

Enabling Smart Mobility.

Fluidtime

Fluidtime makes companies, communities and regions more sustainable. We are changing the way people travel with smart technologies.

Mobility alternatives
(private/ public)

Companies, Tourism,
Municipalities

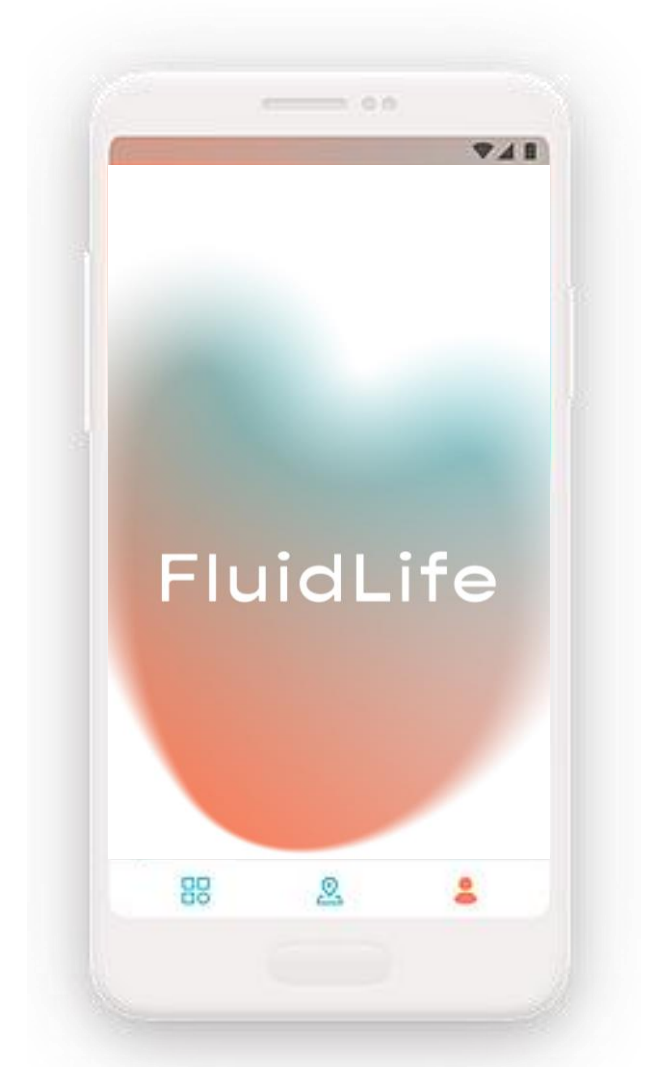

Shared Resources
(Co-working spaces, sport
fields, Cargo Bikes ...)

FluidLife: Be mobile, share resources and save CO2

FluidLife makes it easy to use shared resources and mobility and keep our carbon footprint low. No matter where we live, work or spend our free time, FluidLife is the key to more sustainability. Because everything we do generates CO2. Let's be mobile with FluidLife and use things without owning them. This protects the environment and our wallets.

WEITER

Departure monitor & route planner

- Public transport stops & stations, sharing stations, etc.
- Departure times in real time
- Route planning for private (bike, car) as well as public transport (public transport, soon: e-scooters, carsharing, etc.)
- Information on kcal/Co2 consumption
- Save important stations/addresses as favourites

