

**MAYA**

## Who we are

MAYA unites 16 partners across 10 countries to improve quality of life for young cancer survivors through multidisciplinary digital health innovation.

## What we are working on

We are developing iCARE, a smart mirror and AI-powered conversational agent helping young cancer survivors monitor cardiovascular late effects and adopt healthier behaviours at home.

## What's the one thing we need next

We need young survivors, clinical sites, patient organisations and policymakers to test, scale and embed iCARE and its emerging care recommendations.

**5 years Mission Cancer:  
Stronger Through Connection**

BRUSSELS

29 SEPTEMBER – 01 OCTOBER
