

acib

AUSTRIAN CENTRE
OF INDUSTRIAL
BIOTECHNOLOGY

RESEARCH FIELDS

**BIOCATALYSIS &
ENZYTECHNOLOGY**

**PRODUCTION OF HIGH-
VALUE BIOPRODUCTS**

ADVANCED MATERIALS

**BIOREFINERIES &
BIOECONOMY**

PLANT BIOTECHNOLOGY

APPLIED BIODIVERSITY

**SUSTAINABLE MICROBIAL
BIOTECHNOLOGY**

**BIOPROCESS TECHNOLOGIES,
BIOPHARMACEUTICALS
& DIAGNOSTICS**

acib – The bridge between science and industry. With 30+ years of applied biotech expertise, acib transforms research into industry-ready solutions – from sustainable production and bio-based materials to cutting-edge diagnostics.

Our mission: tackle global challenges with green, scalable, and competitive innovations.

For cooperation opportunities,

[Research-Marketplace](#).

The whole story

Since its founding, acib has spearheaded hundreds of biotech projects across the world – enabling sustainable transformation in pharma, materials, food, and agriculture. With strong academic roots and a partner network of 200+ companies, we deliver real-world impact through science.

Key Achievements since founding

Budget:

Approx 200+ million secured through industry collaborations, public funding and private institutions

Employees:

206

Project partners:

200+ from science and industry

Research projects:

350+ projects with industry partners including funded projects and fee-for-services and 30+ EU-projects

Publications & conference contributions:

5,000+

Academic literature:

- 117 completed dissertations, 61 ongoing.
- 192 completed master's theses, 21 ongoing.

Owners:

- University of Natural Resources and Life Sciences, Vienna
- Graz University of Technology
- University of Graz
- Joanneum Research

acib FFG-COMET sponsors:

- Federal Ministry Innovation, Mobility and Infrastructure
- Federal Ministry of Economy, Energy and Tourism
- Styrian Business Promotion (SFG)
- Government of Lower Austria,
- Vienna Business Agency
- Standortagentur Tirol
