Flexibility & Robustness

- Control of the entire development chain
 - Data extraction
 - Cloud connection
 - Database storage
 - Backend
 - Frontend
- Architecture adaptable to new devices/technologies
- Integration with current systems and scalability
- Modularity and customization

1. Management Commitment

Objectives – Resources – KPIs – Reviews

2. Risk Management

Risks Lists – Score – Treatment

3. Internal Organization

People – Processes – Technology

4. Teams and Cloud

Architecture – Cloud – Database Location
