Contract Electronics Manufacturing

About Printor

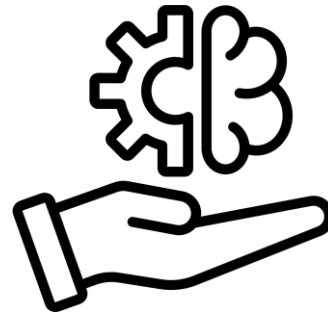

Printor is a comprehensive **EMS services provider**.
Our priority is to reliably deliver high-quality electronics
that meet the business expectations of our customers
and we combine this with flexible approach.

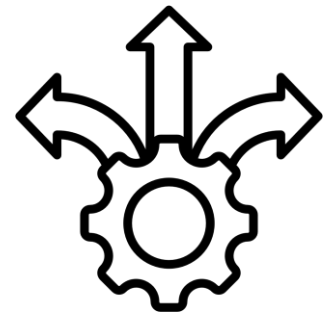

Reliability

Quality

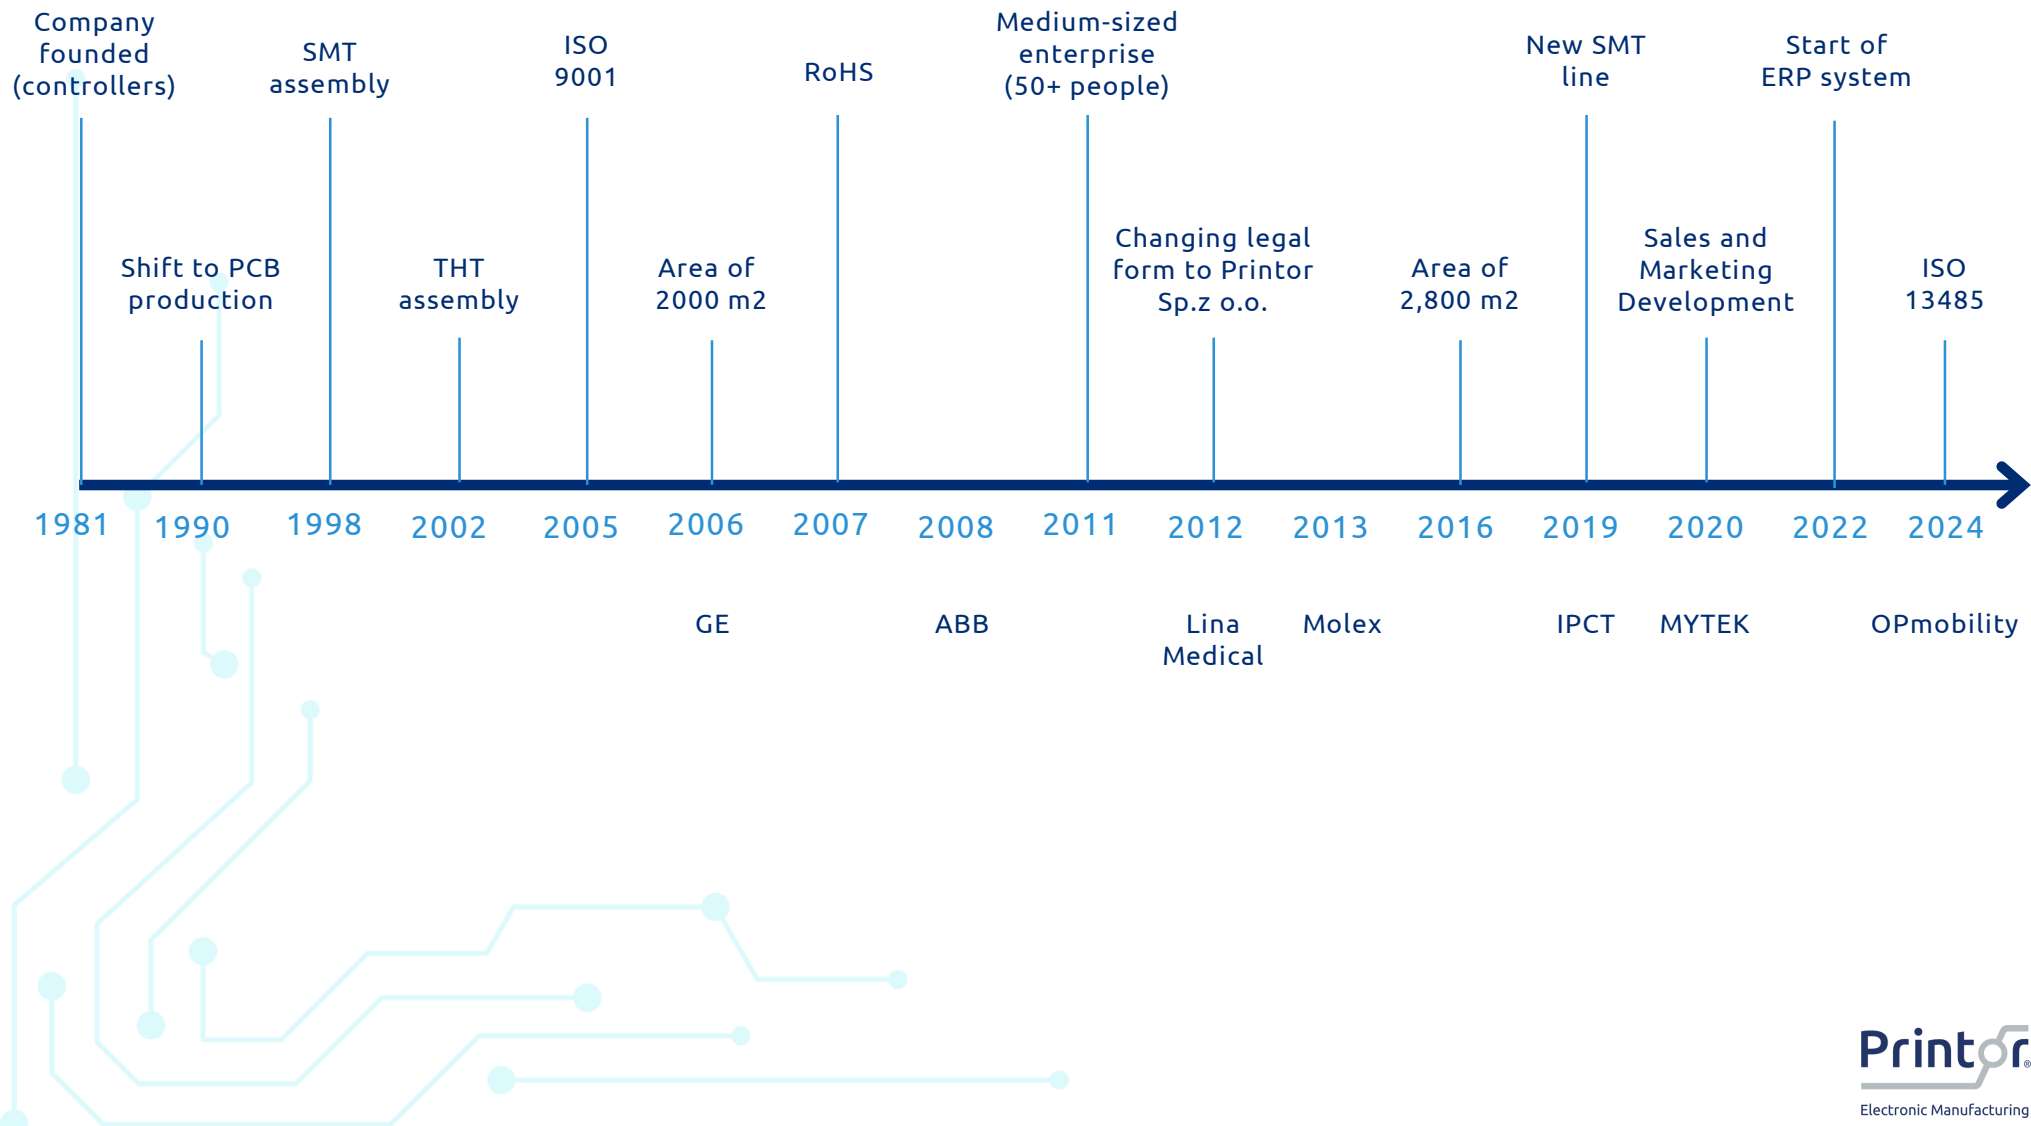

Experience

Flexibility

Our history

Printor as an EMS partner: our strengths

Printor ensures reliability, flexibility and support at every stage of cooperation.

