

DRIVE THE POWER OF SHARING

immediate access to the vehicle you need

what is it?

volvero is a car sharing app that enables owners to share their vehicles with a community of drivers, offering an efficient and sustainable way to access cars, motorcycles, and commercial vehicles while saving time and money.

- Demo available [here](#)
- Pitch available [here](#)

do you still remember
your last car rental
experience?

probably **yes**

according to the reviews left by users it is quite terrible

- cumbersome rental process
- waiting time
- uncertainty in price and vehicle delivered

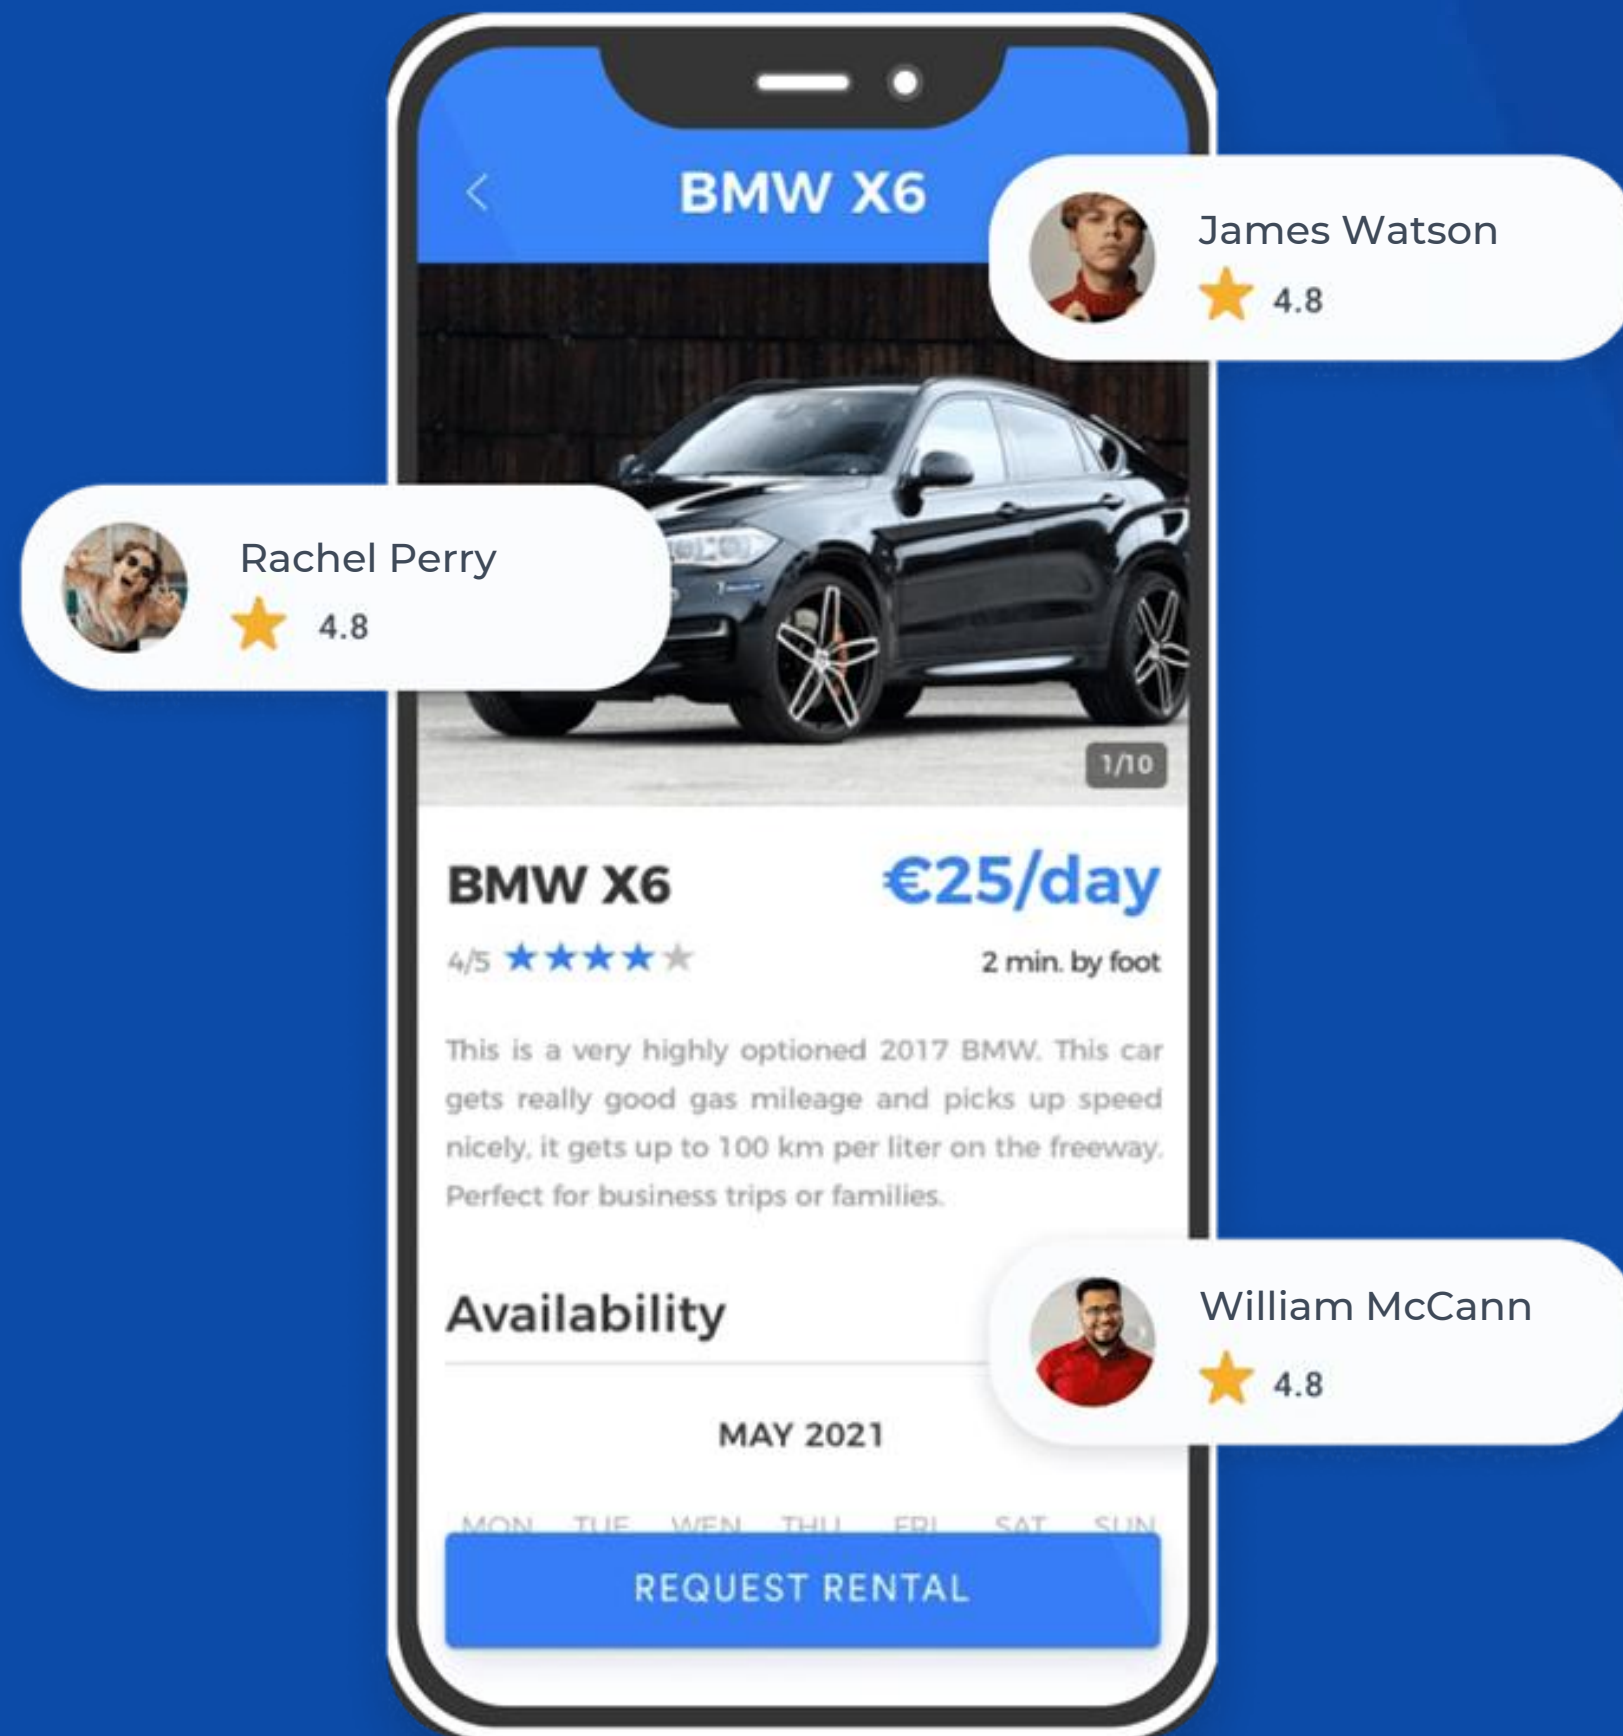

the solution

volvero is a **vehicle sharing app** that allows **private** owners and **businesses** to monetize their **idle** vehicles by providing access to drivers in need

