WHERE THE WORLD MEETS INNOVATION

A blue-tinted photograph of a modern building with large glass windows and a person's head visible in the foreground, partially obscured by a white diagonal line.

*“Put all you are into  
the smallest thing you do.”*

**Kathy Fehst** | CEO

It's a simple way to describe us. We like what we do and we are committed, to us, to our employees, to our customers, to our suppliers and to everyone we interact daily.

We like sustained growth that substantiates trust, value by which we guide our performance.

Innovative solutions through continuous learning allied to “out of the box” thinking or if needed “inside the box”, make up a blend of expertise built on years of experience, attention to detail, fast responses and result in value adding solutions that meet our customer's expectations.

We embrace SIROCO as a family that commits itself to you through its values. Our goal is to create long term relationships in which we support our customer's growth, while leading a socially and environmentally conscious business.

This is our DNA, this is our contribution.

# Welcome to Siroco,S.A.

We are dedicated since 1988 in developing and producing high quality solutions for the metal industry.

With 35 years of experience, we are strategic partners to our customer, earning their trust through an efficient and fast service.

Our company has a modern production facility equipped with machining systems and a highly skilled team capable of performing machining operations according to customer requirements. Our services include mechanical machining of metal parts, as well as assembly of mechanical subassembly groups and machine units. We specialize in the production of small and medium series including assembly of subassemblies.

Additional to the machining service, we also offer engineering services which enable us to develop mechanical drawings for jigs, assembly tools, control tools, and machine units.

On the next pages, you will find additional information to our competencies and solutions that we offer.

WHERE THE WORLD MEETS INNOVATION

# COMPETENCES

## Our Services

### Mechanical Engineering

---

Team of mechanical engineers for designing parts; assembly groups and machine parts/units

Solidworks 2023  
PDM Works

### Metrology

---

#### Our Quality control equipment

---

- |   |   |
|---|---|
| 1 | Digital Vertical Column, Mitutoyo           |
| 1 | Digital Verticl Profile Projector, Mitutoyo |
| 1 | Digital Hardness Tester                     |
| 1 | Granit Plane, LAN-FLAT                      |

MACHINING

## Machinery Park

4	CNC, Conventional and 5 Axes
5	EDM Machines (wire and conventional)
2	Milling Machines
6	Grinding Macines (cylindrical, flat and universal)
1	Conventional Lathe
1	Automatic Polishing Machine
1	Laser Engraving Machine
2	Band Saw (vertical and horizontal)
1	Aluminum Profile CCutting Machine
1	3D Printer

## Additional Machinery at Partners

CNC Milling and Lathe - parts over 1100mm  
 Flat grinding over 900mm  
 Cylindrical grinding over 300mm  
 EDM Wire Z superior to 310mm  
 Die sinking  
 Mechanically welded constructions and civil locksmiths  
 Welding  
 Painting, chromium plating, zinc plating, anodizing and nickel-plating services  
 Heat Treatment and surface coating  
 Laser, waterjet, plasma cutting and bending  
 Solutions in acrylic and polycarbonate  
 Solutions and specific parts in stainless steel  
 Casting parts  
 Three-dimensional measurements  
 Collaboration with Aveiro University for tests and analysis
