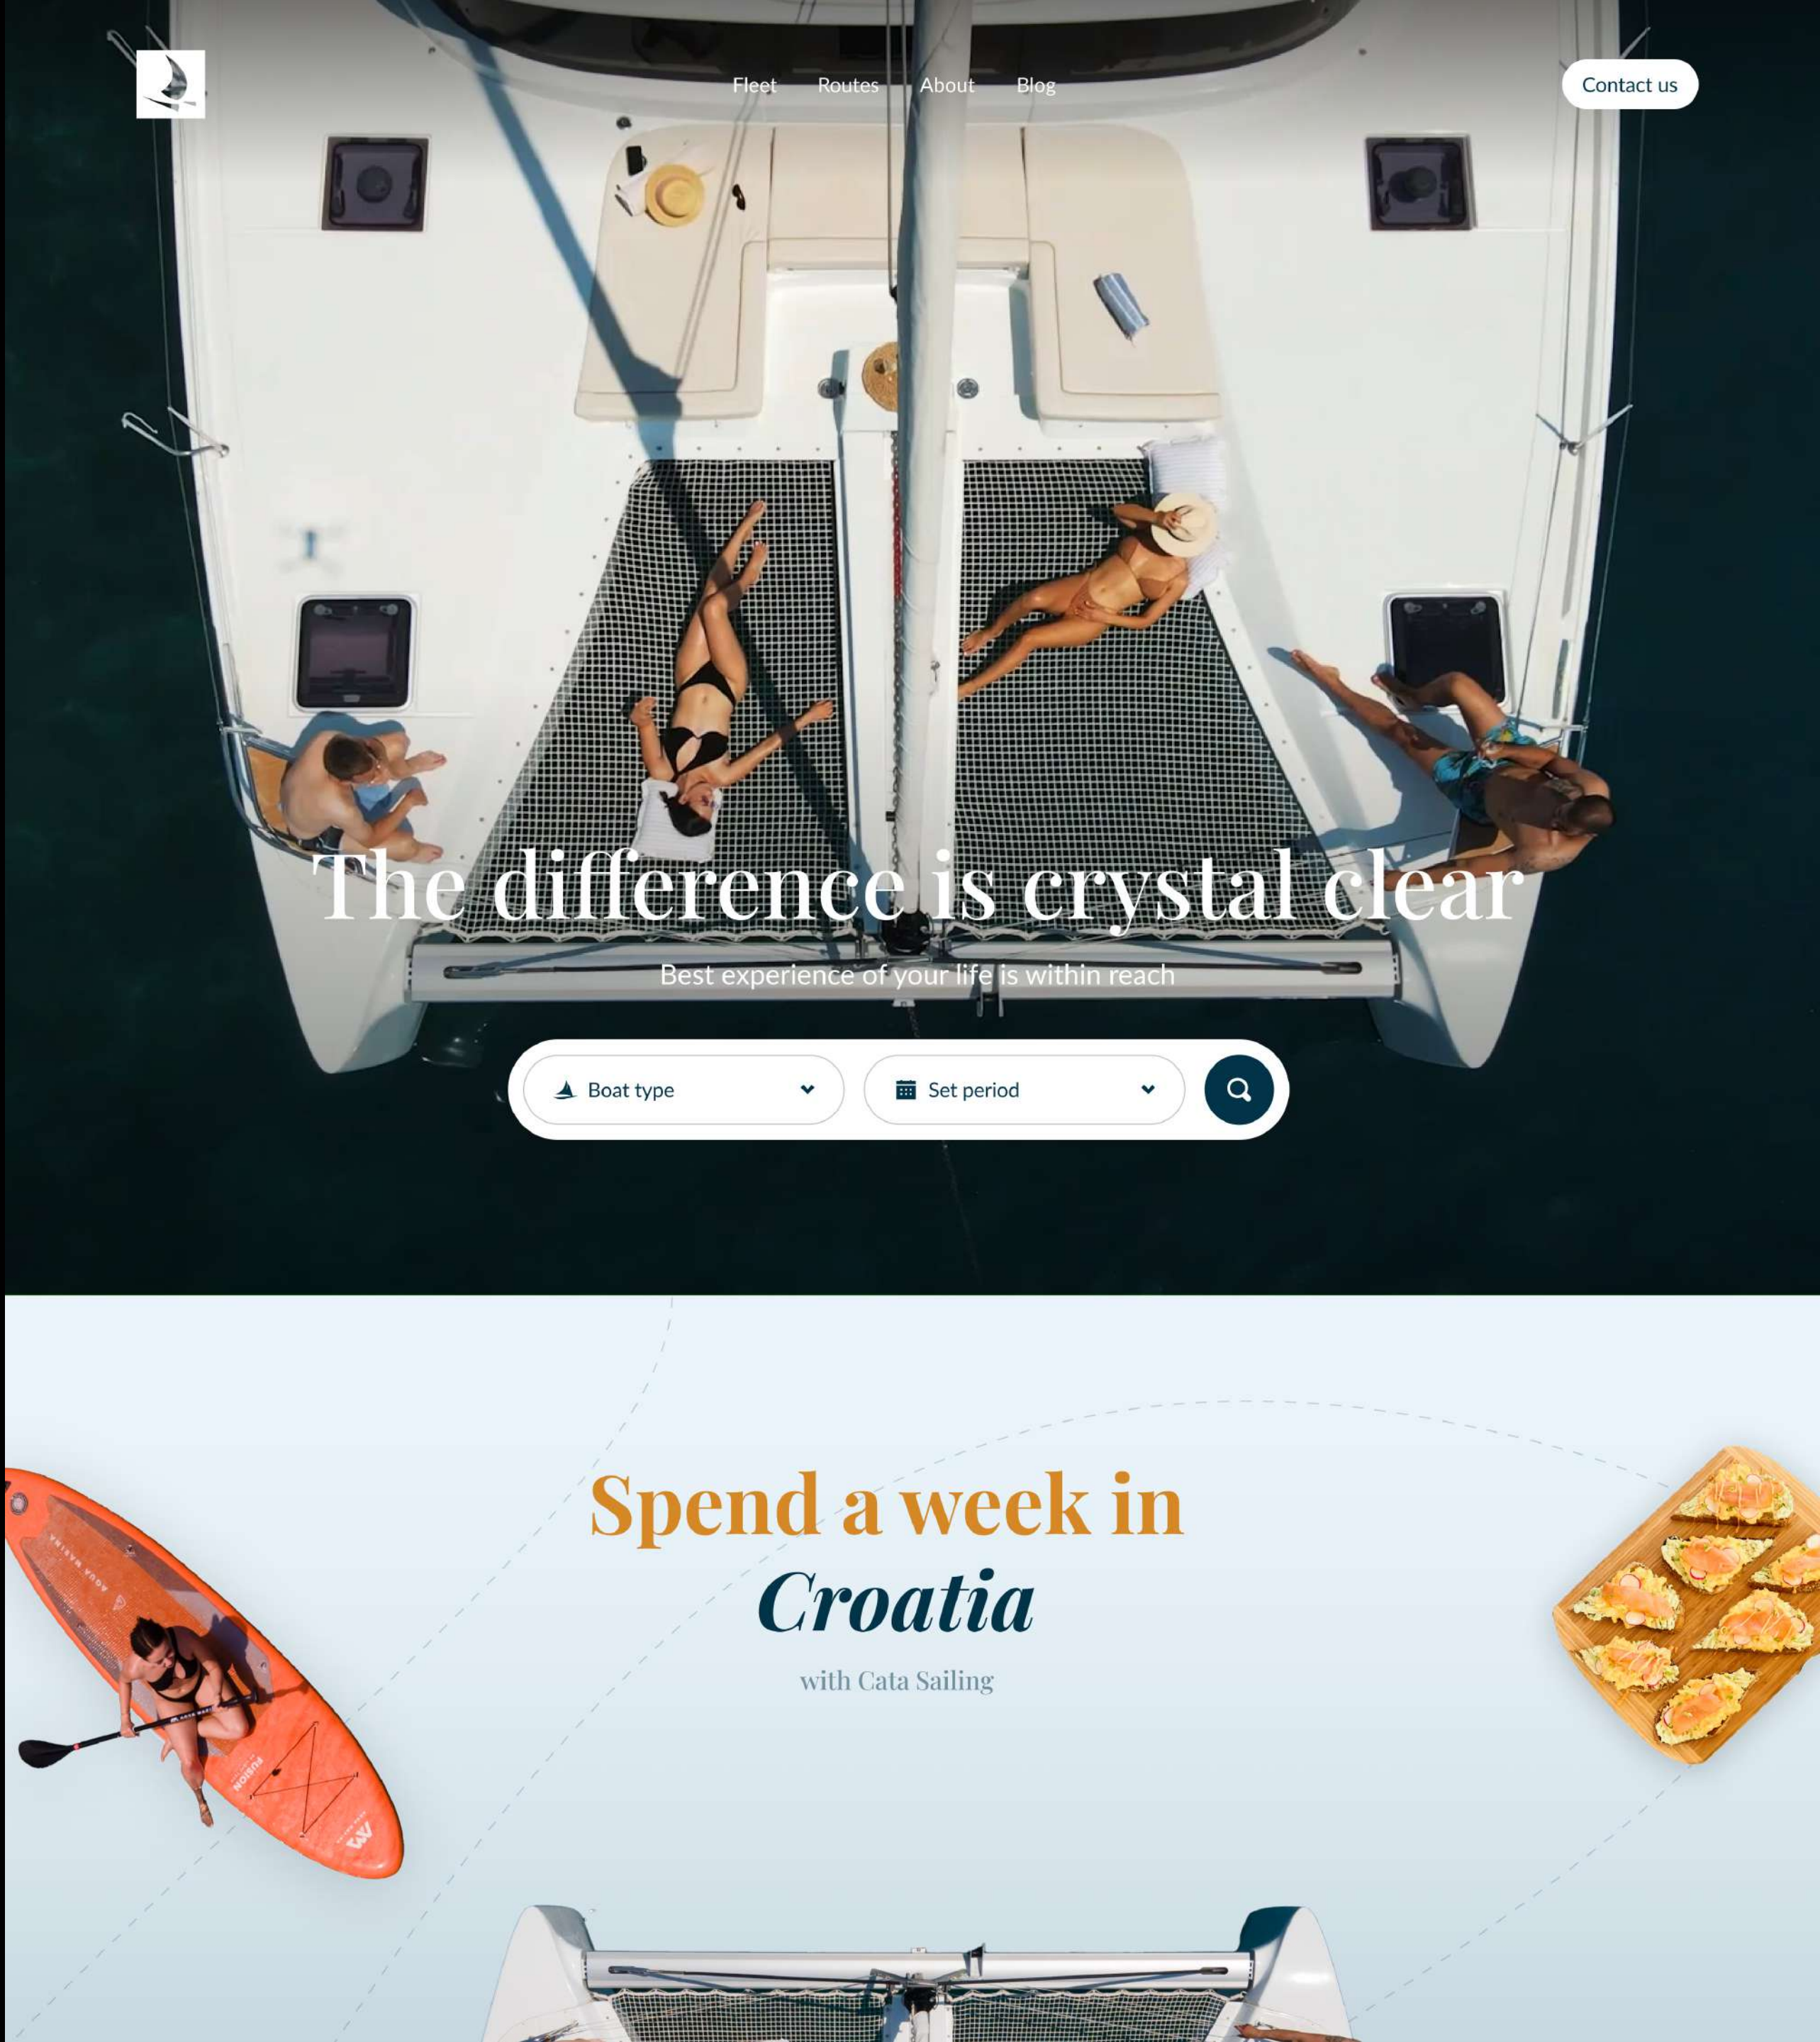

A custom website was developed for Cata Sailing, a yacht charter company specializing in luxury catamarans and motorboats for unforgettable sailing experiences.

WHAT WE DID

Discovery, Design, Development, Delivery

TECH STACK

Figma, Webflow

OUR WORK

Sailweek

A custom website was created for Sailweek, a travel agency offering sailing tours, to showcase their services and provide customers with an easy booking process.

