Who we are

Dulaku Care+ is a Swiss Healthcare Solutions Provider focused on hydration, wellbeing and practical solutions for institutional care environments. We combine selected technical water systems with consultation, installation, structured pilots and ongoing support.

Our focus

- Hydration and reliable drinking routines
- Practical integration into daily institutional workflows
- User acceptance and wellbeing-related observations
- Staff introduction, guidance, service and supply
- Potential reduction of unnecessary single-use water packaging

Why partner with Dulaku Care+

- Institution-oriented implementation with clearly defined steps
- Professional installation, staff guidance and ongoing support
- Transparent evaluation in real operational conditions
- Long-term, collaborative approach across Switzerland, DACH and selected international markets

Our approach

- 01 Needs assessment**
- 02 Professional installation & setup**
- 03 Joint evaluation criteria**
- 04 Documentation & implementation review**

What we evaluate

- Hydration routines
- Daily-care integration
- Staff experience
- Wellbeing observations
- User acceptance
- Usability for residents, patients & staff
- Operational feasibility

Observation and evaluation areas - not claims of clinically proven effects.

Who we want to connect with

- Healthcare organisations & care homes
- Distributors, resellers & sales partners
- Rehabilitation centres & pilot partners
- Strategic, market-entry & implementation partners

Let's explore a pilot, distribution or strategic partnership.
