

PROREGIA SECURE PLATFORM

Our well established platform
secures all components of your
medical device system with
practised ease.

THWART HACKERS END-TO-END

Protect your medical device
using end-to-end security
and cryptographically
strong authentication.

SPEED UP MARKET ENTRY

Just as the early bird catches the worm,
the fastest manufacturer corners the
market. Beat the competition by
leveraging shorter development cycles.

GAIN FLEXIBILITY

Breath new life into legacy products. Our adaptable platform components fit any use case.

EMPOWER YOUR PATIENTS

Reap the benefits of mobile devices without the security disadvantages.

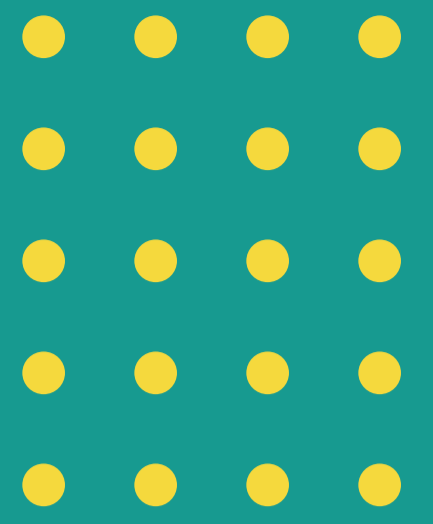

COMPLIANCE GUARANTEED

MDR, GDPR, FDA, HIPAA, ...
Compliance requirements
keep on growing. Our
platform covers all your
regulatory needs.

BATTERIES INCLUDED

FULLY MANAGED

The secure platform is a fully managed solution and comes with a complete cybersecurity concept and automated Post Market Surveillance. V & V has never been this simple.

GAIN NEW INSIGHTS

The platform's telemetry data can be analysed in the product dash board. Detect irregularities with AI and gain insights for product development.
