

## Pillar 2

### Session 2.6. Artificial intelligence/ Ethical issues of data management

## Torsten Osthus

**CEO**

**OSTHUS Group**

Dr. Torsten Osthus is laterally thinking entrepreneur and CEO of OSTHUS Group, a multinational data consultancy and tech provider headquartered in Aachen, Germany, with data innovation frameworks deployed in 16 of the top 20 big pharma companies in the world. For two decades, his team has worked with executive teams in diverse industries to introduce a culture of innovation that drives enterprise value. Osthus published Chefsache Empowerment in 2015 to equip technology teams with the tools necessary to foster a culture of high tech disruption to the workplace. Today, OSTHUS Blueprints serve as the choice methodology for companies seeking to discover value in big data, digitization, artificial intelligence, and deep learning.
