

Keynote day 2

Tomas Hedenborg

Group CEO

Fastems

Tomas Hedenborg is Group CEO of Fastems, a supplier of flexible manufacturing systems and robotics-based automation. Since December 2015 he is also President of Orgalime – The European Technology Industries. Mr Hedenborg previously held the position of President and CEO of both Finn-Power Oy (2005 -2011, machine tools) and HBPO, Germany (2000 – 2005, front end modules for the automotive industry). He has a strong background in mechanical engineering, specifically in the automotive and machine tool sector. After spending first 10 years of his 33-year professional life in management positions in the R&D area, he has since carried global responsibility for organisations with high development potential. Born 1959 in Finland, Mr Hedenborg holds an MSc in Mechanical Engineering from Helsinki University Technology (now Aalto University)

Other positions:

- Board member of Kemppe, leading welding technology company
- Board member of the Federation of Finnish Technology Industries
- Chairman of FIIF, Finnish Industrial Internet Forum”
