What you get with ELEKS’ product strategy consulting

REDUCED TIME-TO-MARKET

Our multidisciplinary product team, industry expertise and predictable, streamlined process make it easy to launch products faster – **meeting business goals by delivering on time and on budget.**

ACTIONABLE PRODUCT ROADMAP

We collaborate with your business from the product ideation stage, providing insights that inform your approach to product strategy and growth. From validating hypotheses to building a product roadmap, we’ll help you **implement a product strategy that supports your business goals and adapts to market changes.**

CUSTOMER-CENTRICITY

We closely analyze users, workflows, and experience gaps to help you **identify problems** and **build solutions** that put your users first and **make your customers happy.** We apply a continuous product design approach based on metrics and measuring success.

ADVANCED TECHNOLOGICAL DESIGN

Our team has decades of experience in architecting products with cost effectiveness, flexibility and scalability in mind. We can help you design and build products that will **maintain optimized performance** even as your bandwidth needs expand.

EFFICIENT AND CONSISTENT BUSINESS PROCESSES

We have a proven approach to business design and product management, with efficiency baked into our DNA. In collaboration with your team, we’ll **transform your business processes to integrate efficiency, cost optimization and risk management.**

EFFECTIVE ROADMAP EXECUTION AND PRODUCT PORTFOLIO MANAGEMENT

Don’t let existing products become obsolete. With our product portfolio management solutions, we can define strategy, drive product management activities, and monitor process efficiency to help you **grow and improve your existing products.**

Industries we serve

Though ELEKS offers product strategy consulting services across a wide range of industries, we've developed specific expertise in these sectors

HEALTHCARE

Well-versed in healthcare regulatory and compliance initiatives, the ELEKS team offers custom product development work enhanced with a proprietary healthcare development framework to rapidly prototype and build products in the healthcare industry. Our solution offers fully customizable and extensible pre-built components, content, and workflows for the healthcare industry, ensuring product scalability, quality, and performance.

FINTECH

Our team has considerable experience in designing and delivering advanced digital products for investment data and analytics. We support stocks and market analysis for brokers and financial analysts, solutions for financial data operations, as well as trading platforms and mobile banking.