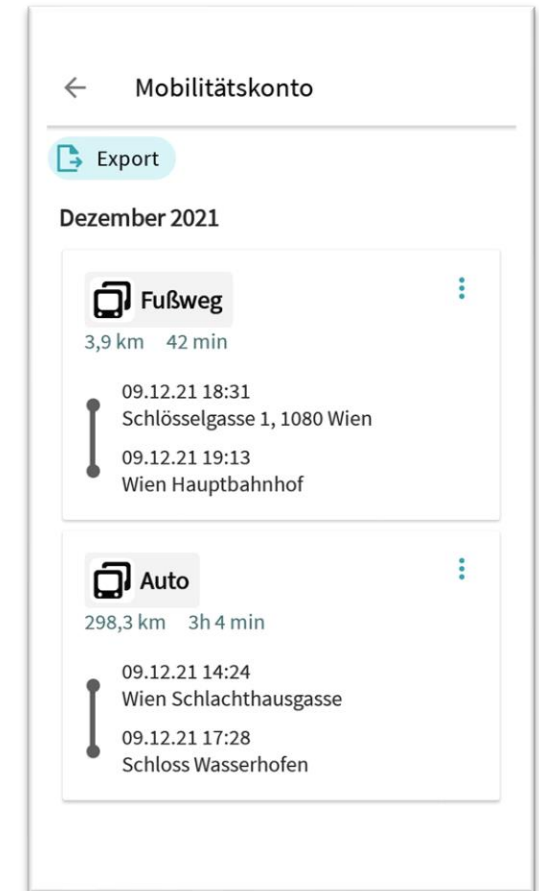

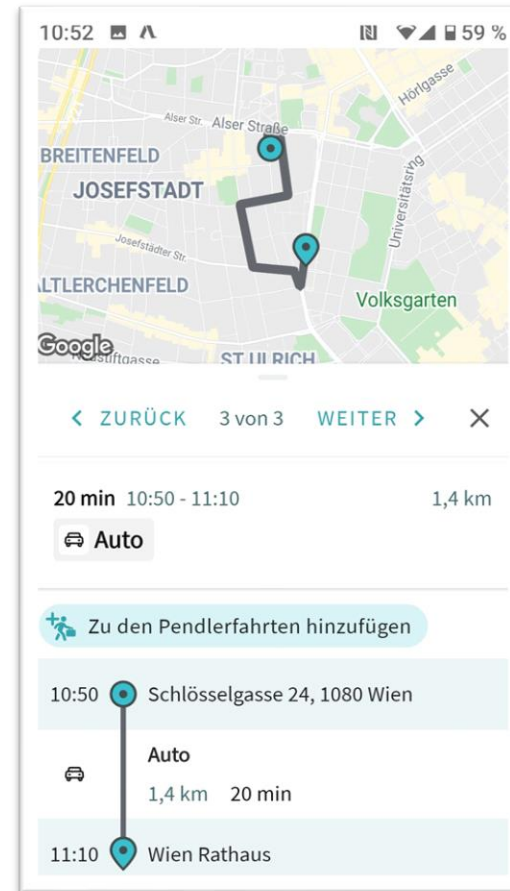

Save and export journeys by car, bicycle and on foot in the travel log

Record all journeys in a personal travel log by using the route planner.

