

C-SAM

Track. Trace. Control.

a bespoke enterprise, resource and planning
application to fit around your business processes.

Who are we?

Based in Aberdeen, C-SAM has developed a modular-based enterprise resource and planning (ERP) system.

With feature-rich and configurable modules, we have designed our application to be adaptable to any business sector. Our core belief is that our solutions should flexibly adjust to your business needs.

We are proud to support over 1000 users in over 25 different countries across the globe!
