Montalift M21 - 4WDS

Self-erecting tower crane 21 tm on self-propelled undercarriage

SPECIFICATIONS

Self-erecting tower crane 21 tm

- Jib length 26,0 m and lifting height 18,3 m or maximum 25,5 m with raised jib (20º)
- Maximum capacity 1.800 kg, lifting, trolley and slewing motions controlled by inverter
- Octagonal galvanized mast and compact jib with lattice construction
- Equipped with maximum load and load moment safety systems
- Assembly and disassembly via radio control with display of information for the operator
- Steel counterweight of 8.300 kg with a slewing radius of 2,13 m, counterweight is removable
- 3 x LED lighting in the jib
- Selector switch for crane configurations

Self-propelled undercarriage 4WDS

- 4-wheel drive, choice of two driving speeds via inverter, controlled by push-button driving remote
- 4-wheel independent steering
- Heavy duty axles with hub reduction and 8 pcs 9.00 x 20 tyres
- Can be driven with the crane fully erected
- Four extendable hydraulic outriggers with a base of 4,0 x 4,0 m
- Power supply 400 V 32A-5P - 3 x 25A
- Transport dimensions (l x w x h) 12,4 m x 2,9 m x 3,1 m, total weight 22,4 ton
- Options: generator or battery pack
