

High Precision Machined Components

UZMAN

More than 70 years of experience...

With over 70 years of experience, a highly trained workforce and investment in current and future developments, Uzman Makina is dedicated to providing our customers with high quality service at short turn around and fair prices.

Since its establishment in 1949, Uzman Makina has been manufacturing machine parts and components for a broad spectrum of industries including automotive, railway, agriculture, ship Building, hand tools, industrial transfer systems, garage equipments, Energy, Aerospace, Off-Shore and various machinery manufacturers.

To keep ahead of rapidly evolving technology, Uzman Makina has been surpassing customer needs using fully Computer Integrated Manufacturing (CIM) methods since the early 90's in order to provide timely, economical and long lasting solutions.

Firmly establishing its place in the global market, Uzman Makina exports 90 percent of its production with the majority of exports going to European countries. Exports continue to increase annually as Uzman Makina branches out to service customers world wide. Built on years of international trade experience, Uzman Makina has established itself as a market leader in servicing overseas customers in a timely and highly tailored manner.

Uzman Makina takes pride in combining over 70 years of manufacturing and engineering experience with advanced technology and a high caliber work force. Our goal has always been to build upon the trust that we have established with our customers and this will continue to be our goal for generations to come.

PRODUCTS

Precision Turned Parts

CNC Milled Parts

Aluminium Machined Parts

Casting & Machining

Pins & Bushings

Pneumatic Parts & Components

Automotive & Brake System Parts

Spindles & Shafts

Various Machinery Parts

Hydraulic System Parts & Components

Special Design Bolts & Nuts

INNOVATIVE PRODUCTION

**IMPROVEMENT AND
GLOBALIZATION
OPERATIONAL EXCELLENCE
FLEXIBILITY COST EFFICIENCY
COMPETITIVENESS LATEST
TECHNOLOGIES AND
INNOVATION**

Production

- CNC turning
- CNC machining 3&4 axis
- Grinding
- Thread rolling
- Broaching
- Surface treatments
- Heat treatments
- Welded assemblies

Materials

- Steel
- Stainless steel
- Alloys
- Non-metallic
- Aluminium

Fields of Activity

- Car industry and heavy goods vehicles
- Secondary constructions for cars and trucks
- Ship building
- Nuclear and electric power
- Building of railways, subways, tramways
- Engines, compressors, turbines
- Building and public works equipment
- Agricultural and forestry equipment
- Lifting and handling equipment
- Valves, fittings and pumps
- Motor parts
- Aeronautics and space
- Offshore
