Hotel and tourism offer

Eker bikes – the perfect solution for your guests

With bamboo bikes from Eker you strengthen your environmental profile at the same time as offering your guests a simple and eco-friendly way to discover your destination.

Enhanced guest experience: Offer guests a unique and memorable way to explore your surroundings with award-winning, comfortable, and functional bikes.

Sustainability: Crafted from renewable bamboo, Eker bamboo bikes reduce the environmental impact while promoting eco-conscious travel. Our frames emit 93% less CO₂e than an aluminium alternative.*

Social sustainability: Support Ugandan artisans and manufacturers who are guaranteed proper pay, pension, health care and living conditions.

Positive brand image: Stand out as a leader in sustainable hospitality, attracting eco-minded travelers and promoting guest loyalty.

Durability and performance: With minimal maintenance, proven durability** and 5 year warranty, Eker bamboo bikes offer long-term value for your investment. The frames are hand-built by our team in Uganda, and assembled in our own workshop in Härnösand, Sweden.

*) LCA report available on our website at <https://ekerbikes.com/the-material/>

**) Our frames are tested and certified to the global standard for bicycles, ISO 4210

Eker Varv

The frame is made by hand, all the way from harvesting the tubes to preparing and joining them into unique pieces of art which nevertheless can withstand long riding in all types of conditions.

The Eker Varv comes with easy to service 11 speed SRAM shifting and durable low-maintenance mechanical disc brakes from Avid.

Delivered with kickstand and mudguards, front and rear reflectors. The setup can be customised depending on your specific requests.

Eker Varv +

Just like all our frames, this one is built by hand from select pieces of bamboo tubes, joined with dark brown biological fibres. The unique construction ensures strong joints and a test-winning bicycle frame.

The Eker Varv + comes with easy to service 11 speed SRAM shifting and durable low-maintenance mechanical disc brakes from Avid.

Delivered with kickstand, mudguards, front and rear rack, front and rear lights and reflectors (final setup defined based on customer requests).