ENERGY

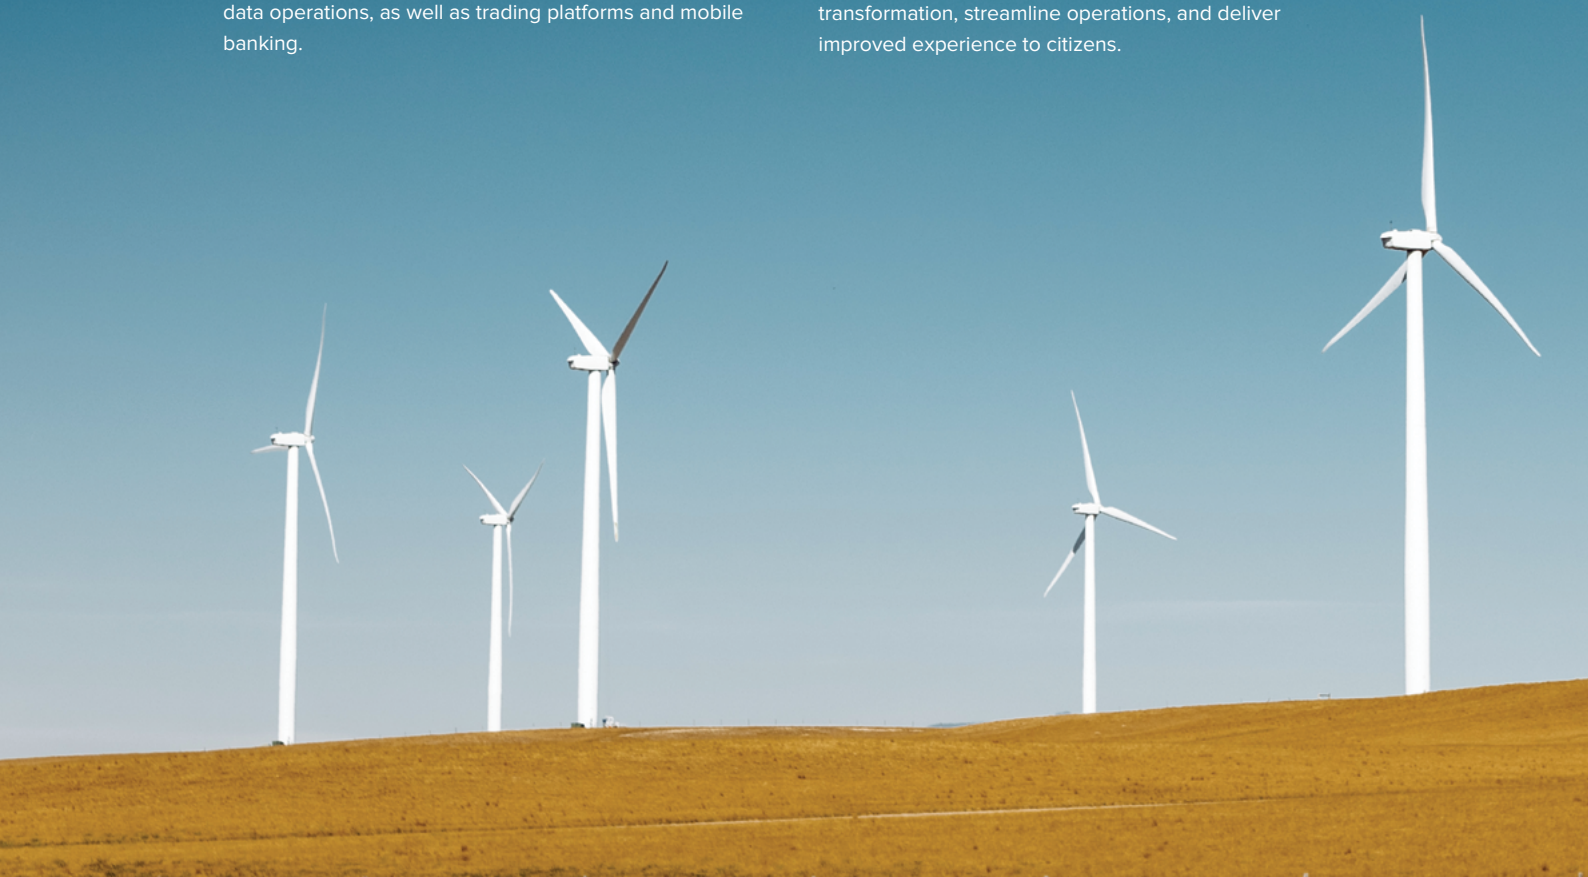

Our energy consulting services leverage technology to optimize energy production, distribution, and consumption processes. Our expertise in this area encompasses designing and building advanced digital products that enable remote monitoring and control of energy assets, predictive maintenance, demand-side management, and renewable energy integration.

INSURANCE

We know how to design best-in-class insurance services enabled by advanced digital solutions to optimize operational efficiency. Deliver advanced customer experiences so that you can effortlessly grow your book of business. Our digital solutions give insurance clients effective tools for risk calculation and management, pricing, policy and claims management.

GOVERNMENT

ELEKS specializes in building citizen-centered solutions and streamlining processes in Strategic Management of Human Capital, e-Gov, Customs and Immigration services. Our government services enable digital transformation, streamline operations, and deliver improved experience to citizens.

Why ELEKS?

END-TO-END PRODUCT ROADMAP

ELEKS can guide your organization through the entire product lifecycle – from idea validation to market delivery. With expertise in both product design and management consulting, we'll be able to help you both **design and implement your product strategy.**

EXTENSIVE INDUSTRY EXPERTISE

With deep industry experience and product development experience across industries including healthcare, insurance and finance, we can get up to **speed on new projects quickly.** Our team has hands-on industry experience, and we follow best practices that help us architect and execute on innovative solutions that align with industry requirements, so you can **meet compliance requirements without sacrificing creativity.**

EXPERIENCE IN INNOVATIVE TECHNOLOGIES

With vast experience in AI, data analysis and machine learning, blockchain, cyber security and data protection, and Cloud consulting, our specialists can help you **design a solution that integrates cutting-edge technologies to help you future-proof your business.**

Customer success stories
