

SeaDry Moisture Absorber for Containers

Effective moisture protection during transport and storage

Container desiccants prevent condensation → **no cargo sweat** → **no container rain**

SeaDry prevents:

- Mould
- Corrosion
- Sodden packaging
- Detached labels
- Changes in odour and taste

FACTS AND FIGURES:

- ✔ fast and even moisture absorption due to perfectly matched components, moisture is securely trapped
- ✔ absorption capacity $\geq 300\%$ under extreme conditions that may temporarily occur in containers, effective for more than 60 days
- ✔ effectiveness confirmed under real and lab conditions for various types of transport, climatic zones and storage locations, including no impairment in lab tests with extreme temperature fluctuations between $-40\text{ }^{\circ}\text{C}$ and $+37\text{ }^{\circ}\text{C}$
- ✔ all ingredients are REACH-compliant, no DMF contained

Customer service overall score: Very good
