

## The Summer 2026 Roadmap: From Visitor to Co-Founder

---

This **90-Day Transformation Roadmap** is the visual proof that your Summer 2026 trip isn't just a holiday—it's a logistical transition into a new life. By showing a clear, day-by-day progression, you remove the "uncertainty" and replace it with "institutional alignment."

---

This timeline illustrates how we leverage your 90-day Schengen window to secure your **UGE-CE Residency** and **Equity Position**.

### Phase 1: Arrival & Alignment (Days 1–15)

- **Day 1:** Arrival in Spain. Meeting with the LEADALEAP Team.
- **Day 5:** Final Review of the **Technical Data Room** and **IP Portfolio**.
- **Day 10:** Execution of the **Equity Contribution Agreement** (€150k for 10% Equity).
- **Day 15:** Notary appointment for Company Formation/Expansion.

### Phase 2: The 20-Day Fast-Track (Days 16–35)

- **Day 16:** Submission of the **UGE-CE (Strategic Interest) Residency** application.
- **Day 25:** Integration into the **9-Module Ecosystem** (e.g., board meeting, role uptake).

- **Day 35: Residency Approval.** Under the Spanish Entrepreneurial Framework, the 20-working-day silence rule usually applies as a "Positive Administrative Silence."

### **Phase 3: Industrial Immersion (Days 36–75)**

- **Day 45: ENISA 1:1 Matching Loan** trigger. Your investment is officially being matched by government funding.
- **Day 60:** Field Deployment. Mapping cigarette waste for **CiggyBuddy** and/or supervising **Multi-Layer Nursery** propagation.
- **Day 75:** Stakeholder Meetings. Networking with European irrigation and manufacturing partners.

### **Phase 4: Permanent Integration (Days 76–90)**

- **Day 80:** Issuance of the **TIE (Foreigner Identity Card)**.
- **Day 90:** The 90-day Schengen limit expires, but it doesn't matter—**you are now a legal, tax-resident Co-Founder in the European Union.**
