

## **Inka Sweet Stevia Phi400x**

Stevia-based natural sweetener developed for food manufacturers

# What is Inka Sweet Stevia Phi400x?

## More than just a simple sweetener!

- ▶ Inka Sweet Stevia Phi400x is a highly concentrated natural sweetener that is 400 times sweeter than traditional sugar.
- ▶ Designed for industrial use, it is a cost-effective solution for larger food production processes, as very small quantities are sufficient. Contains 99% pure Reb-A stevia and inulin fibre, making it a calorie-free and aftertaste-free alternative of sugar.
- ▶ Ideal for replacing sugar, preserves the natural flavour of foods and drinks, while providing long-lasting energy.

# Product ingredients:

## 1. STEVIA: Rebaudiana A (99% pure) + other steviol glycosides

Stevia is a herb with many positive properties:

- Neutralises toxins, prevents viruses from multiplying
- Normalises metabolism
- Stabilises blood pressure, improves oxygenation
- Stimulates insulin production, increases glucose tolerance
- Reduces cholesterol, protects the liver and prevents inflammation
- Has a regenerating effect on the skin and does not cause tooth decay

# Product ingredients:

## 2. INULIN FIBER (prebiotic, extracted from chicory)

Inulin fibre is a nutrient for beneficial bacteria in the gut flora, which is essential for good digestion and optimal intestinal function.

### Health benefits of inulin:

- As a prebiotic, it stimulates the growth of beneficial bacteria in the intestinal tract, supporting intestinal flora balance and relieving constipation
- As a water-soluble fibre, it turns into a gel in the stomach, slowing down digestion, longer feel of being full, preventing overeating
- Positively affects the pH of the gut
- Helps to break down fats and absorb minerals more efficiently
- Regulates sugar metabolism
- Does not raise blood sugar levels, reduces cholesterol
- May play a role in preventing colon cancer
- May be beneficial in cardiovascular disease

# Why Inka Sweet Stevia Phí400x?

## Why is Inka Sweet Stevia Phí400x the best choice for sweetening?

- 100% natural sweetener
- Suitable as a complete replacement for sugar
- Absolutely NO aftertaste
- 400 times sweeter than sugar, so 1 kg is equivalent to 400 kg of sugar
- 0 kcal
- No blood sugar raising effect
- Nourishes and promotes optimal body function through its natural ingredients
- No unpleasant side effects such as bloating or diarrhoea
- Easily soluble in anything
