PERFORMANCE MONITORING

Vessel Performance Monitoring allows shipowners and operators to continuously track and analyze key operational data. By optimizing fuel consumption, reducing emissions, and ensuring compliance with regulations, it not only improves efficiency but also enhances safety and extends the life of the vessel.

CONDITION MONITORING

Gain real-time insights from monitoring the performance of critical machinery.

OUR PRODUCTS

- Vibration & Bearing Condition Analyzer
- Dibox Series Online Vibration Monitoring
- Crankshaft Gauge (Analogue & Electronic)
- Pressure and Temperature Calibrators
- Portable Testing Equipment for Regular Oil Condition Monitoring
- Oil Mist Detector

EMISSION MEASUREMENT

Compliance with international environmental regulations by providing accurate, continuous measurement of exhaust gases.

OUR PRODUCTS

- Portable emission measurement for marine diesel engines

TX Marine
Messsysteme

PERFORMANCE MONITORING

FLOW MEASUREMENT

Accurate monitoring of fuel, oil, and water consumption across all vessel operations.

OUR PRODUCTS

- Coriolis mass flow meter
- Tricor from KEM Koppers
- RRO LINE Promass
- DFM Marine fuel flow meter
- Contoil - Volume flowmeters with the Rotary piston measuring principle, for measuring liquids
- DeltawaveC - Contactless flow measurement for liquids and gases with clamp-on ultrasonic technology

ENGINE PERFORMANCE MONITORING

We deliver precise data on fuel efficiency, power output, and overall engine condition.

OUR PRODUCTS

- Shaft Power Meter and ShaPoli solution
- Electronic Engine Indicator
- Mechanical Indicator
- Peak Pressure Indicator

TX Marine
Messsysteme

PROVISIONS

Without proper provisions, crew members can suffer from malnutrition or dehydration, leading to health issues that can impact their ability to carry out their duties effectively.

Thus, having a reliable service provider is crucial for maintaining the well-being of crew members and ensuring uninterrupted business operations!

OUR PROVISIONS

- FRESH PRODUCTS
- FROZEN PRODUCTS
- DRY PRODUCTS
- DAIRY PRODUCTS
- INDIAN PRODUCTS

*For all the products we supply, health / veterinary certificate is available.

All the fresh fruits and vegetables orders are procured and packaged the day of delivery.

We offer alternative items and deliver it o/b only after our customer's confirmation.

Upon receipt of firm confirmation, depending on the volume of the order and the delivery port, 1-2 working days are required for the preparation and the delivery of the order.

STORE PRODUCTS

The supply of bonded stores is a key necessity that can arise on board. That's why at Tankomar Ship Supply, we have a dedicated team of specialists focused on providing vessels in port with the products they need.

GENERAL STORES

- DECK STORES
- ENGINE STORES
- CABIN STORES
- ELECTRICAL STORES
- NAUTICAL EQUIPMENT & STATIONERY
- SAFETY EQUIPMENT (LSA & FFE)
- ANTI-PIRACY EQUIPMENT
- PERSONAL PROTECTIVE EQUIPMENT

BONDED STORES & PRODUCTS

- CIGARETTES
- ALCOHOLIC BEVERAGES
- SOFT DRINKS
- FRUIT JUICE
- SNACKS

RIDING CREW SERVICES

“Our Crew Keeps You Sailing”

Our Riding Crews are highly skilled technical teams dedicated to keeping your vessel running at peak performance. Deployed during voyages or port calls, they deliver essential maintenance and repair solutions without disrupting your schedule. With their expertise and efficiency, our riding crews ensure seamless operations, reduced downtime, and enhanced vessel reliability — helping you stay on course and ahead of every challenge at sea.

What we do:

- BWT Cleaning
- Technical Support
- Engine Overhauling
- Pipe & Mechanical work
- Painting & Surface prep
- Electrical Service And Repair
- Pre-Docking Support

PRE-PURCHASE INSPECTION

“Know the ship before you own it...The Service that protects your investment.”

Before investing in a vessel, having a clear understanding of its true condition is essential. Tankomar’s Pre-Purchase Inspection service provides shipowners, operators, and investors with an in-depth evaluation of a vessel’s structural integrity, machinery, equipment, and overall seaworthiness.

Our team of experts conducts thorough onboard surveys, reviews maintenance records, and identifies potential risks or hidden deficiencies. The result is a comprehensive report that gives you the confidence to make informed decisions, negotiate effectively, and plan future operational or financial commitments.

What we do:

- Machinery & Hull
- Cargo & Ballast Tank
- Deck & Superstructure
- Documentation Review
- Navigation & Electronics
- Safety Equipment
- Inspection Report
- Recommendations for negotiation and budgeting

DRY-DOCKING SERVICES

Tankomar ensures your dry-docking operations run smoothly, efficiently, and on time by delivering reliable support every step of the way:

What we do:

- Ensure timely and accurate delivery of critical parts, equipment, and consumables to shipyards and vessels
- Support technical teams and shipyards in executing maintenance, upgrades, and repairs with maximum efficiency
- Help minimize downtime and avoid costly delays during dry-docking periods
- Leverage an extensive inventory of marine spare parts, tools, and safety equipment
- Utilize a global supplier and logistics network for fast and reliable fulfillment
- Respond swiftly to urgent, last-minute requirements with 24/7 service availability
- Contribute to on-time project completion while helping clients stay within budget
- Collaborate with clients to coordinate deliveries in line with dry-dock schedules and operational milestones
- Provide custom sourcing solutions for non-standard or hard-to-find items critical to docking timelines
- Offer consolidated shipments and clear documentation to streamline shipyard logistics

RITE PMS MARINE SOFTWARE

ABOUT RITE PMS

Rite PMS is a specialized cloud-based Planned Maintenance System tailored for marine and shipping operations. Designed to streamline vessel maintenance, it offers a suite of features that ensure efficient performance both onboard and ashore.

CORE MODULES:

- Planned Maintenance System – Manage and schedule maintenance tasks.
- Requisition Management – Handle spare parts and supplies with automation.
- Certificates Control – Track vessel certifications and expiry alerts.
- Invoice Auto-Digitizing – Automate invoice processing and archiving

KEY FEATURES

Offline-first onboard operation with automatic syncing to the cloud ashore, ensuring reliability even without constant connectivity

Compliance-focused tools, including scheduled jobs, digital logs, and certificate tracking, ensuring vessels remain audit-ready and in line with maritime regulations

Requisition management for spares and stores, featuring smart catalogs (e.g., IMPA catalog), approval workflows, and delivery tracking

Fleet-wide visibility, with dashboards that allow you to drill down from a fleet overview to individual vessel tasks

Scalability, supporting unlimited users, role-based access control (RBAC), and performance that can grow with your fleet

Enterprise-level support, offering personalized onboarding, training, and premium support with extended hours

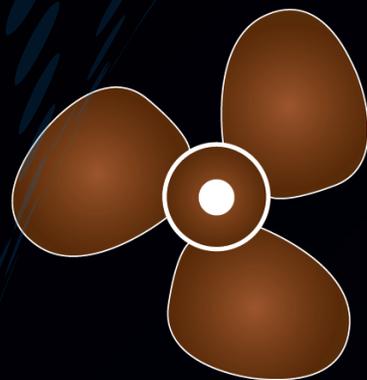

OUR MISSION

- Providing relevant and effective technology solutions.
- Ensuring the security and protection of customer data.
- Providing services with the best quality and competitive prices.
