ABOUT US

Through an interaction between **effectiveness** and **efficiency**, Gestek Impianti has achieved significant results such as the acquisition of new markets also at an **international level**.

The stable workforce includes **certified welders** with the Italian Welding Institute. The company also makes use of the **external consultancy** of various professionals who extraordinarily carry out any possible need in terms of design, contractual guarantees and legal affairs.

To aim for an ever wider market and important clients, Gestek Impianti has equipped itself with an **important fleet of vehicles and equipment**. Furthermore, the company's expertise and experience are proven by national **certifications** and **attestations**.

SERVICES

GESTEK IMPIANTI is a Company specialised in **prefabrication and erection of piping, equipment and steel structure** involving only qualified personnel with extensive experience acquired in years of working activities and through specific training session in our workshop.

The main activates carried out by our personnel are:

- Prefabrication & Erection of Piping in any metallic material (Carbon Steel, Alloy Steel, Stainless Steel – any grades – Low Alloy, etc...);
- Pre assembly and erection of Steel Structure;
- Installation of Equipment (static & dynamic);
- HVAC installation;
- Painting / Coating & Insulation;
- Scaffolding;
- Dismantling Activities.

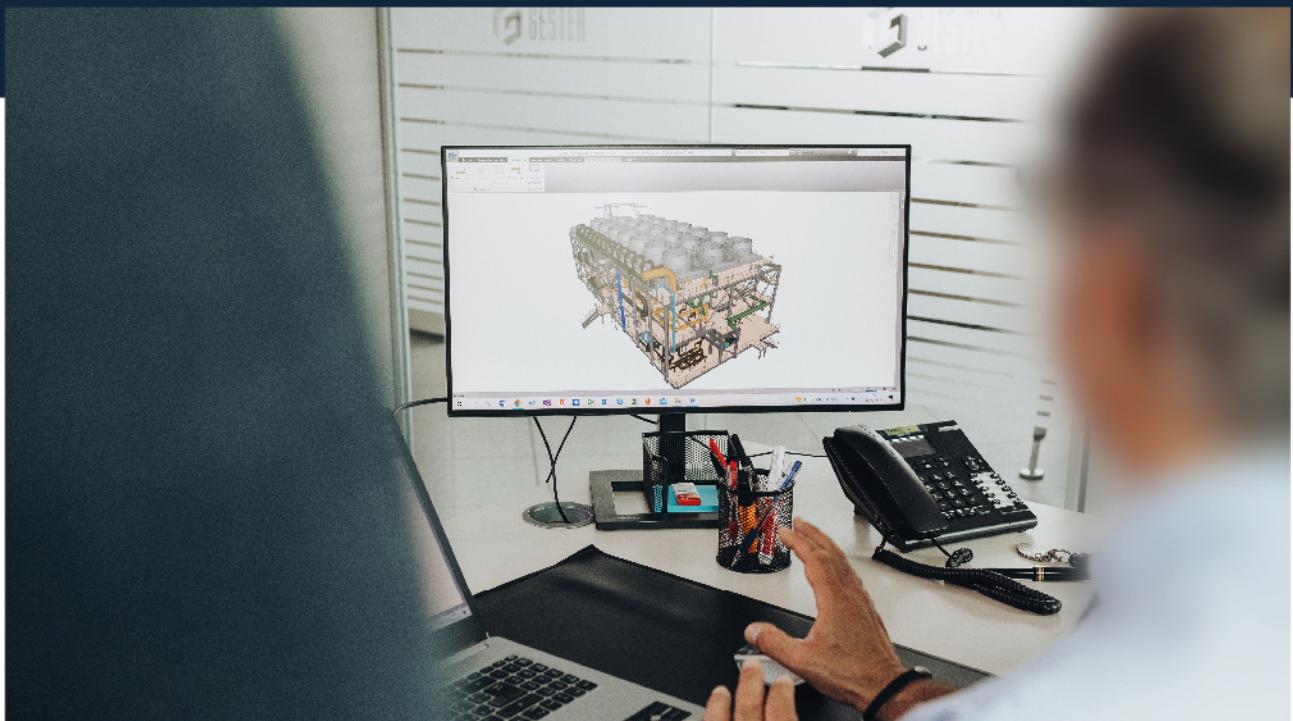

VISION & DEVELOPMENT STRATEGIES

Our Vision is based on our experience and our knowledge of the mechanical construction of industrial plants, regardless of the sectors of activity.