Over
40
years of
experience

Over
2000
projects
completed

Over
120
employees
in-house

100%
Polish
capital

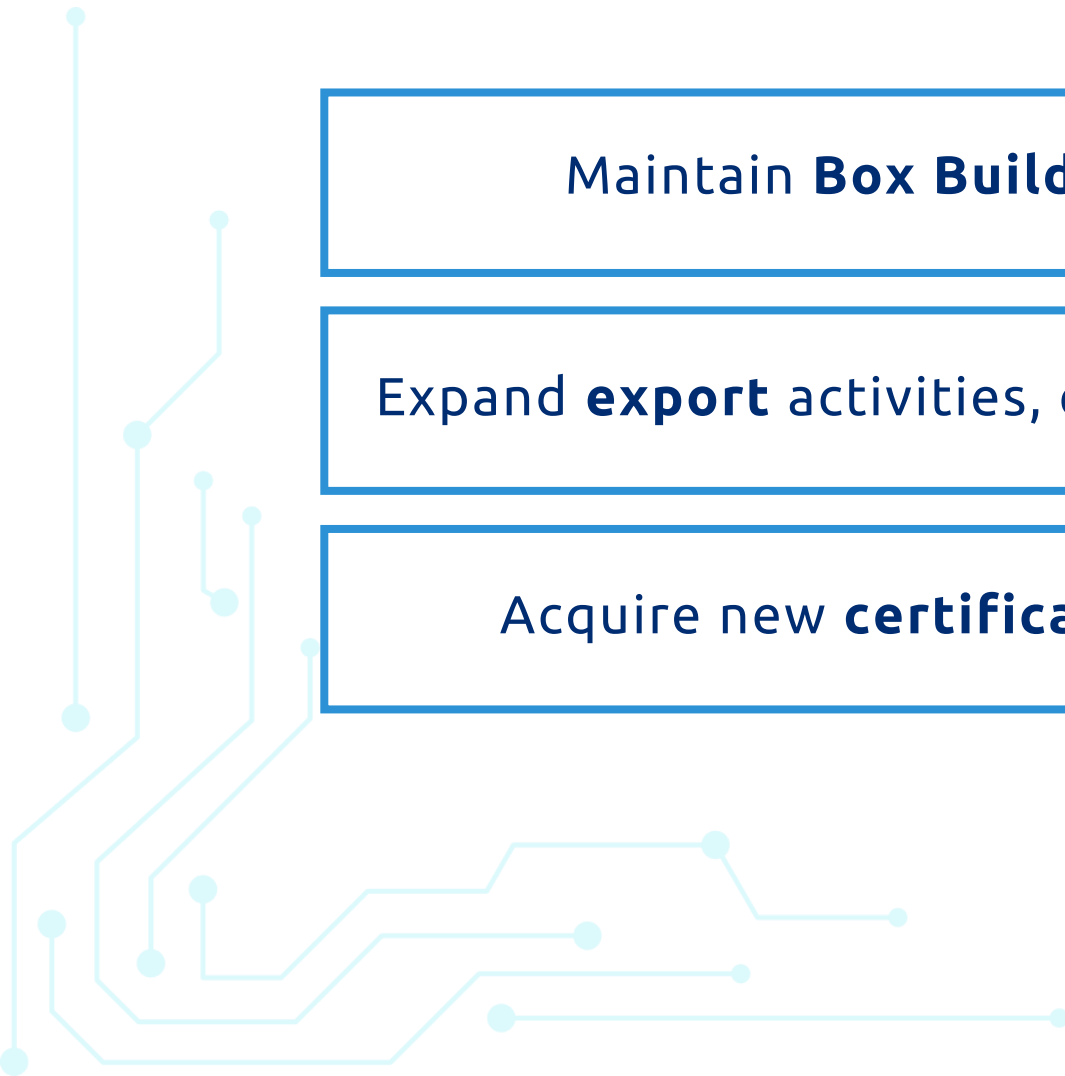

2800 m²
of factory area

€10 mln
turnover

Maintain **Box Build** services at 15%+

Expand **export** activities, especially in EU markets

Acquire new **certifications and licenses**

Project stages

We can start cooperation at any stage: from design, through assembly of boards of different volumes to final assembly.

