

ESG VISA

The Global Passport to
Sustainable Business

Every person has an **identity**.

Every company has a **financial identity**.

Every country has a **legal identity**.

But sustainability has no global identity.

We create

**The Global Passport for
Sustainable Trust.**

The Missing Layer in Global ESG System

ESG Verification Infrastructure

Current ESG Challenges

Fragmented standards

Inconsistent reporting

Greenwashing risks

Disconnected ESG data

Low Trust, Low Comparability, Low Impact

Digital Passport for Sustainability Identity

Technology Foundation

IoT sensors: Real-time Data

Blockchain: Transparent and Traceable data

AI Algorithm: Automatic Analysis

Cloud Computing: Cross boundaries

Digital Passport (ESG Verification)

Application

Smart buildings

Sustainable businesses

Circular economy

Future cities

From Compliance to Intelligence

Traditional ESG

Reporting / Annual Disclosure / Compliance

Future ESG

Verification / Continuous Intelligence / Regeneration

Credentials

Academic Foundation

PESTLE Analytical Foundation
System Architecture Design
NEXIS Theory Consolidation

Award Recognition

Silver Winner, Guangdong-HK-Macao
GBA Innovation Awards

Winner, Growth Potential Award –
Shenzhen "Golden Seed" Co-Innovation
Program

Winner, BDA 2026 ESG Award,
Innovation and Technology Award

Institution Support

HKSTP
PolyU Micro Fund
United Nations Global Compact

Market Differentiation

Starting from Buildings
Scaling to Global Systems

First Application
Smart Buildings

Expansion
Businesses
Communities
Cities
Global Sustainability
Network

Why ESG VISA Matters Globally

ESG VISA changes the paradigm

From Reporting
To Identity

From Local Standards
To Global Passport

From Compliance
To Trust Culture

The Future Has a Sustainability Identity.

- Inviting partners for Project DAWN
- Creating digital identities for future

The future of sustainability is trust.

ESG VISA is building
the global trust infrastructure
where sustainability becomes

Verified.

Portable.

Continuous.
