# Digital tools for Water management and soil health in sustainable agriculture

Tetiana Tretiakova

AgriSat Iberia SL

This project has received funding from the European Union's Horizon Europe research and innovation programme, under Grant Agreement No 101059839

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the granting authority can be held responsible for them.

## Topic(s) addressed:

- Clean environment and zero pollution
- HORIZON-CL6-2025-01-ZEROPOLLUTION-06: Provide digital solutions tailored to small and medium-sized farms to monitor and sustainably manage agricultural inputs and natural resources

## Other topics of interest:

- HORIZON-CL6-2025-02-CLIMATE-03: Understanding and managing medium and longer-term challenges and opportunities for agriculture stemming from shifting climatic zones and changing agroecological environments
- HORIZON-CL6-2025-03-GOVERNANCE-11: Enhancing sustainability and resilience of agriculture, forestry and rural development through digital twins
- HORIZON-CL6-2025-02-FARM2FORK-01: Additional activities for the European partnership on accelerating farming systems transition - agroecology living labs and research infrastructures
- HORIZON-CL6-2025-02-FARM2FORK-03: Overcoming the barriers for scaling up circular water management in agriculture

and more

## Project idea

- Provide water and nutrients accounting tools and management indicators from field to regional scale
- Provide land suitability maps for farmers and authorities and strategy to prevent soil degradation and erosion
- Improve soil texture and health using organic inputs and monitor impact on crop production cycle in both irrigated and non-irrigated areas
- Provide tools for monitoring soil health within crop season
- Demonstrate new tools in Living Labs across different regions
