# Who we are

We improve the bottom line through the optimisation of technical taxes, securing public funding, and providing sustainability consultancy with a 360-degree vision.

+10 offices

Who work with the entire business network: large companies and industrial groups, SMEs, startups, technology centres, universities, etc.

**Highest level of specialization in our teams**

Organised by sectors and technologies with a team of PhDs.

Extensive network of national and international partners aimed at promoting collaborative projects. Active participation in regulatory and normative matters.

**+1.950M€**

Managed in projects during the last year

# Global presence

## EUROPE

Germany, Austria, **Belgium**, Bulgaria, Croatia, Slovenia, **Spain**, Estonia, Finland, France, Greece, Hungary, Ireland, Italy, Malta, Netherlands, **Poland**, Portugal, United Kingdom, Czech Republic, Sweden, and Turkey.

## SPAIN

Barcelona, Bilbao, Madrid, Santiago de Compostela, Sevilla, and Valencia.

# Our Services

## SEARCH AND MANAGEMENT OF PUBLIC FUNDING

Support for Research and Development projects, technological innovation, industrial investments, implementation of new production processes, and sustainable actions (energy efficiency, renewables, and management of Environmental Compliance).

## TAXATION AND INDIRECT FUNDING OF R&D

Analysis of potential fiscal and indirect incentives for R&D: R&I tax deductions, researcher personnel bonuses, Patent Box, Tax lease, and activation of R&D expenses.

## ENVIRONMENTAL AND SUSTAINABILITY CONSULTING

Environmental technical projects (Carbon Footprint Calculation, LCA, Energy Audits, Decarbonisation Plans, etc.) and sustainability projects (Sustainability Plans, CDP Rating, Non-Financial Reporting, Sustainability Reports, CSRD Double Materiality, etc.).

## REAL ESTATE TAXATION, VAT OPTIMISATION, AND DISABLED PERSON DEDUCTION

Technical analysis of local taxes (Property Tax, Economic Activities Tax, Construction Tax, etc.) focused on optimisation.

Detection and advisory services for foreign VAT refund processes.

Identification of opportunities for deductions related to disabled personnel.

# European Projects

In a nutshell

# Public Funding Management | European Funds

Our strength lies in our high level of expertise and knowledge of the complex European funding ecosystem, enabling us to manage **the entire grant process**, from proposal submission to subsequent management. We tailor our services to meet the specific demands of our clients.

Monitoring and **identification of European funding opportunities**.

Project **idea analysis**, call selection, proposal writing, and submission.

Support in the **administrative and financial management of projects**.

Review and **improvement of proposals**.

Partner search for collaborative projects and consortiums.

Positioning and **visibility activities** at the European level.

**Training** in EU programmes

Communication and **dissemination** of project results.

Environment  
Energy  
Health  
Digital  
Food  
Infrastructure  
Decarbonisation  
Water  
Defence

# Public funding management | European funds

At Euro-Funding, **we can fully or partially manage a project**, whether it involves consortium-based projects or those for a single applicant.

Our team of experts can assist and advise on all administrative tasks related to European grants, such as setting up administrative management guidelines, ensuring compliance, monitoring grant requirements, preparing periodic and final reports, and audit readiness.

European Commission grants can reach up to **100 million euros for a single project**.

In the last year

+575 M€

managed budget

+150 M€

secured in grants

50%

success in securing grants

We prioritise the **quality** of projects over the volume of proposals.

We have a team in Brussels that allows us to stay connected with the day-to-day activities of the **European Commission**.

# Our success rates

Programme	Euro-Funding average	EU's average
Horizon Europe	50%	15-20%
LIFE	75%	15-25%
CEF	100%	20-30%
Innovation Fund	33%	10-20%
EIC Accelerator	25%	7%

# Proposal Writing

**We accompany you from project ideation to submission**

- Accompanying you in the process of proposal writing perfectly fitting the objectives and requirements of the programme.
- Accompanying the consortium through all the steps of the proposal preparation:
  - Providing our expertise on the call and conditions to apply,
  - Supporting in the search for adequate partners,
  - Coordinating the organisation of meetings and managing the proposal steps,
  - Collecting all technical inputs from partners,
  - Supporting in the preparation of the Excellence and Implementation sections,
  - Leading the impact section preparation,
  - Defining the budget with the coordinator,
  - Collecting administrative data from partners and submitting it on portal (Part A)
  - Submitting the full proposal (Part A, B and any other annex) online

➔ **We smoothen the application process so you can focus on content and not on processes or administrative aspects!**

# Project Management

We accompany you over the duration of your project

## Negotiation phase:

- Project proposal revision according to the EC's feedback.
- Support in preparation of administrative and financial documents.
- Support in all the communications with the EC.