Design Prototypes Small and medium series Ramp up Supply Chain Management

Scale of activity

Printor specializes in efficient new product introduction and production **from prototypes to medium series**. Board up to 18 layers, smallest component 01005.

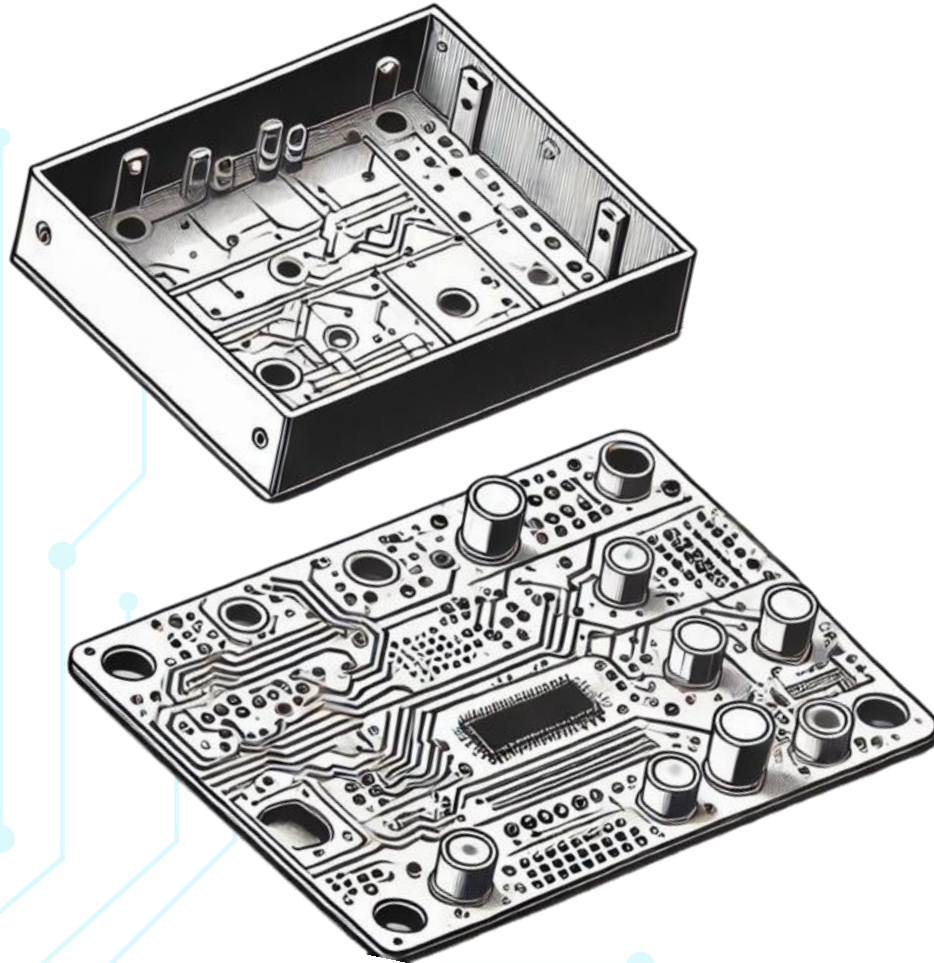

from 50 pcs

to 100 000 pcs

Range of services

- SMT i THT Assembly
- Box Build
- Coating
- Potting
- Mikroprocessor programming
- Marking / Labelling
- Wires processing
- Traceability
- Testing
- 3D AOI
- Procurement and storage of components

Our markets

Printor supplies electronics to multiple industries:

