

FoodOxys

A new food quality
concept!

European certification mark

Get familiar with the first Greek
certification mark for agri-food products
approved by the European Union
Intellectual Property Office (EUIPO)

FoodOxys is a spin-off company of
the University of Thessaly

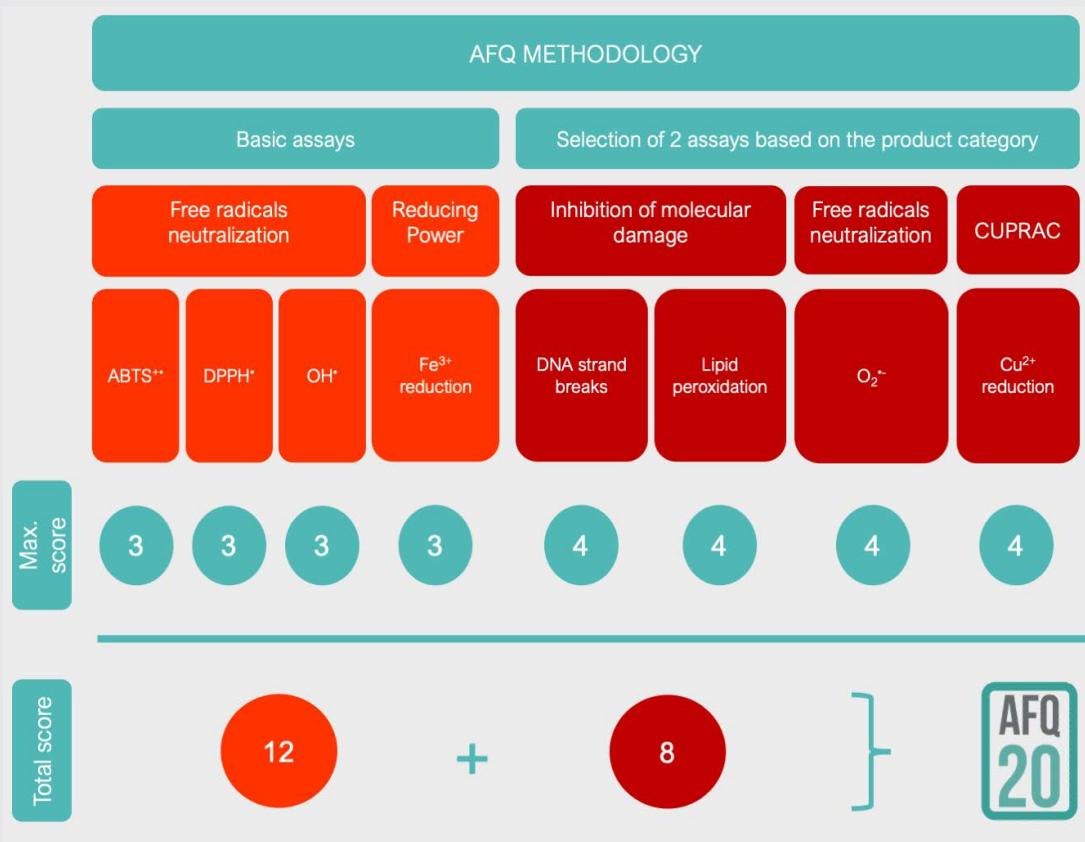

What is AFQ?

AFQ (Activity FoodOxys Quality) certifies agri-food products for the properties included in their Regulation of Use using biochemical protocols.

AFQ introduces a novel system for rating and classifying the quality of agricultural products from all over the world.

How AFQ works?

Every product is subjected to a detailed analysis of its intrinsic quality composition and its bioactivity, aiming to promote human health and wellness.

AFQ benefits

- ✓ Demonstration of bioactivity
- ✓ Diversification
- ✓ Confidence
- ✓ Safety
- ✓ Novelty
- ✓ Increased added value
- ✓ European certification
- ✓ Exports
- ✓ Extroversion
