

THE WEIGHING MASTER

ROBUST • WIRELESS • EASY TO USE • RECHARGEABLE BATTERY

RECYCLING SECTOR & INDUSTRY

MADE IN FRANCE

STEELYARD PESON

David Accambray, inventor of the Steelyard Peson system, offers you innovative **on-board weighing systems** that can significantly increase your productivity. Founded in 2011, Steelyard Peson is the world leader in **wireless dynamic weighing** in the forestry sector.

Steelyard load cells have also been used **on recycling cranes** for several years.

Thanks to the **high quality** of our weighing systems and **99% accuracy**, Steelyard Peson has become the benchmark for dynamic weighing!

Precise, robust, easy to assemble, simple to use and maintenance-free, Steelyard load cells are available in over **90 standard and customised models**.

VERY ROBUST HIGH MACHINING QUALITY

- Machined from a single steel piece and protected by a steel shield
- Aluminium screen in a steel shield
- IP67 protection
- Resistant to extreme shocks (settling, vibrations, etc.)
- Designed for intensive use
- Made in France

RECHARGEABLE BATTERY WITH MONTHS OF AUTONOMY

SCALES WITH 3-YEAR WARRANTY

4 TONS SCALE

- For Epsilon crane and Kinshofer Rotator

8 TONS SCALE

- H.80X45 / B.100X45

8 TONS SCALE

- For excavators loading from 22T to 30T

24 TONS SCALE

- For excavators loading from 30T to 60T

32 TONS SCALE

- For excavators loading from 60T to 120T

4 TONS SCALE

- For Kinshofer folding system crane and Kinshofer Rotator

4 TONS SCALE

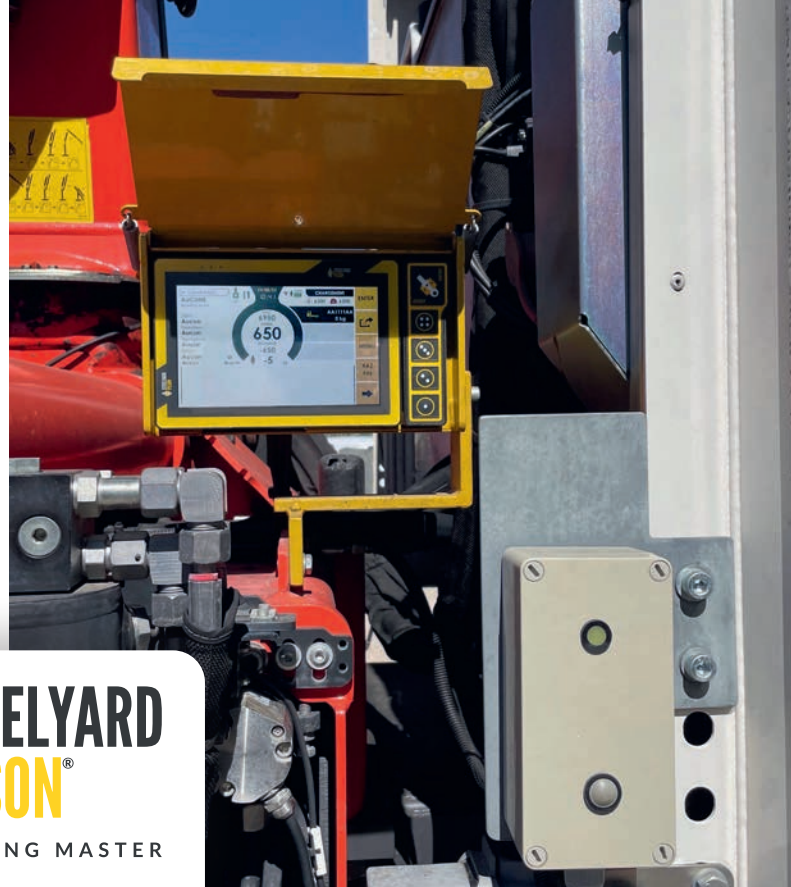

- For Jonsered/Loglift crane and 80X35 Rotator

OVER 90 STANDARD MODELS 4T SHORTEST SCALES ON THE MARKET

- ✓ 4T, 8T, AND MADE-TO-MEASURE 16T, 24T AND 32T MODELS

- ✓ STEELYARD PESON CAN BE FITTED TO ALL TYPES OF RECYCLING CRANES AND EXCAVATORS LOADING CRANES (port, waste, industry, recycling, etc)
