

### Our solution

### Nature Station - health rooms of tomorrow for nature walks and walk 'n talks

Experience different natural environments

Explore textures from natural materials

Walk with sensory impressions that follow your movement

Enjoy light therapy and/or cozy lighting

Surround yourself with soothing nature sounds

Feel the wind from the environment

Go alone or join digital meetings with transcription tools and Al assistance

Enjoy forest scents that help you relax

Phone booth

Green area

Recovery room

Exercise room

Meeting room

Meeting tool

The all-in-one room that enables access to the health effects of nature and undisturbed walking meetings

## We help companies solve several costly problems ...

When wellness grants have no effect ... we integrate wellness in work

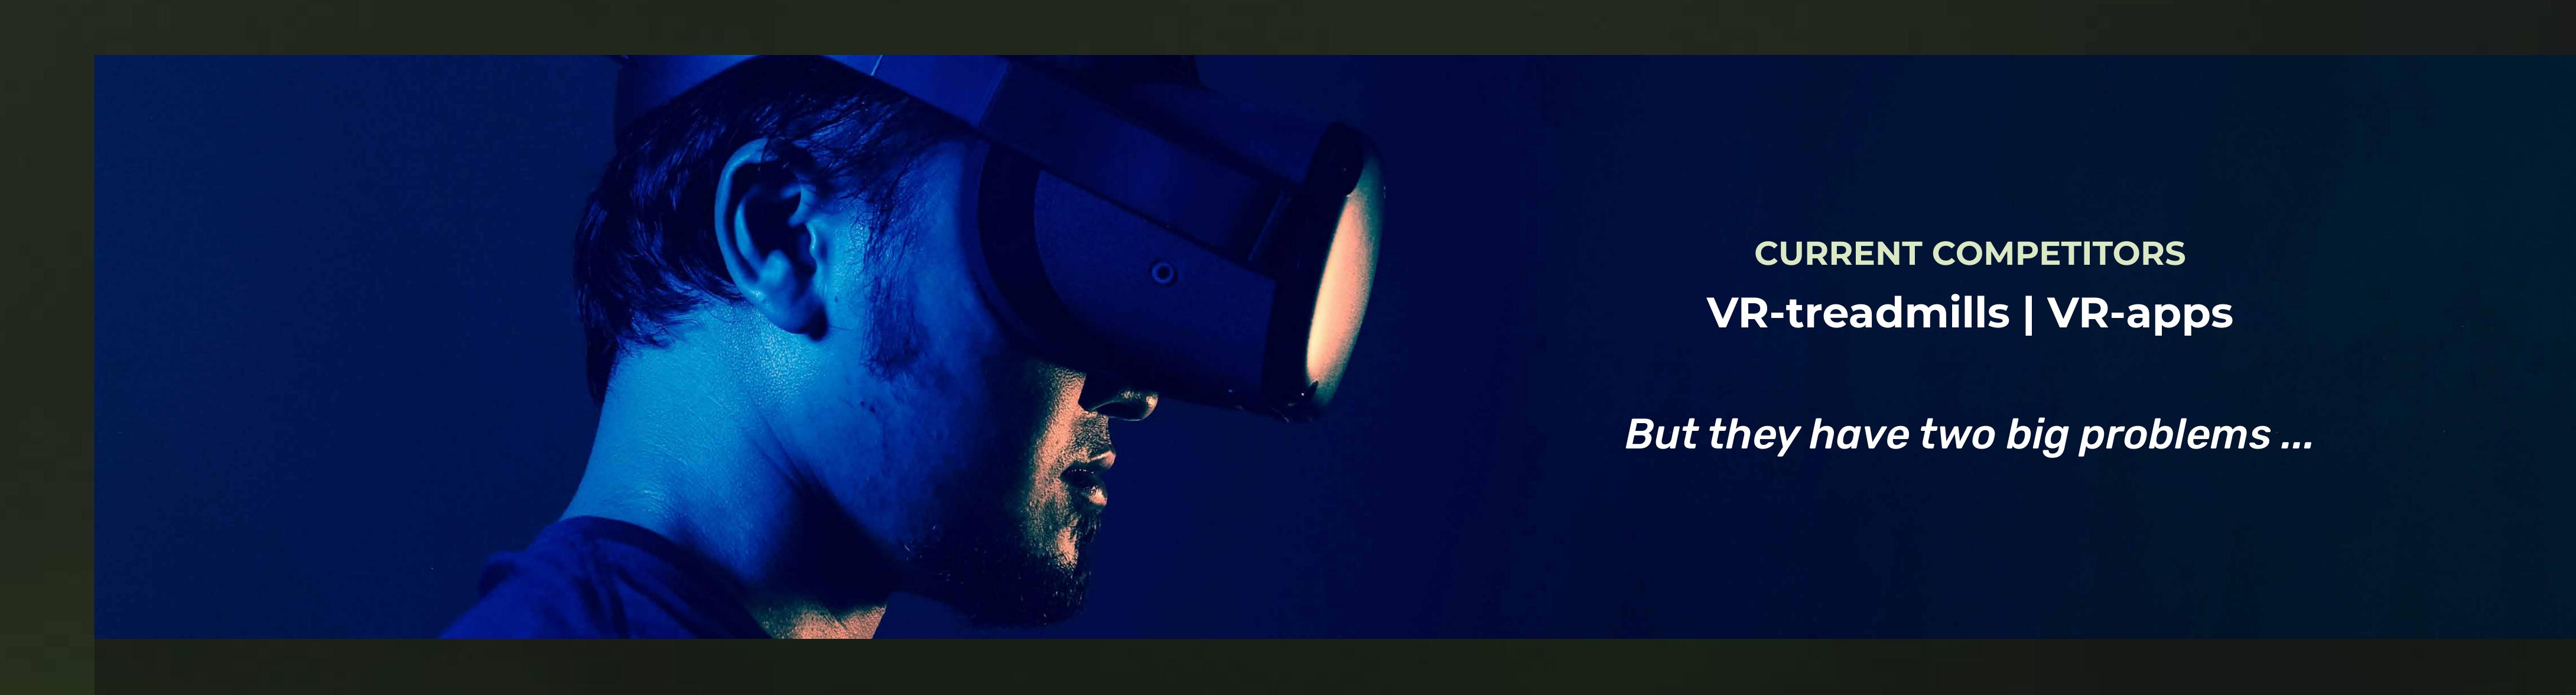

2. When employees quit or become sick due to stress ... we provide a nature station for recovery

3. When sedentary becomes a problem ... we lower the threshold for physcial activity

4. When it's difficult to get people back to the office ... we entice with more than a desk

5. When walking meetings become inefficient ... we make them easier than seated ones

# Competitive situation

### We avoid competitors problems

PROBLEM 1 WITH VR

Motion sickness in approx. 80 % of cases

Only 2 out of 100 people experienced motion sickness in our first test round

PROBLEM 2 WITH VR

Causes virtual fatigue

None of our users has reported virtual fatigue

# Our products

Do you want to go in pairs? Go undisturbed? Or place a mini-module inside an office room? We have Nature Stations for different needs.

For 1-2 people Dimensions: 2,4 x 3,2 x 2,5 (WxLxH)

### NATURE STATION DUO

A soundproof modular room for two people with all health benefits and features.

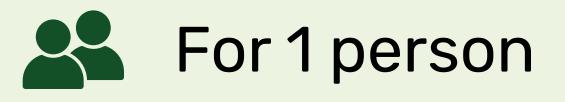

#### Included

- Two treadmills with motion synchronization to nature experiences (max 6 km/h)
- Natural environments from forests, coasts, and mountains via three screens
- Natural sounds via surround system
- Wind synchronized to the nature you are walking in
- Scent and phytoncide emission from trees for better relaxation and immune defense
- Light therapy synchronized with environment and natural circadian rhythm