Heavy-duty automotive: 26%

Medical: 22%

Industrial electronics: 11%

Railway: 10%

ICT: 5%

IoT: 5%

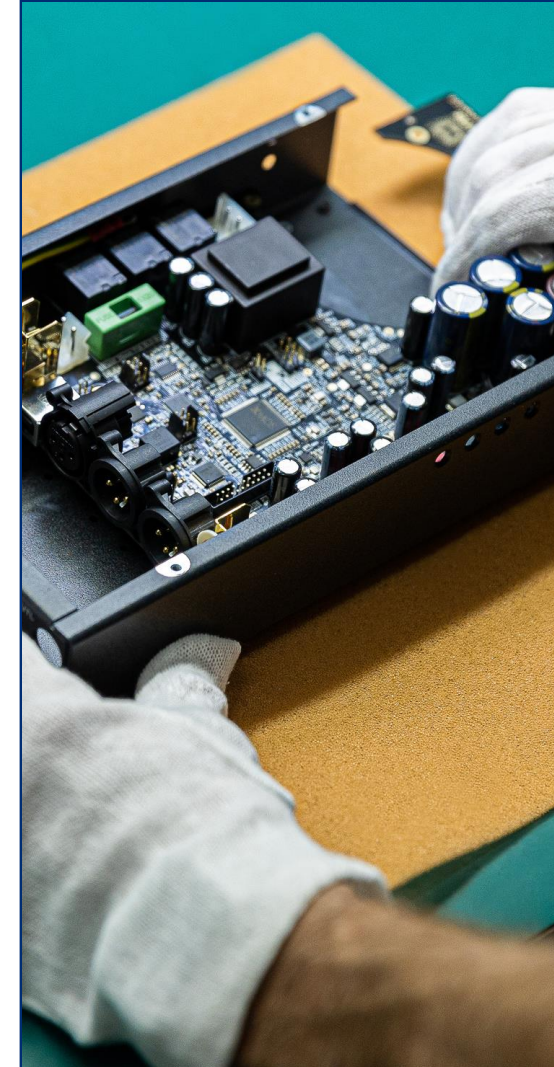

HVAC: 5%

Consumer electronics: 4%

Audio: 2%

Our Clients

Printor grows with quality-sensitive Clients.
We have been trusted by, among others:

Quality certificates

Printor holds **ISO 9001** since year **2005**. Our other certificates:

ISO 13485:2016

AIAG Membership

IPC-TM-650

UL 94

IPC-A-600

IPC-A-610

IEC 61340

Implementation roadmap 2026:
ISO 14000m, IATF certificate

Other quality standards

Printor offers **testing**:

- ICT
- functional
- ionography
- electrical testing of printed circuits
- temperature

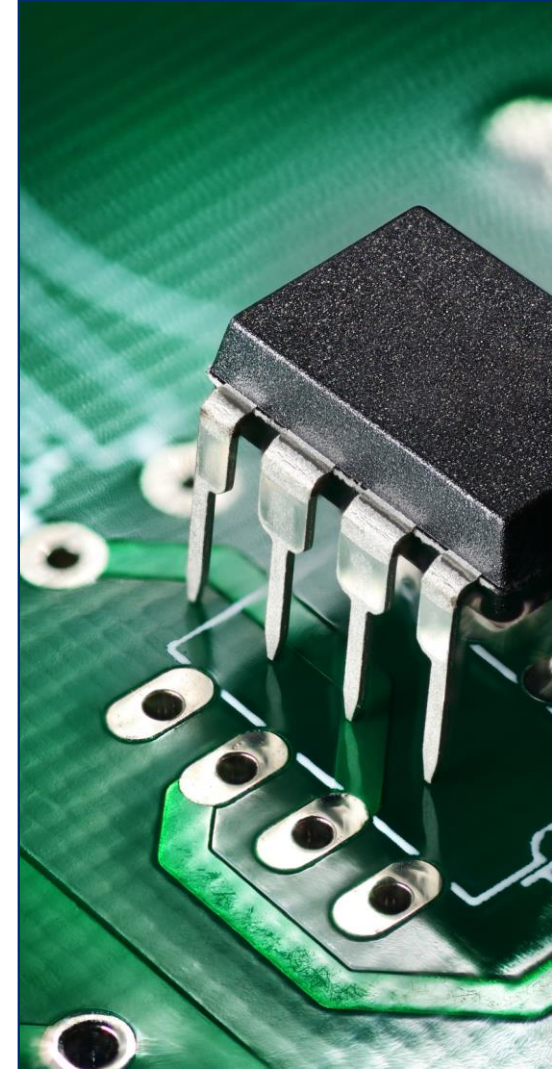

We are **open to audits**.

On time delivery **96%**

in small and medium
series for multiple
industries

Cooperation

Building partnerships	→	Top view on common business perspectives including strategies and values
Focus on needs	→	Choice of the cooperation model, drafting a success scenario
Action	→	Efficient implementation of tailor made solutions, communication, aftersales support
Growth in business together	→	Scaling up, introducing new products, adapting to market changes

Grow your business together with Printor Electronic Manufacturing!
