

Pillar 3

Session 3.6 Metrology - next steps

Petra Milota

Head of the Physico-Technical Testing Service Federal Office of Metrology and Surveying

Since January 2014 Head of the Physico-Technical Testing Service (PTP) of the Federal Office of Metrology and Surveying (BEV), Vienna. Since March 2011 Head of Unit Flow, Temperature and Photometry at the National Metrology Institute (BEV);

Main tasks are management of unit in technical matters; Conceptual design and engineering of measuring methods; Procedure for type approvals; Quality Management; International research projects (EMRP); Representative in national and international technical committees (EURAMET Technical Committee Chair for Flow (since 2015), EMPIR Committee Representative - European Metrology Programme for Innovation and Research (since 2016), Member at EMPIR Sub Committee for Capacity Building (since November 2016),...)

Education: August 2007 Doktor in Atomic Physics at Vienna Environmental Research Accelerator (VERA) -

Isotopic research - Faculty of Physics - University of Vienna

Topic: The Silverpoint Drawings of Albrecht Dürer: A Proton Induced X-Ray Emission Analysis (PIXE) with an External Proton Beam at VERA

July 2004 Magistra in Aerosol- and Environmental Physics at the Faculty of Physics - University of Vienna

Topic: Über die Eichung von Berner Niederdruck-Impaktoren
