

What do we do?

- Conjugated drugs (**XDCs**):
Antibody-drug conjugate (**ADCs**), Peptide-drug conjugate (**PDCs**) and Radionuclide-drug conjugate (**RDCs**)
- Expert in linker-payload chemistry, molecule modifications and bioconjugation
- Patented novel conjugation technology (OPA LinkTech)

In the past 2 years, we have

- **5** collaborators engaged
- Generated more than HKD **2.5 million** revenue
- **3 PCT** filed (two jointly, one independent)
- **1 PCC** being pushed forward to IIT by our collaborator

What do we need?

- Funding for pre-clinical testing
- Collaborators to co-develop XDCs