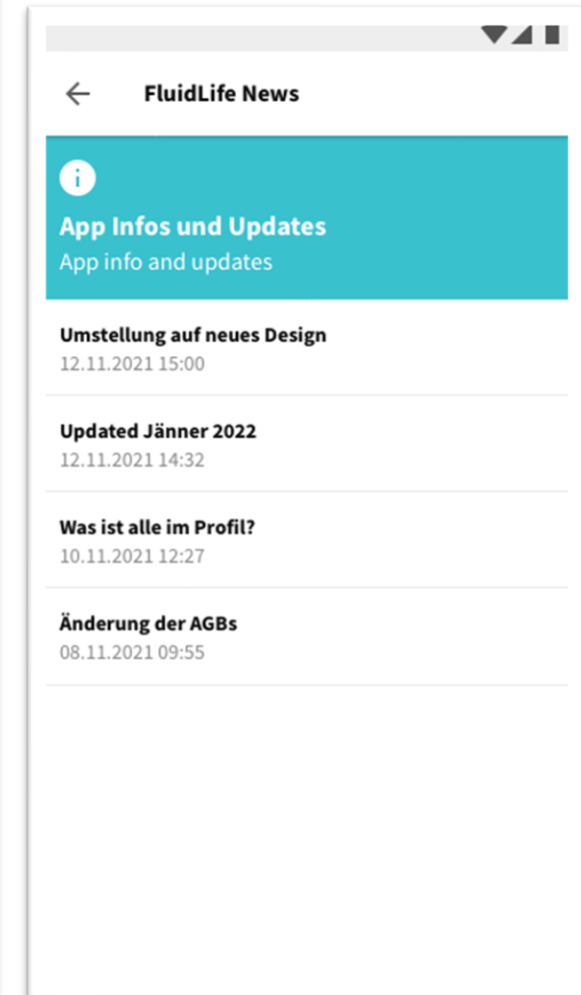

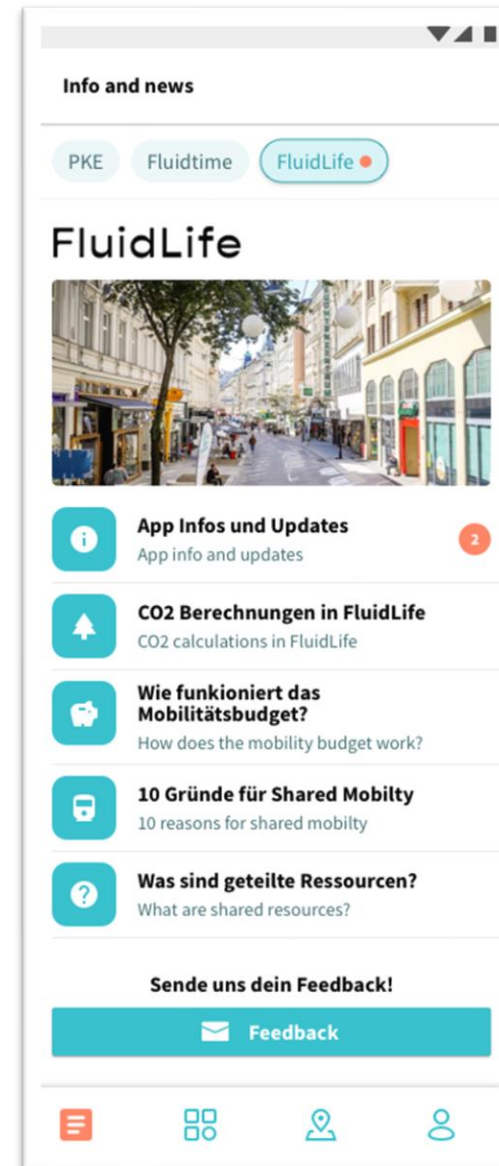

- Route details (time, duration, start/end point, distances in km, amount of CO2 emissions)
- As incentive or for motivation programs (CSR/ sustainability)

Active exchange of information

- Intranet messages/newsletter articles
- New public sports fields
- Fundraising campaigns
- Festivals & Announcements
- Info on planned construction works & road closures
- Important dates
- Canteen menu

Encourage direct communication

- Lost/found items
- Problems with mobility services/vehicles
- Damage to buildings, lamps, PCs
- Use of shared resources
- Open Feedback

Flexibility in the individual mobility budget

No matter if it's an employer, a hotel, a municipality or a university campus. Our principle is: you choose CO2-conscious mobility alternatives, someone else pays for it.

- Promote local consumption and support businesses in the community.
- Incentivise CO2-friendly mobility (car-free days, get to know e-mobility)
- Replace company car /Downsizing
- Replacing the classic „taxi voucher“ in municipalities

The screenshot shows a mobile app interface for a 'Booking Summary'. At the top, there's a back arrow and the title 'Booking Summary'. Below this, a section for 'Estimated Price' shows 'approx. €9.00' and a note that the total price is calculated according to consumption. The 'Payment' section shows the 'Account' as 'Fluidtime Company Account' with a yellow circle icon. Below this is a dropdown menu for 'Select cost center' with 'Employee Mobility Allowance' selected. Other options in the dropdown are 'Employee Mobility Allowance', 'Marketing Cost Center', and 'Sales Cost Center'. The 'Pick up' details are '10/11/21 2:30 PM' at 'Couwenburg'. The 'Vehicle' section shows a red car icon and the code 'H071VZ'. At the bottom, there's a note about accepting terms and conditions and a deductible when clicking 'Buy now'. A large blue 'Book' button is at the very bottom.

← Booking Summary

Estimated Price approx. €9.00
The total price is calculated according to consumption.

Payment

Account
Fluidtime Company Account

Select cost center
Employee Mobility Allowance

Employee Mobility Allowance
