

Pillar 3

Session 3.2 European Innovation Council (EIC) - SME instrument

Erich Neubauer

Managing Director

RHP-Technology GmbH

Dr Erich Neubauer studied Technical Physics at the Vienna University of Technology and at the Technical University in Munich. He did his PhD in a cooperation between the Austrian Research Centers and the Vienna University of Technology. After his studies he joined in 2003 the Austrian Research Centers (now Austrian Institute of Technology) as scientific co-worker and later as project manager with responsibility on research activities in the area of Metal-Matrix Composites. Since 2010 he is managing director of RHP-Technology GmbH, a spin-off company of the Austrian Institute of Technology. The company is specialized on development and manufacturing of customized materials using powder technological processes.

Dr. Erich Neubauer has been working more than 15 years in the material and process development of high performance materials with more than 100 contributions at conferences and scientific papers as well as 6 filed patents.
