

EVOLUZIONI DI GRANO

Product catalog 2026

Evoluzioni di grano is an entrepreneurial project born from **Laura and Patrizia**'s passion for history and flavors. It has developed in the furrow of gastronomic tradition projected in search of new and unique tastes.

How are our products made?

We create, prepare and package products based on medieval, renaissance and 18th-19th century recipe books. From the fourteenth-century "Liber de coquina" up to Vincenzo Corrado's "Il cuoco galante" and Ippolito Cavalcanti's "Cucina teorico pratica", we like to sift through the pages of history to rediscover ancient taste experiences and rescue from the oblivion of time the flavors that have characterized our past and marked the present.
