

LINJEMONTAGE

Power Supply for the Future

SUBSTATIONS

Our solutions are designed to deliver exceptional reliability, long service life and optimized performance

- ✔ Turnkey gas and air insulated substations up to 400 kV
- ✔ In-house design and engineering capabilities
- ✔ Extensive experience in managing and executing projects in demanding environments

TRANSMISSION & DISTRIBUTION

Comprehensive solutions for overhead lines and cable networks

- ✔ Overhead lines up to 400 kV in various pole types and designs
- ✔ Cable installation up to 220 kV, including jointing and terminations
- ✔ Complete turnkey projects – from groundworks to finished installation