Our idea is that at the basis of every industrial process there is the ability of several companies to **transform innovation into tangible things** (industrial plant, machinery, equipment, etc.).

This is quite clear since the beginning in our name: **GESTEK IMPIANTI**.

Our wish is to become the state of the art in **Plant Construction Company** in order to be the first choice for the EPC Companies and General Contractors providing:

- plant construction engineering;
- quality control;
- BEST practice in manufacturing;
- qualified resources in absolute Safety;
- minimized environmental impact.

At the same time we also wish to be the first choice for our Partners offering them **competitive prices** and **operational and logistic support** for satisfying the needs and requirement of Final Customers.

OUR CLIENTS

These are some of our end clients.

Thanks to collaborations with leading construction and engineering companies, we have the opportunity to work with some of the most prestigious players in the reference industrial sectors in terms of know-how and innovation.

OUR VALUES

PROFESSIONALISM

Professionalism, a responsible, **efficient and effective attitude**, built on mutual trust and the desire to please all our customers. Promoting a fair attitude towards Gestek Impianti clients.

CUSTOMER ATTENTION

Customer attention means the attitude for **finding the best solutions** for our customers' needs. Providing **quality advice** aimed at any client wishing to benefit from our solutions and services.

EFFICIENCY

Providing Customers with **relevant information** to aid in the decision-making process, ensuring their needs and wishes are promptly considered throughout the construction process.

TEAM SPIRIT

Our success comes thanks to the **involvement of our company members** at any level and throughout the whole processes. Only through **genuine cohesion**, promoting and encouraging each other, our company managed to acquire a stable position and reputation.

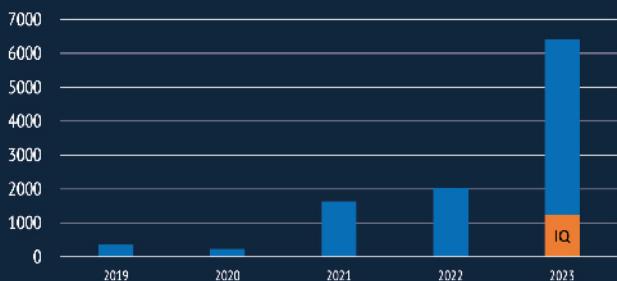

BEING PROACTIVE

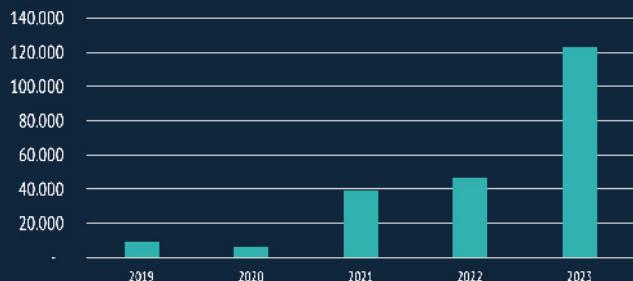

Looking ahead and focusing on things that you can control, avoiding to jeopardise resources on things you cannot predict and control taking responsibility of the construction project. We promote the ability to **propose solutions** to possible problems before they even become problems.

EVOLUTIONS & HSE OBJECTIVES

Turnover 2019 - 2023 in K€

Annual worked man hours

OBJECTIVES HEALTH, SAFETY & ENVIRONMENT

GESTEK IMPIANTI's Policy is to ensure the safety and health during the activities run by our employees and customers, while protecting the environment. Moreover, we focus on management and implementation program of **"Safety and Health at Work"** for everyone to ensure the appropriate procedures and standards practices.

GESTEK IMPIANTI recognize the need to adopt an **HSE Management System** in all its activities and is committed to achieve the following objectives:

- **Meet all standard:** local and national laws, rules, regulations and requirements set by the client in each site where our company operates.
- **Ensure Health and Safety** in order to eliminate or at least minimize the risks of accident and / or incidents, providing a safe and healthy workplace.
- **Prevent and reduce environmental impact** by applying the principles of prevention in all activities.
- Promoting and pursuing continuous improvement of **HSE Management System and Security benefits**, health workers and protection of the environment.
- Adopting a **Group behaviour** aimed at satisfying the needs and expectations of customers in accordance with HSE management system.
- Ensure that the **policy protection** of workers health, safety and environmental protection is **widespread, understood and applied** at all levels of the company through involvement of all resources.
