What does the WG Data do on GenAI?

- Delivery of webinar series fostering **knowledge sharing on AI**

- **AI Act implications** for cities

- **Generative AI-enabled capacity building**

- Strategic approaches to **GenAI urban deployment**

- Best practices for **AI solutions transparency (model transparency registry)**

EURO CITIES

What is Living-in.EU?

Living-in.EU is an **EU initiative** for local and regional leaders who recognize the **potential of technology** to enhance the quality of life in their territory.

It fosters European **cooperation** and upholds European values, enabling cities and regions to **share smart city strategies**, and **re-use solutions** to avoid working in isolation.

Know

Stay connected and informed about the latest advancements in data spaces, interoperability, local digital twins, and more.

Share

Collaborate, share knowledge, and access a wealth of resources and solutions designed to accelerate digital transformation.

Use

Access tools and services such as the support services and the helpdesk we are presenting today, the technical standards, assessment tools, procurement templates, etc.

What does Living-in.EU do on GenAI?

1 The public sector is recognized as one of the key pillars of the AI continent (hence the GenAI for PA call)

2 AI adoption in public administrations it in an early, exploratory phase

3 LRAs need a safe space to share challenges and learn from each other

4 Living-in.EU can be the basis for building a community of PAs on GenAI (CSA)

Thank you for your attention!