WHAT WE DID

Discovery, Design, Development, Delivery

TECH STACK

WordPress, Next.js, AWS

OUR WORK

Hyperlight Optics

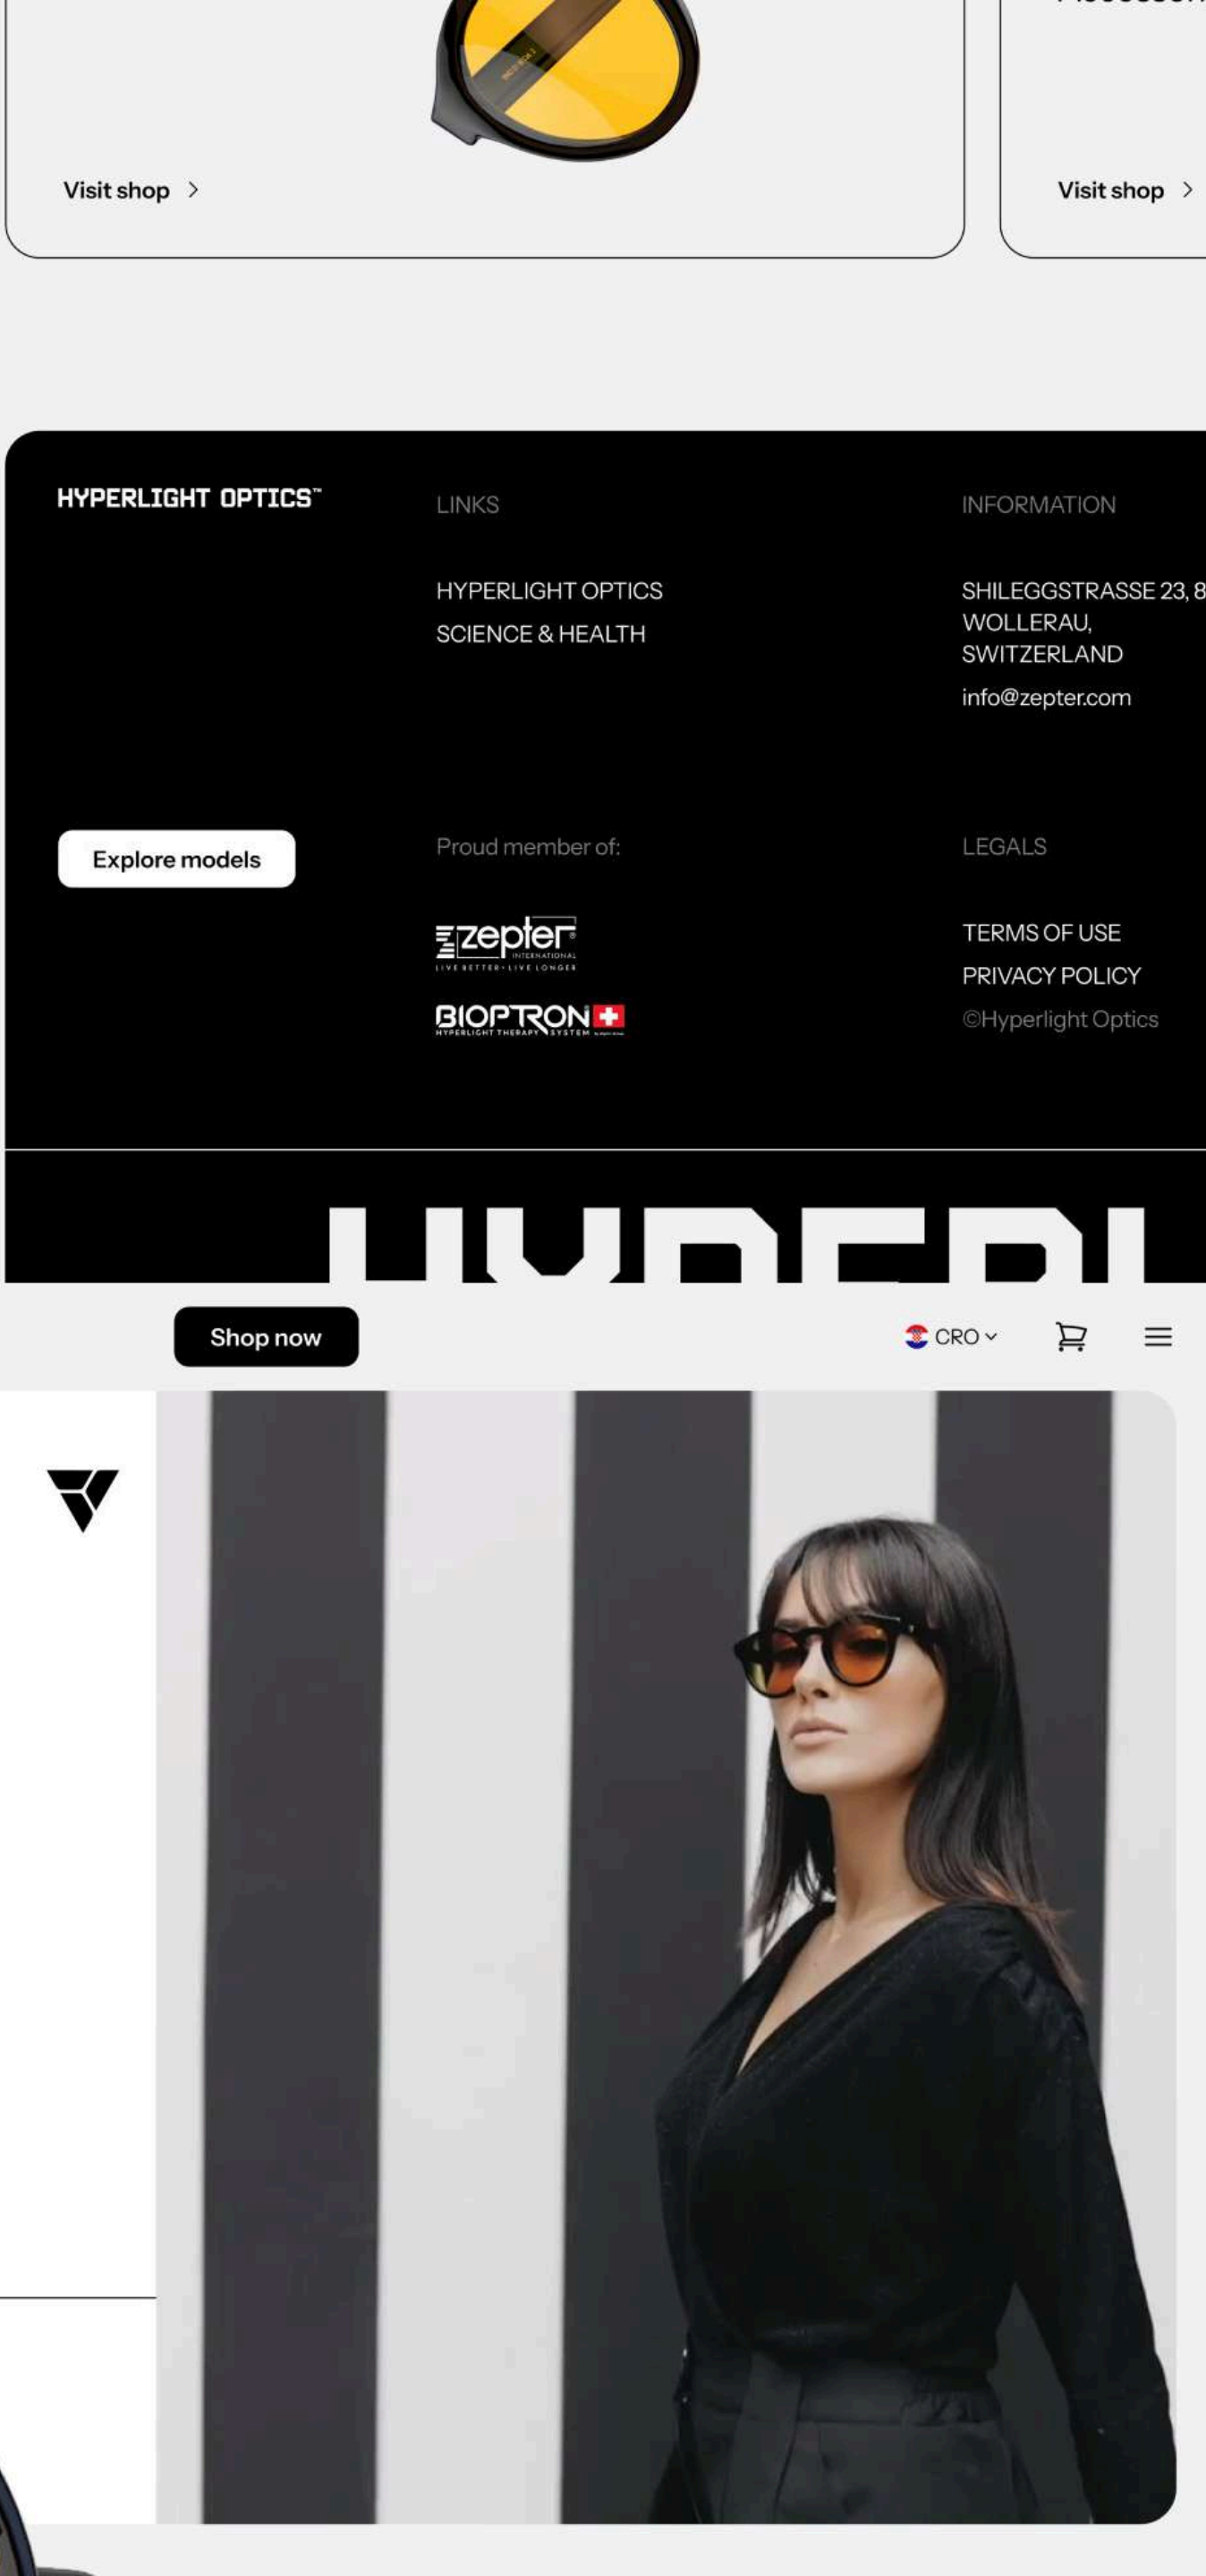

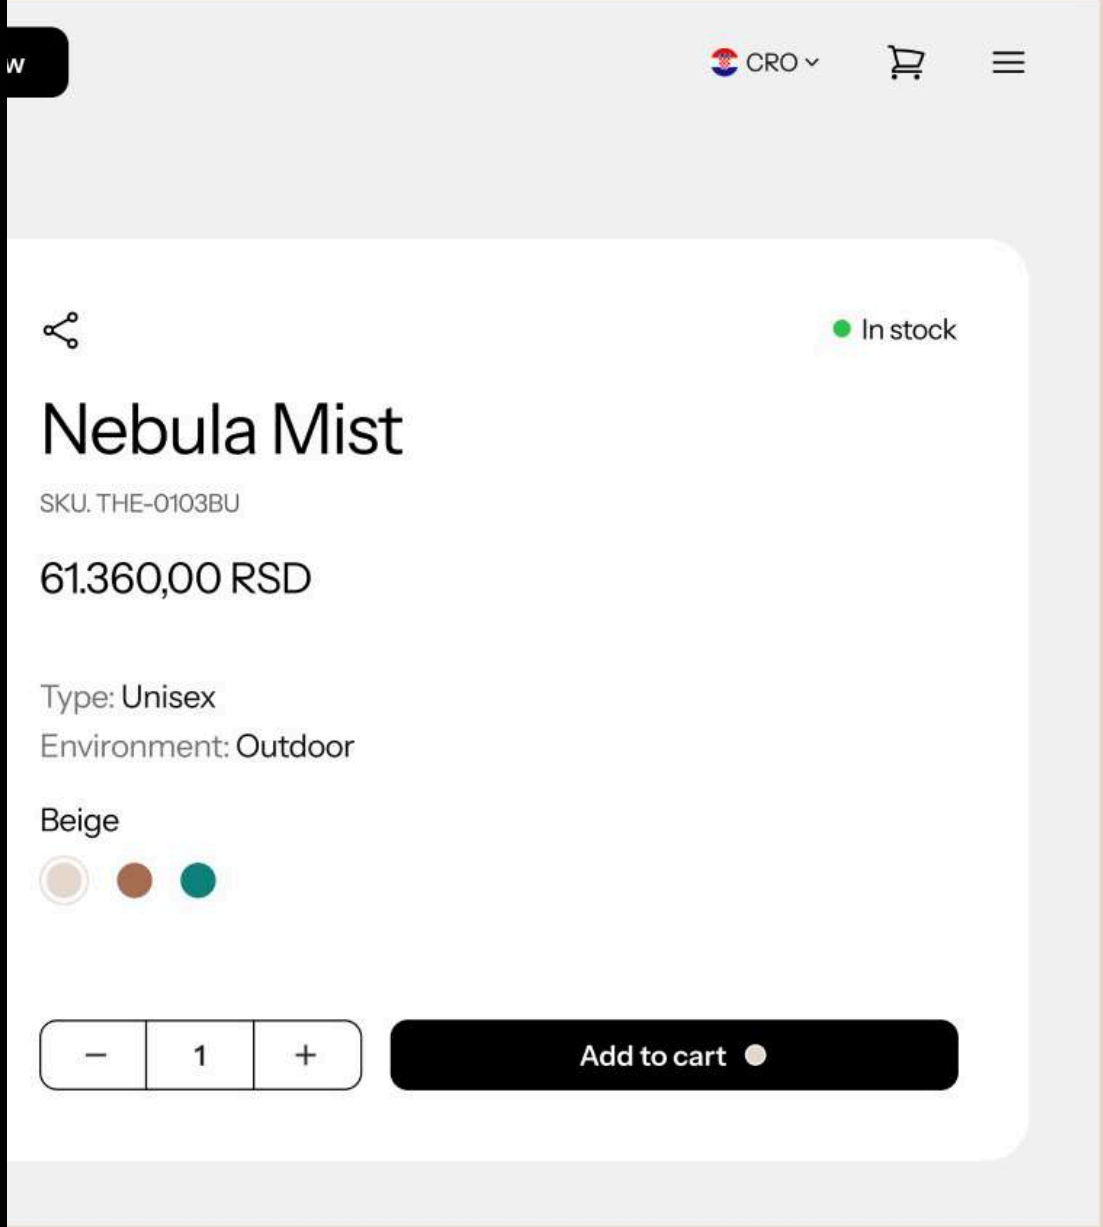

We created a site to showcase revolutionary glasses, tailored for both indoor and outdoor wear, providing a scrollytelling experience through motion development.

WHAT WE DID

Development, Delivery

TECH STACK

Next.js, GSAP, Lenis, AWS

workspace

OUR WORK

F Group

F Group, the brand that owns and operates #TerminalF and #Fabrique pub in Split, partnered with us to become digitally transformed.

We are the leading chain of restaurants and bars in this area

For more than 30 years, our restaurants and bars have been one of the most popular places to party. The focus on the young people we have, and those a little older, is just to give them right place they are looking for.

