

Who we are

A pan-European council of 100 young people with diverse lived experience of cancer, bringing their perspectives into research, healthcare, policy and YARN.

What we are working on

Co-creating better cancer care through research, policy, resources and digital tools, while developing young advocates through the ACE Academy.

What's the one thing we need next

A sustainable Youth Cancer Council beyond YARN, with long-term investment in youth leadership and participation in European and national decision-making.
