

Who we are

We are a consortium bringing together 5 countries and 7 teams from Canada (Montreal and Quebec City), France (Lyon and Marseille), Belgium (Liège), Sweden (Linköping), and Switzerland (Lausanne).

What we are working on

We are working on how to better empower women who have had breast cancer and are on adjuvant hormone therapy, helping them manage the medication's side effects.

What's the one thing we need next

We received funding in 2026 and are setting up the project's framework. Our first goal is to fully understand the 7 environments where we'll implement our intervention