- Ventilation for fresh air
- Walls covered in real moss
- Soundproof module with a door in frosted/dark glass

#### **Optional Add-ons**

 Meeting package: Meeting connection, transcription function for note-taking by voice, and AI assistance for summarizing notes and extracting main points. Booking system for Duo is under development, design requests are appreciated.

Dimensions: 1,6 x 3,2 x 2,4 (WxLxH)

### NATURE STATION COMFY

A smaller soundproof modular room for 1 person with all health benefits and features.

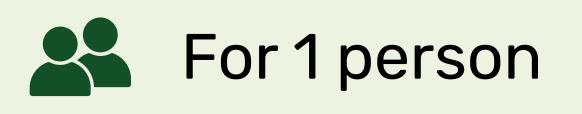

#### Included

- One treadmill with motion synchronization to the nature experience (max 6 km/h)
- Natural environments from forests, coasts, and mountains via a larger screen
- Natural sounds via surround system
- Wind synchronized to the nature you are walking in
- Scent and phytoncide emission from trees for better relaxation and immune defense
- Light therapy synchronized with environment and natural circadian rhythm
- Ventilation for fresh air
- Walls covered in real moss
- Soundproof module with a door in frosted/dark glass

#### **Optional Add-ons**

 Meeting package: Meeting connection, transcription function for notetaking by voice, and AI assistance for summarizing notes and extracting main points. Booking system for Comfy is under development, design requests are appreciated.

Dimensions: 1,6 x 2,4 x 2,4 (WxLxH)

### NATURE STATION MINI

A simplified mini module for 1 person, designed for smaller spaces and office rooms.

#### Included

- One treadmill with motion synchronization to the nature experience (max 6 km/h)
- Natural environments from forests, coasts, and mountains via a large screen
- Natural sounds
- Wind synchronized to the nature you are walking in
- Light therapy synchronized with environment and natural circadian rhythm
- Walls covered in real moss
- Curtain at the entrance

#### Optional Add-ons

- Meeting package: Meeting connection, transcription function for note-taking by voice, and AI assistance for summarizing notes and extracting main points. Mini is a drop-in module without a booking system.
- Scent and phytoncide emission from trees for better relaxation and immune defense
