

## Pillar 2

### Session 2.4 Skills needs

## Amy Peace

### Senior Innovation Specialist

### SPRING Project Principal Coordinator

### Britest Ltd

Amy Peace is a Senior Innovation Specialist at Britest and Project Coordinator for two SPIRE projects: STYLE (Sustainability Toolkit for easy Lifecycle Evaluation) and SPRING (Setting the framework for the enhanced impact of SPIRE projects). She is a Chartered Chemical Engineer and has experience of working both in industry (ICI and INEOS) and for the public sector (UK Chemicals NorthWest cluster). At Britest, Amy develops approaches and facilitates studies for helping companies to turn their knowledge into process understanding for problem solving and whole process design. Sustainability is always at the forefront of Amy's work, but with a focus on the challenge of actually getting projects, methodologies and technologies exploited by industry; emphasising the importance of human factors and pragmatism.
