About TBLI Group

TBLI Group is a pioneer in "Triple Bottom Line Investing" (TBLI), a sustainable finance approach that balances financial, environmental, and social returns on investment. We believe that sound investments yield positive returns in all three areas. Our mission is to educate asset owners and managers, mobilize private sector capital for sustainable development projects, and foster connections between traditional and sustainable economies.

Who We Are

Founded over 25 years ago, TBLI Group is a vertically integrated networking ecosystem that brings together thought leaders, asset managers, investors, and innovative organizations dedicated to sustainable and social finance. We leverage our global networks and extensive experience to connect entrepreneurs and investors, creating lasting value for all parties involved.

The Challenge

Entrepreneurs and emerging fund managers often struggle to find capital solutions efficiently. The typical 18–36 month fundraising period is too long, risking the dissolution of their teams. Without the appropriate network or resources to hire advisors, many face significant barriers to raising funds and navigating regulatory issues.

What We Do

- **Capital Connect:** Our matchmaking system connects funds and projects with investment allocators. The algorithm matches investors with opportunities based on their profiles, ensuring targeted and effective capital allocation.
- **Events:** We have hosted over 40 international summits and now offer virtual TBLI Talks and Investor Salons, providing platforms for ESG and impact investing thought leaders to network and share insights.
- **Advisory:** We provide ESG and impact investing advisory services, including fundraising support, mentoring, due diligence, and strategic partner networking.
- **TBLI Weekly:** Our curated newsletter reaches 45,000 readers, offering insights and updates on sustainable finance.
- **TBLI Circle:** This platform allows our network members to connect, engage, and access our extensive library of educational content.

Why Work with Us

- **Extensive Experience:** 25 years in sustainable finance.
- **Global Reach:** The largest network of ESG and impact investors, entrepreneurs, and thought leaders.
- **Proven Track Record:** Hosted 40 international summits with over 10,000 attendees.
- **Cutting-Edge Infrastructure:** ICT infrastructure, state-of-the-art CRM, and a virtual events platform.
- **Matchmaking Expertise:** A robust system connecting 20,000 investment allocators with a large pipeline of deals.

Our Mission

TBLI is committed to transforming the financial system to benefit all stakeholders by promoting investments that restore social and environmental balance. We foster a community of ESG and impact investors, emphasizing genuine connections built on trust, values, and a shared sense of purpose.

Join Us

TBLI Group invites you to be part of a movement towards restorative capitalism, where sustainability and profitability go hand in hand. Together, we can create an economy based on well-being and responsible investment.
