Where the future awakens

Isabela Zimerer Pizani

Founder of **ATON**

Visionary. Builder. Conscious Leader.

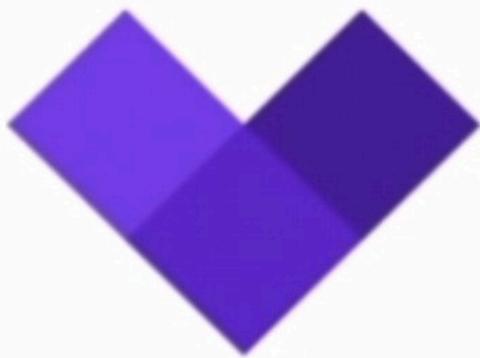

We build technology that
empowers. With purpose
and consciousness.

Our purpose is to
create a new era

The world doesn't need more tech, **it needs better tech.**

1. Consumerism is unsustainable
2. Tech is addictive
3. People are lonely and distant from each other

**A peer-to-peer rental
platform that transforms
idle objects into income,
connection, and
conscious use.**

How Share Works – In 4 Precise Steps:

1. List an Item

Upload photos, set the price and availability — your item is now rentable.

2. Find & Book

Users nearby search, find, and request to rent what they need.

3. Secure Handoff

Both parties validate the rental using a unique QR code — simple and secure.

4. Earn & Return

The item is returned. You earn money. The planet wins.

Share creates value. For people. For the planet. For the future.

1. Economic – Extra income for everyone
2. Social – Trust-based communities
3. Environmental – Less waste, more use

"The global sharing economy is projected to reach over \$3 trillion by 2033, growing at 32% annually."
