

## Pillar 3

### Session 3.3 Co-funding/other funding

## Martin Bunček

### Director

### Technology agency of the Czech Republic

Martin Bunček is the managing director of the Technology Agency of the Czech Republic. He has been with the TA CR from its foundation in 2009 first as a member of the board and then between 2014 - 2017 as the vice-chairman. He received a master's degree in biological materials from the University of Pardubice and a PhD in biochemistry from Charles University in Prague. He gained R&D and management experience in the biotech company Generi Biotech. He gave lectures in molecular biology at the University of Pardubice and has been a member of several evaluation boards and committees both on national and international levels.
