Microservices Architecture Modernization

## E-Commerce

2B I/O - E-commerce Platforms Development and Consultant

### Impressive Numbers:

- Top trending Shopify applications
- Having experience working with many big customers from many countries, such as Singapore and The US

## High tech

High-tech Solutions

### Impressive Numbers:

- 100,000+ products have been exported to Japan (iLuTon: 10,000+ products)
- Cooperated with Holons to launch a "One-stop" Corpex Solution - applying modern technologies and methodology to help businesses build and implement an optimal product development roadmap

VOLTE

## Utility & Energy

Volte - Power system monitoring and Administration Solution

## NxTool

NxTool - An exclusive AI Assistant to Enhancing NTQers' Productivity and Providing Knowledge

### Solution Highlights:

- NxDev - AI Assistant for Developers
- NxSales - Assistant for Sales
- NxTrans - Assistant for Comtor
- KMS for NTQ-ers

## Readiness Core BFSI Solution Highlight

### Solution Highlights:

- **TiMS** - Intelligent Treasury Management System
- **COREPLUS** - Comprehensive Core Banking Solution
- **LALIAS** - Lean Alias System for Account
- **LCAP** - Loan Classification Automation Platform
- **VIAMO** - The Optimization Virtual Account Management System
- **UFO** - Front Office Solutions
- **DLS** - Advanced Derivative Trading Software
- **OAS** - An Unified Asset Management Solution

# Integration & Solutions

20+

## "MADE BY NTQ" Products & Solutions

Proud to provide seamlessly integrated products and powerful solutions for businesses.

## Healthtech

DentalFlow - Digital Transformation Solution for Dental Clinic

### Impressive Number:

A reliable strategic partner of 500+ dental clinics in Vietnam

## HR & Recruitment

Reco

Connect Our World

Reco Manpower - The IT Human Resources Re-Ecosystem

### Impressive Numbers:

- Having a network of over 1,000,000 IT candidates and specialists nationwide
- 80% of CVs sent to clients are approved the first time

## Edtech

4English - English Learning Apps

### Impressive Numbers:

- Top 2 English Learning Apps with 1.5M downloads
- 120,000+ users
- Rating 4.7/5 stars on Google Play

Konia LMS - HR Training Solution

### Impressive Numbers:

- Offers 200+ courses
- 200,000+ learners on the system
- Have served the needs of over 10 enterprise clients

## CDP - Mobio

Mobio - A Comprehensive CDP & CEM Platform

### Feature Highlights:

- Customer Data Unification
- Data management
- Reporting and Analytics

- Segmentation and Personalization
- Integration and Scalability
- Security and Compliance

Awards:

- Sao Khue Awards 2023 for Digital Transformation Platform

## DataPal

DataPal - A Comprehensive Data Management Solution

### Feature Highlights:

- Data Integration
- Data Analysis
- Data Visualization

# AI Development Service

NTQ provide development services of AI & Generative AI from **Assessment, Data Service, Model Service to Deployment Service**

## Strategic Challenges

### ASSESSMENT & CONSULTING

- Business Understanding
- Feasibility Assessment
- Strategy & Roadmap design
- Technical Advisory
- Capability Building

## Capability Challenges

### MODEL RESEARCH & DEVELOPMENT

- Analytics
- Modelling
- Customization & Optimization
- Evaluation
- Proof of Concept

## Resource Challenges

### DATA SERVICE

- Data Acquisition
- Data Entry
- OCR Processing
- Data Annotation
- Data Cleansing
- Segmentation
- Data Extraction
- Data Enrichment
- DaaS

### IMPLEMENTATION (Deployment)

- Integration
- Deployment
- Edge Computing
- Monitoring, Maintenance & Support
- Design and Implement AI platform

## About NTQ.AI Department

### Establishment

April 2020

### 50+ Projects

30+ Client

### Core Activities

R&D

Solution & Service Development

Business Consultant & Development

### 40+ Employees

5+ AI Researcher / 15+ AI Engineers / 20+ Data Engineers

### Certification

Google Tensorflow

AWS Machine Learning

IBM Data Engineer Professional

Intel Edge AI Certification

### Responsibility

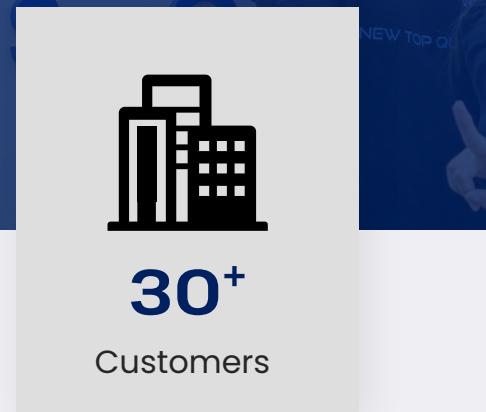

Consult, support and facilitate all divisions and individuals of the company on AI-related matters

# Professional Managed Services

**200++**  
**experienced engineers**

dedicated to developing state of the managed services.