## Management phase:

- Elaboration of technical and financial monitoring tools.
- Financial monitoring every 6 months.
- Support in the elaboration of Periodic and Final Reports (Technical and Financial).
- Support in the elaboration and submission of amendment requests.
- Advise on administrative and financial issues, Programme procedures, etc.
- Compliance and monitoring of Programme requirements.
- Support in the management of the F&T Portal.
- Support in the elaboration of deliverables according to the EC's quality requirements: edition (if requested) and submission through F&T portal.

# Search for partners for collaborative projects

Building bridges between our clients and projects

- Identification of relevant calls
- Specification of client's added-value proposition
- Support to partner profile development
- Identification of coordinators and partners
- Organisation of meetings to match interest
- Follow-up of the partner's contribution to the proposal

# Critical review of proposals

A tailor-made service adapted to your needs and resources

- Detailed analysis of the call specificities
- State of the art of the technology (excellence)
- Political context
- Business Plan analysis
- Budget review
- 1 to 3 critical reading prior to the submission

# Euro-Funding: partner & coordinator in EU projects

- Coordinating

[\*\*REALIZE\*\*](#) helps accelerate the commercialization of innovative **renewable energy technologies** by supporting project owners in securing **EU Innovation Fund grants**.

[\*\*ATM-EXCITE\*\*](#) enhances **civil-military aviation coordination and cybersecurity** in **Air Traffic Management (ATM)** by developing secure, integrated solutions aligned with **SESAR ER** priorities.

- Partners

[\*\*MoeBIOS\*\*](#) advances **circular bioeconomy** by developing **bioplastic recycling value chains** for packaging, agriculture, and textiles, creating sustainable end-products with high functionality.

# Euro-Funding: partner & coordinator in EU projects

- Partners

**EXPLORA** harnesses **aquatic extremophiles** to develop **sustainable industrial solutions**, unlocking bioactive compounds for **pharmaceuticals, cosmetics, and recycling**.

**LIGHTWIND** develops a **lightweight, scalable drive-train for floating offshore wind turbines**, reducing costs, nacelle weight, and enabling turbines up to **30 MW** for sustainable energy.

**CIRCUBATT** advances **lithium-ion battery circularity** by developing **AI-driven recycling, sustainable design, and innovative business models** to reduce environmental impact and enhance Europe's battery ecosystem.

# Testimonials about our work

Mátyás Péter  
Medres Kft. / Cardiosight Ltd.

Despite working to a very tight deadline, the Euro-Funding team managed to accomplish the task and submitted an excellent grant proposal. It was a pleasure to work with them.

Daniel Edenholm  
Sysarb AB

We wouldn't have got this far without your help

David Martín Gómez  
Charles III University of Madrid

I would like to point out that the elaboration of the proposal was steered with a lot of detail and efficiency

Elena Casiraghi  
Università degli Studi di Milano

Friendliness, expertise, ability to understand and integrate different research languages/perspectives

Pablo Pérez  
AQUACORP

The experience of working with Euro-Funding has been both exciting and demanding because the level of the consultants has been very high, both emotionally and technically.

# Testimonials about our work

Håkan Wahlgren  
Zigrid

Euro-Funding team of consultants is super dedicated, very professional, have a skill set that covers all aspects of the submission. The project management and the own effort they put into the job creates an inspiration to do your very best with the submission. A very good experience.

Manuel Grases  
Flexofibers

It has been "Wanderfull" working with all of you from Euro Funding. We have the feeling of working with very professional people.

Klas Ehnemark  
Knowing Company

It is very positive to be strong in business development and technology at the same time. We now have a really good business plan.

Jose Manuel Rodriguez  
ITAINNOVA

Well-organised work with application filtered to what really matters.

Samuel Martínez  
Circular in Motion B.V.

We have an excellent team that has helped us create a solid application that would otherwise have been very difficult for us. Their knowledge of the process, the required deliverables and the key areas to consider is essential to increase the likelihood of the application's success.

Fleming Pedersen Dambo  
Staccato Technologies

I would not have been able to apply without the support of EU funding. Their expertise and guidance has been invaluable.

Marie Latour

European Affairs Director