with our **advanced** and **patented** technology, we ensure a seamless and user-friendly car sharing experience

new way to generate income

CAR DEALERS & RENTALS

through volvero, car dealers are allowed to rent vehicles while unsold and car rentals can have a unique and completely digital touchpoint with their current customers

CORPORATES

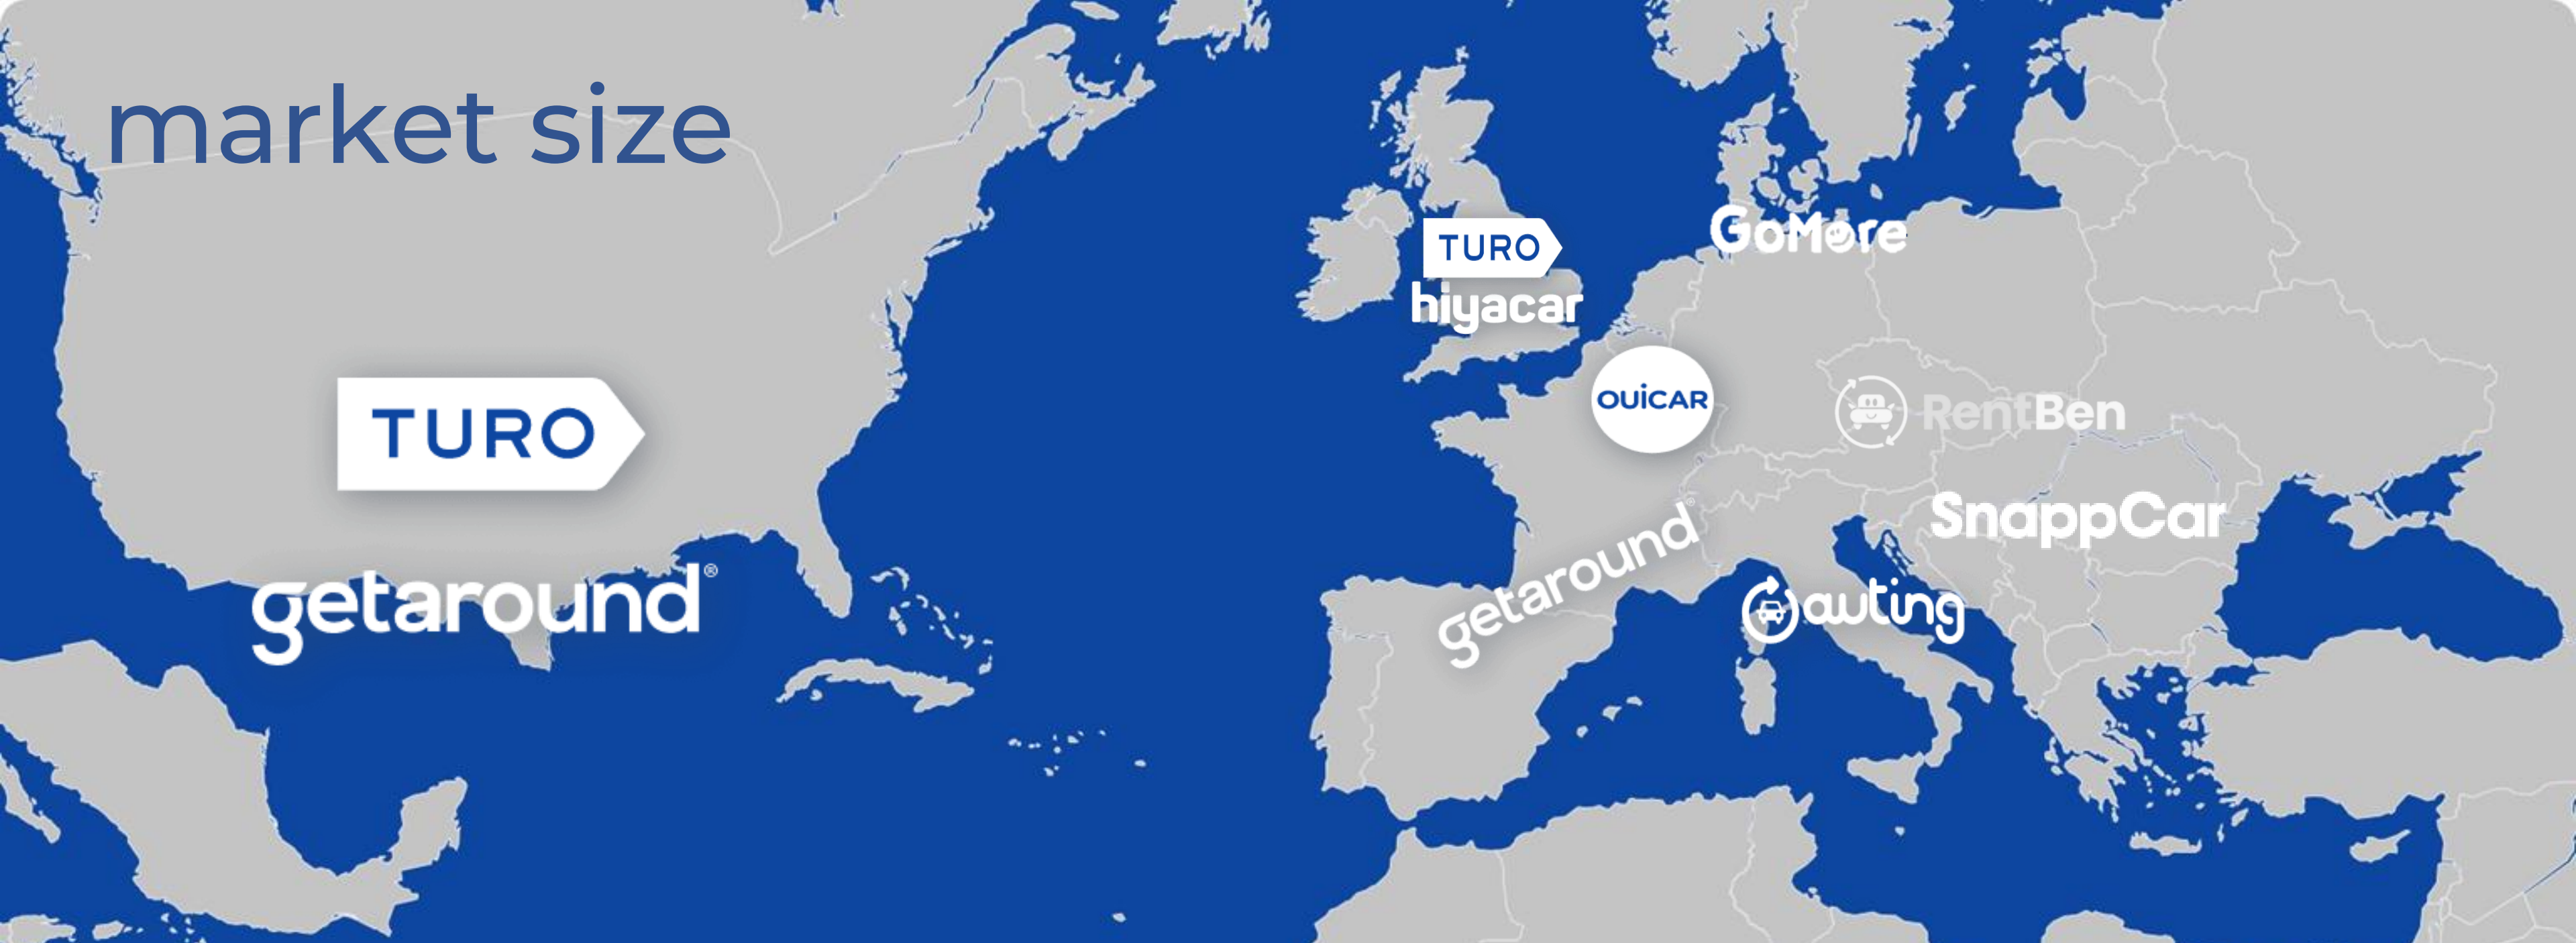

they own fleets of vehicles that can be shared among their employees, local communities or even tourists, thus generating an extra source of income, free publicity and boost their SDG activities

PRIVATE OWNERS

thanks to our revolutionary insurance policy that is provided with every share, all private owners can now share ownership costs of their vehicles, becoming direct providers for people in need

market size