## Application Management:

- 200++ resources;
- Broad Technology Skill Sets and Product:

**Cloud:** AWS, Azure

**Mobility:** hybrid & native Apps

**Database:** (Oracle and MS SQL, Mysql, Postgre...)

**Product:** SAP, WordPress, JIRA

**Technology:** MS.Net, Java, PHP, C/C++

## Cloud Management

- 100++ resources;
- Broad capability:

**Cloud Orchestration:** Provisioning, Decommissioning, Scaling & Resizing...

## 24/7 & Break-fix, Infra Operations:

Infra Monitoring, Maintenance, Disaster Recovery Monitoring

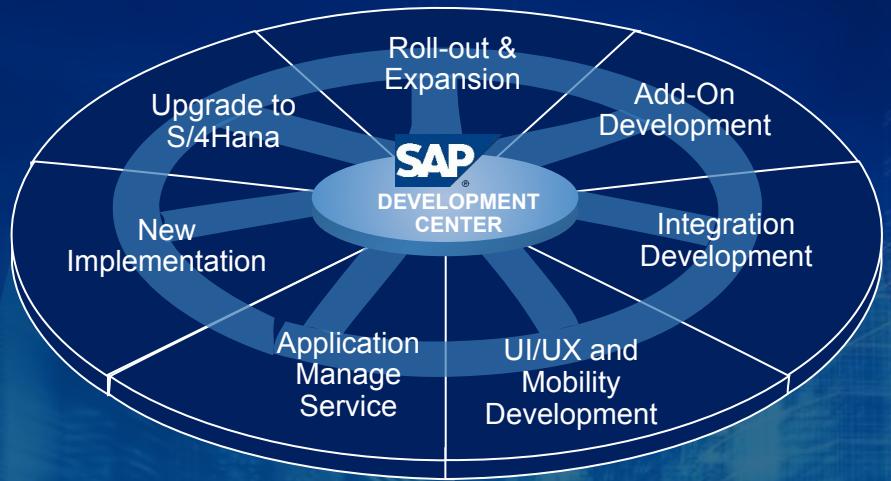

## Infra Management

- 50++ resources
- Broad Technology Skill Sets: Network, Firewall, Backup, Virtualization, Storage

## Application management: And

**Development:** Monitoring, Maintenance, Design and Implement Cloud Application

# SAP Capabilities

## Industry Knowledge

- Automotive manufacture
- Retail
- Real Estate
- Mill Product

## SAP Team's Experience

- 100 + project in large enterprise customers

## SAP Knowledge

- SAP Experience Module: FI CO FM TRM MM SD PP PM PS
- SAP technical: ABAP, FIORI, BTP
- KMS integrated with AI/VM

## SAP Certification: 16+

- PMP
- Finance
- Logistic
- ABAP
- ...

**Include NTQ's Branches in:** Korea, Japan, EU, Hong Kong, US, MIT...

- More than 15 years experience of Key Resources

- KMS integrated with AI/ML
- Strong SLA

- +300 Developers
- Included UI/UX Senior Designer

# Testing Service Overview

## Integration Testing and System Testing

Ensure quality for your application with traditional testing activities by the professional & experienced testers.

## Automation Testing

We help you save money and increase reliability by automation test, device farm, and other methods.

## System Load Testing, Performance Testing

Make sure your system continues to operate flawlessly under the harshest conditions.

## Security Testing

Make Sure your system can defend against network security attacks and hacking threats.

## Supported Technologies & Tools

## Our Testing Resources

**150+**

QA & Testers

**80+**

Tester with ISTQB certification

# Embedded Service

|                      |  |
|----------------------|--|
| Power Supply         | <p><i>NTQ is experienced in designing low-power, solar and battery powered IoT devices.</i></p>  |
| Sensor               | <p><i>We are experienced in working with sensors used in measuring:</i></p> <ul style="list-style-type: none"><li>• Pressure</li><li>• Temperature</li><li>• Torque</li><li>• MEMS</li><li>• Air Quality</li></ul>   |
| Processor            | <p><i>We have many years of working with NXP, ST, TI, Nordic MCUs as well as ARM Cortex A or FPGA. All running based on real-time OS like FreeRTOS, Zephyr and Yocto based Linux, Automotive Grade Linux.</i></p> <p><i>We are experienced in writing drivers to connect peripherals.</i></p>      |
| Communication Module | <p><i>We develop driver/ software stack that help devices communicate and synchronize with Cloud/ Mobile app via:</i></p> <ul style="list-style-type: none"><li>• BLE &amp; BLE Mesh</li><li>• Wi-fi Low-Power</li><li>• Zigbee, Thread</li><li>• LoraWAN</li><li>• Serial communication</li></ul> |
| User Interface       | <p><i>Regarding user interface, NTQ can work with a wide range of widgets, from simple button, LED to HMI and touch screen by our inhouse library or Qt UI SDK.</i></p>  |
| Actuator             | <p><i>We can help you to improve efficiency of most types of motors in the market: BLDC, DC, PMSM, etc.</i></p>  |