OUR WORK

Reflect Network

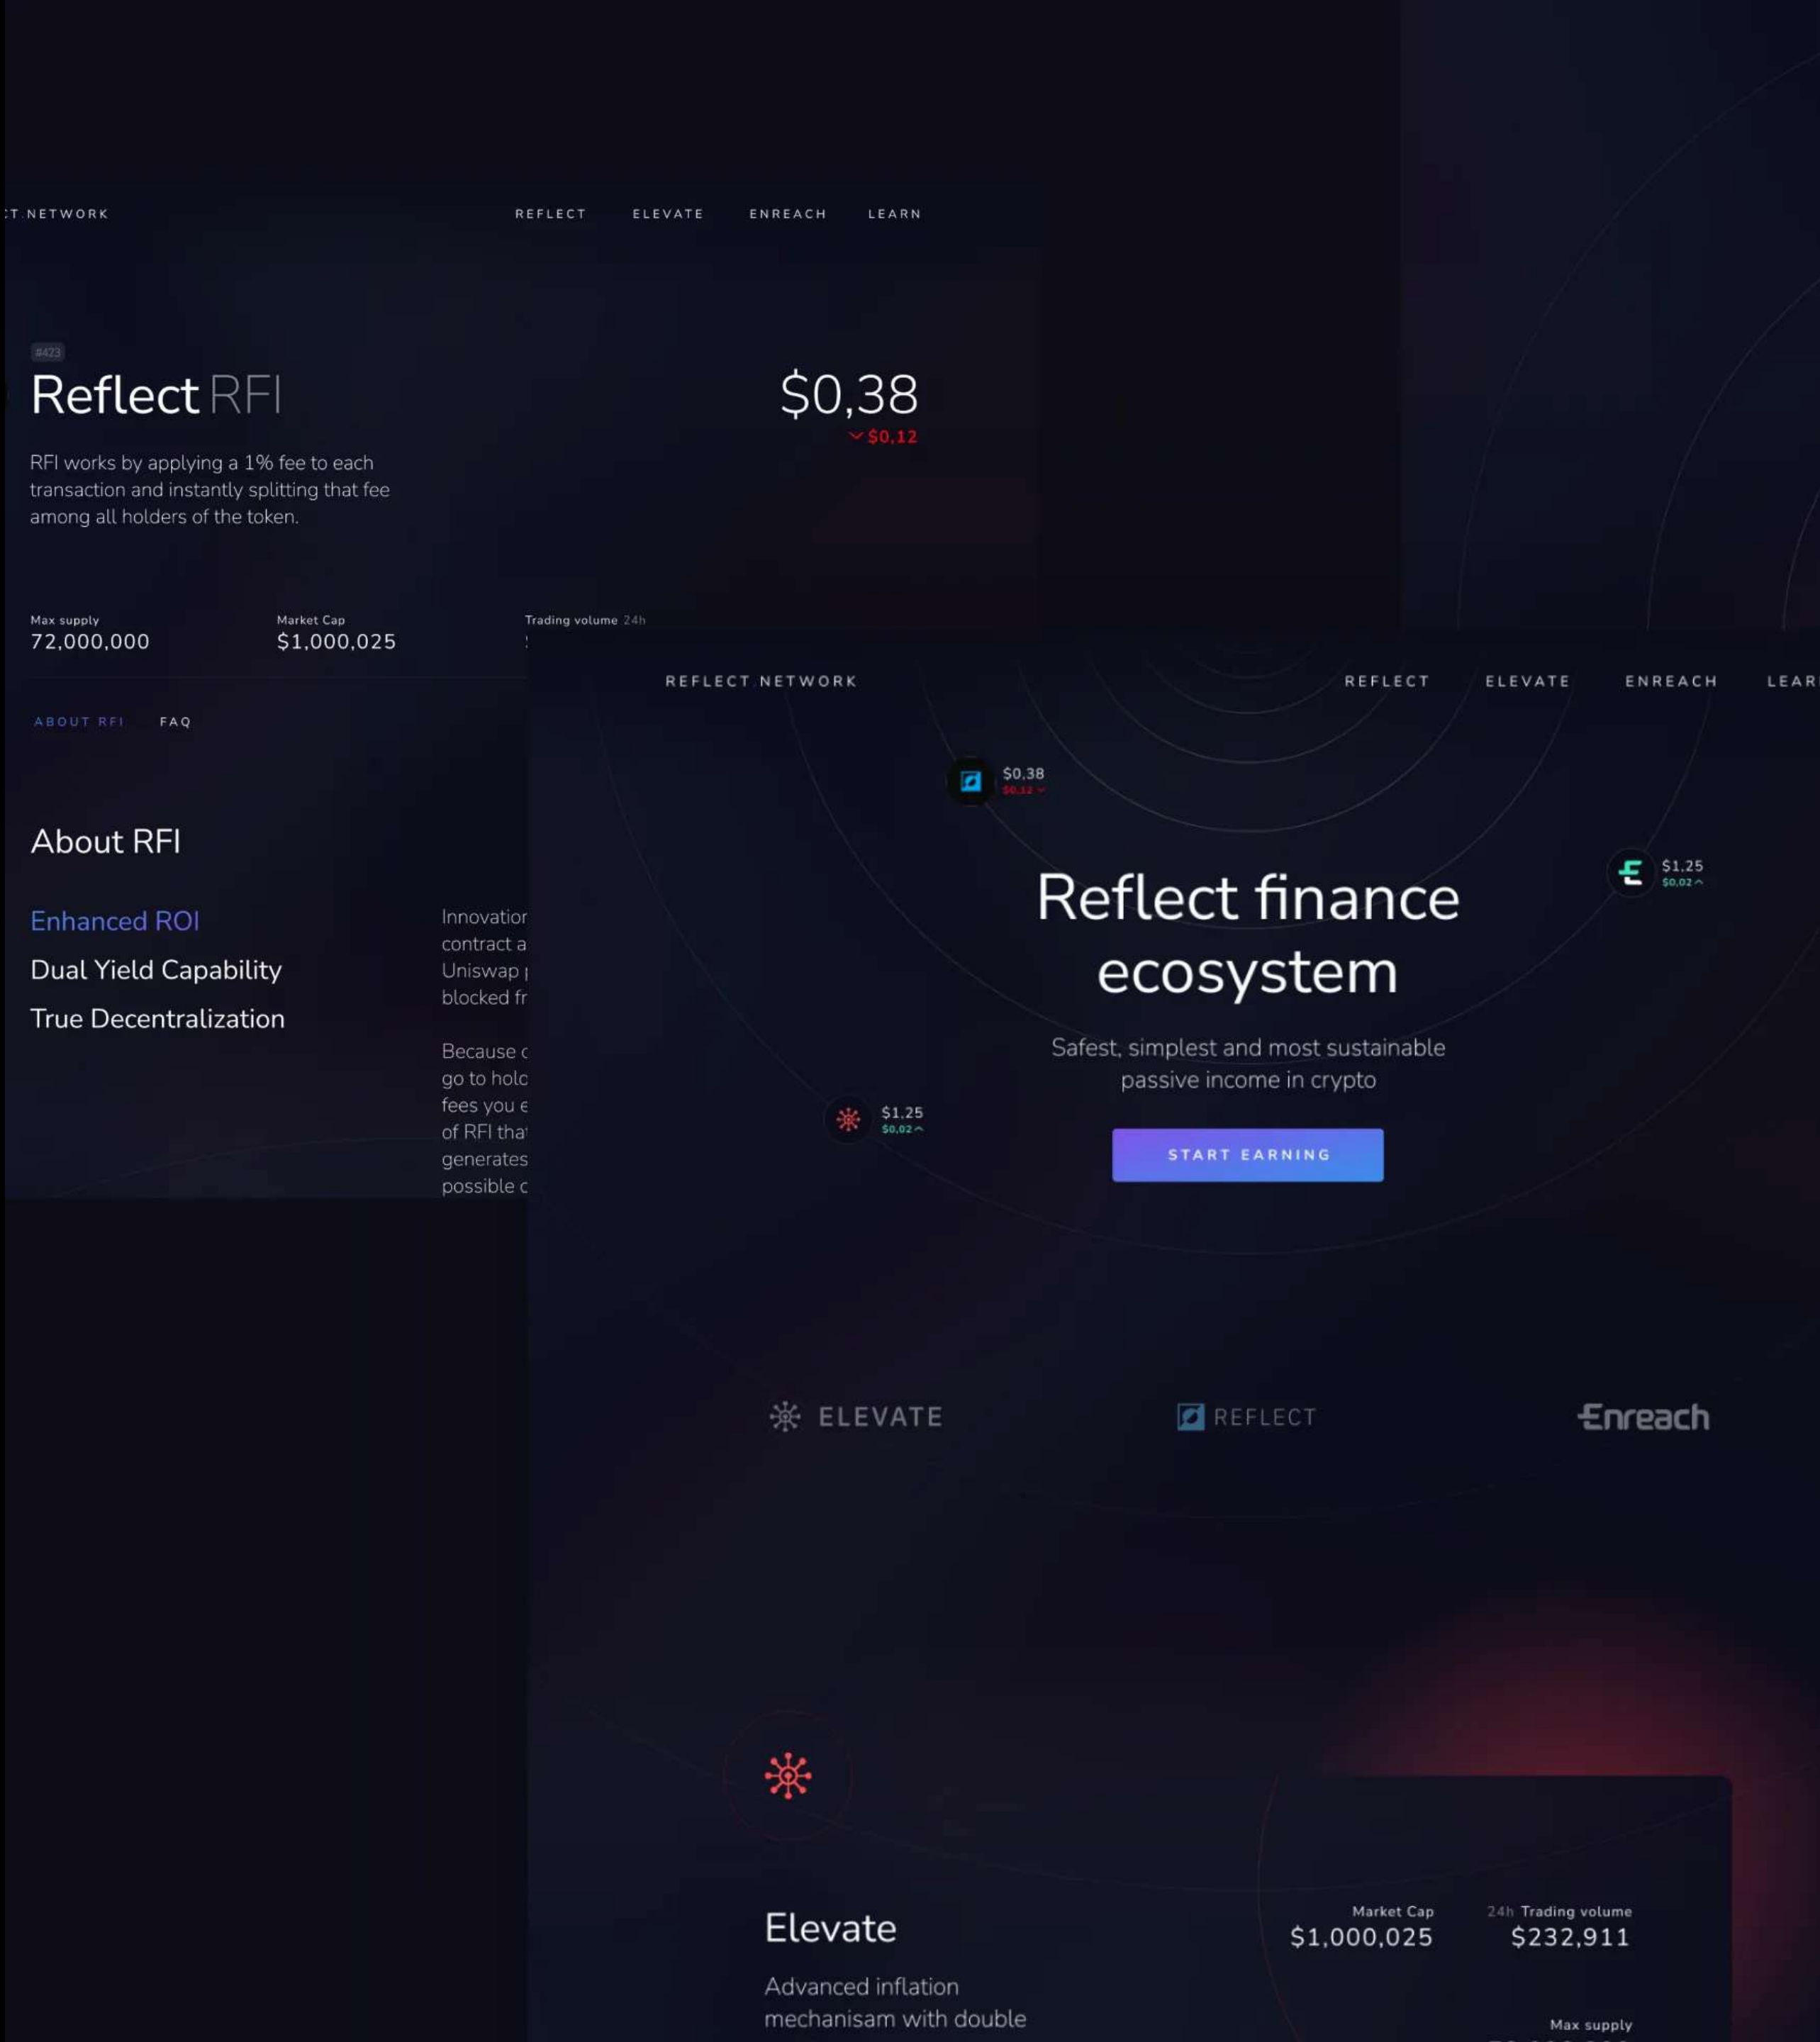

Powered by new architecture and modern web technologies, we created a learning site for crypto coins based on RFI tokens.

WHAT WE DID

Discovery, Design, Development, Delivery

LIVE BETTER · LIVE LONGER

“They were efficient, available, and fully responsible.”

Workspace successfully delivered the project on time and within budget. They ensured constant availability and keenly listened to the client's needs and requirements. The team's effectiveness, talent, professionalism, and sense of ownership were key elements of their work.

Teo Petričević

CEO, Capax

“Their responsiveness to our needs was outstanding.”

Workspace's efforts resulted in a 40% increase in website traffic and a 25% decrease in bounce rate. The team adhered to a well-structured timeline and completed tasks on time. Their responsiveness, client-focused approach, and unparalleled commitment set them apart.

Nikola Balić

Head of Science & Innovation, University of Split

“The Workspace team met all requirements and expectations effectively.”

Workspace's work improved the client's brand awareness and brand presentation, meeting expectations. The team managed the project excellently and promptly addressed the client's needs. Although the project's deadlines were tight, Workspace completed tasks in an efficient and agile manner.

Vedran Skočić

Director, Zepter International
