

# MECB: Your Trusted EU Partner for Advancing Growth and Innovation

Based in Malta

## GET TO KNOW US

### About Us

MECB is a private, technical consulting bureau based in Malta, dedicated to driving excellence and innovation. We achieve this through partnership projects fostering technical innovation and training in organisations across a range of EU Member States. MECB consists of a team of like minded individuals, all passionate in generating, transferring and applying useful knowledge.

### Why Partner with us?

By partnering with MECB, you gain from our several years experience of commencing and successfully completing assigned Projects including EU funded ones. This means we are fully aware of how such projects practically work with a mix of partners having different cultural backgrounds and also, how to ensure that high quality scientific deliverables/ outputs are generated within EU project financial rules and within agreed project deadlines.

### Sectors We Serve

- Manufacturing
- Sustainability
- Engineering
- Research & Innovation
- Technology
- Education

#### Multi-Disciplinary Approach

With MECB, product design, eco-innovation, and digital outreach come together

#### Systematic Innovation Management

From systematic root-cause analysis to innovative solution conceptual design

#### CAD Modelling

Generation of 2D & 3D models for simulation, technical validation and/or 3D Printing

#### Technology Solution Advisors

We help entities identify what technologies can enhance efficiency and drive sustainability

#### Knowledge Transfer Enablers

We develop learning solutions, from curriculum design to AR/VR and e-learning

#### Outreach & Engagement

We deliver effective dissemination solutions, from web and social media to workshops and stakeholder outreach
