

Cluster Health & Mission Cancer Brokerage Event

28 September 2026

PITCHING SESSION 2 - CLINICAL TRIALS

Patient partnership for better paediatric oncology trials

Hubert Prekurat

Saving Kids with Cancer Foundation

patient organisation / nonprofit

Poland

fundacja@naratunek.org | naratunek.org

A patient organisation embedded in care and research

SINCE 1991

35 years

of continuous support

ANNUAL REACH

~2,000

children across Poland

CLINICAL NETWORK

14 centres

linked through data
infrastructure

PATIENT AND FAMILY PERSPECTIVE

Continuous contact with children, parents and survivors throughout treatment and follow-up.

A multidisciplinary psychosocial team supports families and helps identify real-world burdens and unmet needs.

RESEARCH EXPERIENCE

FORCE - European standards for pragmatic, charity-led oncology trials

LiBRha - liquid biopsy for paediatric rhabdomyosarcoma

Hope for Children - national clinical data infrastructure

Our role in a clinical trial consortium

TRIAL DESIGN AND DELIVERY

Patient and parent input into protocols, consent materials, outcomes and burden assessment

Trusted communication that supports recruitment, retention and participant understanding

Psychosocial and survivorship expertise, including the needs of adolescents and young adults

IMPLEMENTATION AND IMPACT

Engagement with families, clinicians, researchers and patient organisations

Clear dissemination for professional and public audiences

Communication, sustainability and uptake beyond the funded project, with a route into the Polish paediatric oncology community

WE ARE LOOKING FOR

European consortia developing paediatric oncology trials, pragmatic trials, diagnostics or survivorship interventions.
